

will give assurance to everybody concerned. I want to convey to you in this message the assurance of the prompt and full support of the federal government whenever and wherever you find your own agencies of law and order inadequate to meet the situation.

"Your state government and the federal government are jointly responsible for maintained conditions under which free men, willing to work, may work in safety. We are responsible for the production and the transportation of a fuel supply ample for the necessities of the American people and the public utilities which serve them, particularly the railways engaged in interstate commerce. We must have ample coal to maintain industrial activity. We must have the coal necessary to the health, security and the activity of all the people. I reiterate to you these details because it is important to have it understood how far the federal government has gone and will go in seeking a voluntary adjustment. Thus far there has been no challenge of the right of workers to decline employment or the right of the employers to hire as they elect.

Common Welfare First.

"Our present duty is to guarantee security in the exercise of these rights, security in all lawful operations, and afford a safe opportunity for that production and distribution as demanded by the necessities of the American people.

"There has been no government assumption of a part in the dispute between organized employers. I did offer the only available means I knew to settle the difficulty.

"It remains necessary, therefore, in the name of the commonwealth to invite protection in the fulfillment of that obligation which attaches to an American industry engaged in providing any public necessity and to afford security to all men alike who are ready and willing to do that work and serve the common need. No cause is so important as that of common welfare and there must be the supervisors of every unlawful hindrance to the service of that cause. To the task of lawful protection and the maintenance of order the federal government pledges to you every assistance at its command."

"WARREN G. HARDING."

While there was no evidence at the war department that the president's move had resulted in any immediate change in the status or station of troop units, it was evident that the military authorities had been advised of the decision and had made plans accordingly.

Requests Not Necessary.

Sec'y Weeks indicated that the state authorities would be given opportunity in any case of disorder to control the situation with the means at their command before the federal power would be invoked. It was made plain, however, that a request from a state was not deemed absolutely essential for federal troops to be sent where their presence was deemed necessary, or for the federal government to summon the national guard of a state if supplementary troops were needed. The government held the opinion, it was said, that at its disposal under present laws was not only the regular army but the full strength of the national guard.

Legal authority for employment of the regular army or the national guard in the way contemplated to protect coal mines was expected to be found in the "insurrection" sections of the revised statutes which are known to have been under study recently at the war department.

"The action of the government will in no manner change the position of the mine workers," declared John L. Lewis, president of the United Mine Workers, after reading the message. "or result in termination of the strike. Men who are voluntarily on strike will not return to work because armed guards are placed around the mines. There is no question of law and order involved, because the mine workers are punctiliously observing the requirements of law and order and no troops are necessary."

NEW YORK FIRE STILL UNCHECKED

4,000,000 Gallons of Water Fail to Stop Blaze—Two Firemen Killed.

(Continued from Page One)

lagers" began co-operating with the authorities in relief work.

District Attorney Egan, following a conference with fire department officials, said late Tuesday afternoon that an explosion of a case of magnesium powder caused the fire. He said that 35 cases of magnesium had been taken into the building since March 5 and that some of them were being taken out by way of the elevator, when one was dropped and exploded.

The heat, he declared, ignited the other cases, and then followed the great explosion as flames began to seep through into the powder.

Detroit Street Railways Make Profit of \$98,000

DETROIT, July 18.—(By U. P.)—First figures to be drawn up in two months show that the Detroit street railways made a profit of approximately \$98,000, according to Henry E. Egan, Jr., city controller, Tuesday. The controller said this profit was for 60 days.

J. S. Goodwin, general manager of the lines, in a statement recently, said that he would be satisfied under the present enormous amount of repair work cost to show a balance for the first 60 days.

WILKERSON CONFIRMED.

WASHINGTON, July 18.—The nomination of James W. Wilkerson, to be federal judge for the northern Illinois district, succeeding former Judge Landis, was confirmed late Tuesday by the senate.

SENTENCED FOR SHOOTING LA PORTE, July 18.—Oscar Morris, 27, who shot Wesley Morgan July 1, following a quarrel over a 50 cent debt he owed Morgan, was fined \$500 and costs and sentenced to six months on the penal farm Tuesday. Morgan is still in a serious condition.

CRUSHED BY WAGON.

SPENCER, July 18.—Ralph Harwood, 16, was killed Tuesday when he was thrown from a wagon and crushed under its wheels. The mule team drawing the wagon ran away.

PEACE EFFORTS IN RAIL STRIKE STILL PROGRESS

Maintenance-of-Way Head Says Path to Early Adjustment Remains Open.

(Continued from Page One)

railroad and the Chicago & North-western were granted permanent injunctions here Tuesday, prohibiting picketing and intimidation by unions now on strike. Temporary injunctions were issued to the Pere Marquette at Detroit, the Baltimore & Ohio and the Louisville & Nashville at East St. Louis, and the Wabash road at St. Louis.

Chemical analysis of the milk served at the Chicago, Milwaukee & St. Paul railroad yards, which made about seventy workers ill, disclosed that the milk contained croton oil, city health authorities said.

CALIS CLERKS OUT.

