### A Sale Extraordinary of

## Fibre Reed Furniture

At Half the Prices of 1920

*There Is Not a Furniture Bargain in the City to Class With This*

Many of the pieces in this sale are offered for actually less than the present wholesale prices.

We purchased a car load of this fine Fibre Reed Furniture from a Grand Rapids manufacturer who was considerably overstocked and forced to sell at a remarkable loss. You are to benefit through the absurdly low prices at which we now offer this Furniture to you.

### Fibre Furniture Is Durable, Comfortable and Beautiful

These pieces are not prison made but are manufactured by a large Fibre Furniture Company in Grand Rapids. The fibre is wound on a wire frame and twisted tight. This is then woven into the piece and varnished. This kind of furniture will not crack or splinter.

The upholstery is splendid. Strong wire springs are used in the seats of the better pieces and the coverings are of a good cretone in many patterns. Seat cushions are detachable so that new coverings may be put on with very little effort.

### All Pieces Are in Brown or Frosted Brown Finish