RICHMOND, Va., July 18.—An order was issued Tuesday by General Chairman H. J. Osborne of the Brotherhood of Railway Clerks, calling the members of the Chesapeake and Ohio system out on a strike. The order is effective Thursday morning at 1 o'clock, eastern standard time. The strike order, it is said, will affect approximately 3,000 clerks on the entire system of the Chesapeake and Ohio.

GRANTS RESTRAINING ORDERS.

HAMMOND, Ind., July 18.—(P. I. N. S.)—Judge Francis E. Baker, sitting in federal court here Tuesday afternoon, granted temporary restraining orders against state and international officials of the railroad shopcrafts unions, asked for by the Monon, the Chicago, Indianapolis & Western and the Erie railroads.

RUSSIANS WIN RUBBER IN GAME AT HAGUE MEET

Force Surrender to Demand for Joint Session to Revive Conference.

(Continued from Page One)

debts and the recognition of pre-war debts. After that, it will be possible to discuss the credits it will recommend for Russia.

The goyets say they can not agree to a blanket restoration of expropriated property, though they may restore it through private arrangements with the former owners. They are ready to discuss forms of compensation, but deem it imperative to know first the total amount of claims against Russia and how much financial assistance the world is ready to grant their government. But the European nations emphasize that new help for Russia is only possible when the world gains new confidence in Russia. Confidence can only be restored by Russia returning seized property or promising indemnity to foreigners for the losses incurred through the nationalization of property.

This is the "vicious circle" which has caused the Hague conference to totter. Whether it can be put on its feet again may be gleaned Wednesday when the men from Moscow have the floor.

CHILE AND PERU COME TO FINAL AGREEMENT

WASHINGTON, July 18.—The United States scored another important diplomatic victory when, as the result of the good offices of Pres't Harding and Sec'y of State Hughes, Chile and Peru settled their dispute of 40 years over the province of Tacna-Arica in South America.

A protocol by which both parties agreed to submit the dispute to the arbitration of Pres't Harding and abide by his decision was completed. The conference, which has been in session two months, will formally end with a plenary session Thursday.

CHILD DROWNED.

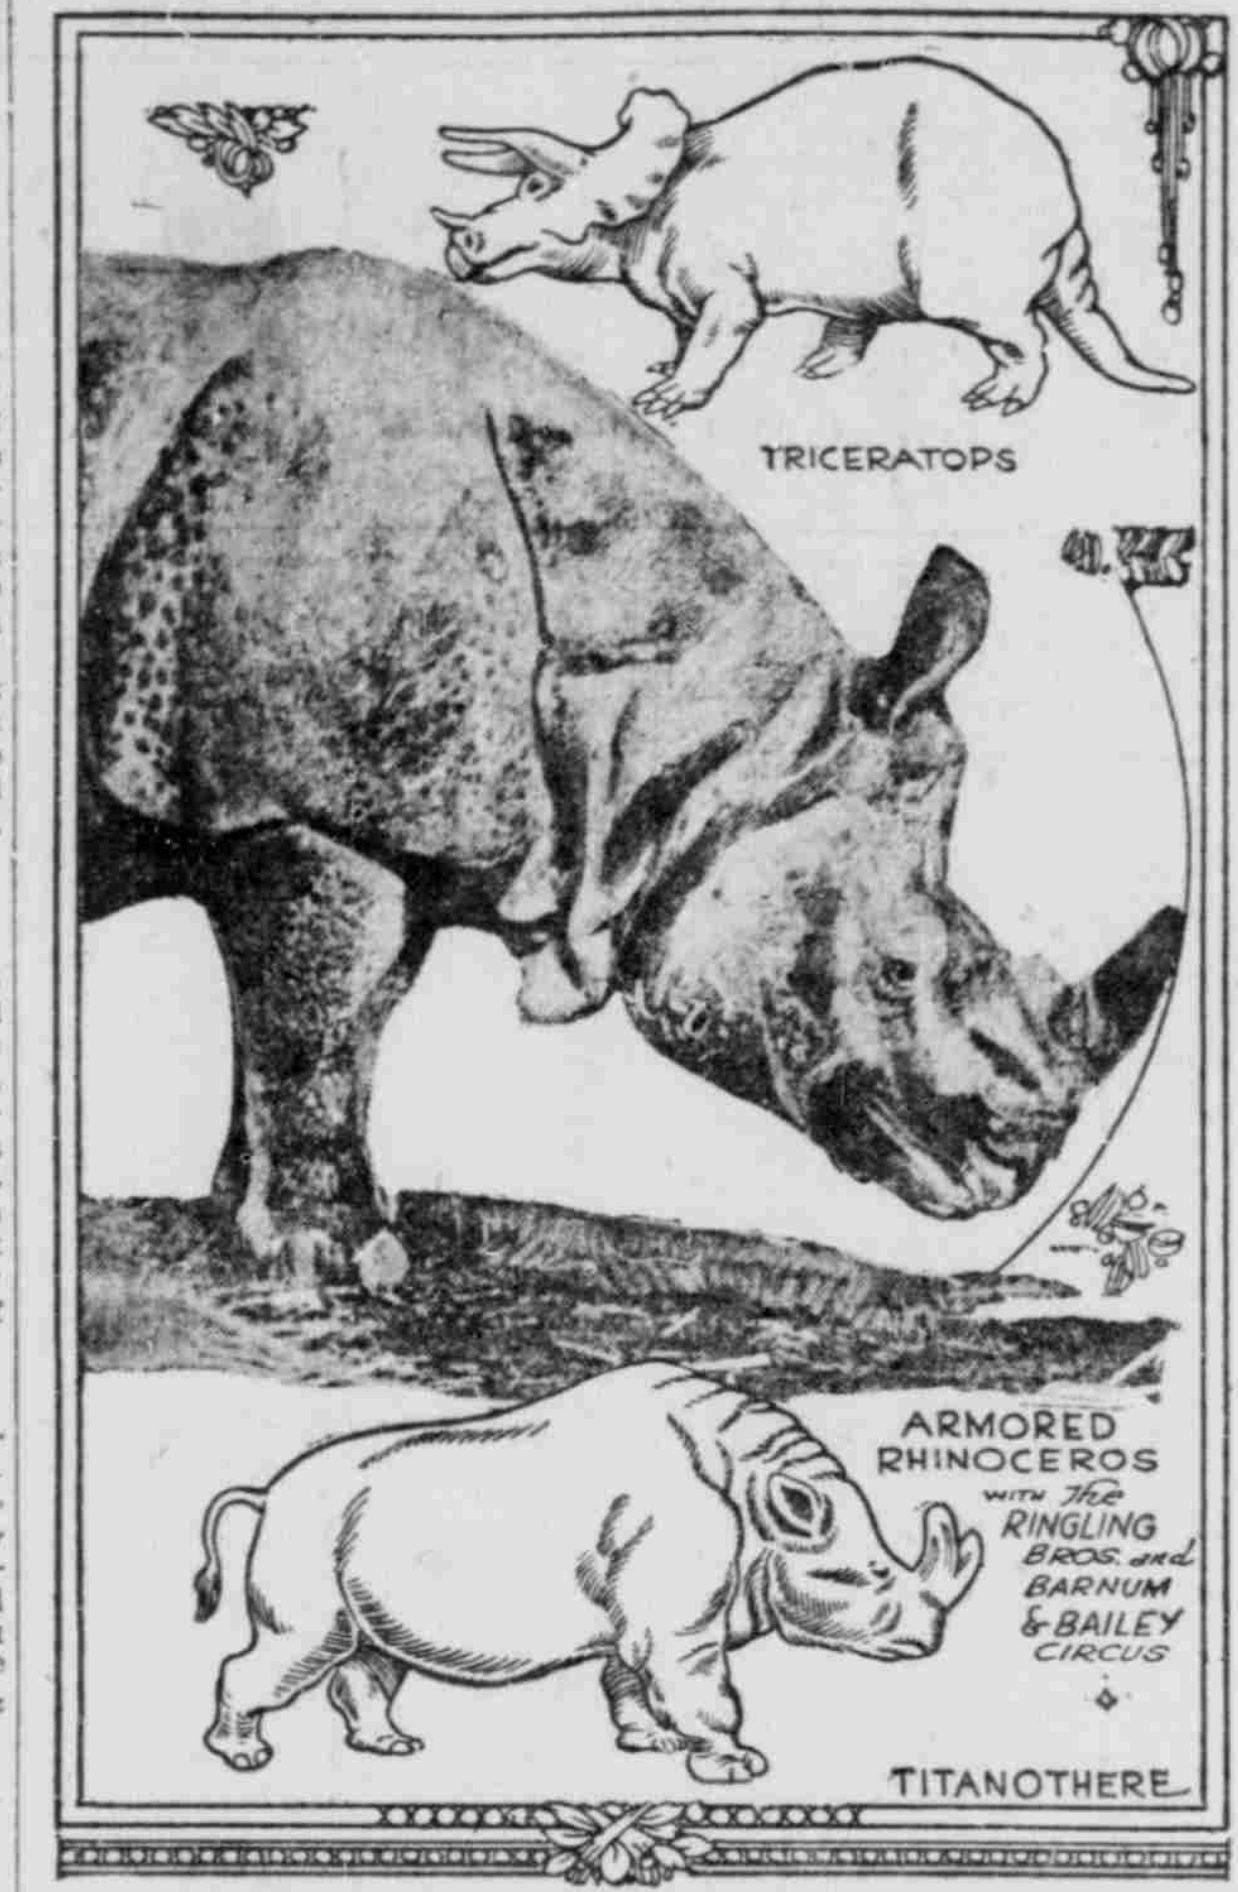

INDIANAPOLIS, Ind., July 18.—Gale Fink, eight years old, was drowned at a municipal playground Tuesday afternoon when she disregarded the warning of a matron against venturing into deep water.

A Big Kitty

Gertrude Sheehan isn't afraid of her biggest cat although it created a near-panic when discovered in a room of a New York hotel. A South American brought it along as a pet.

Rhinoceros is Prima Donna Among Animals In Ringling Menagerie

Of all the thousand and more animals of the Ringling Brothers and Barnum and Bailey menagerie, many of whom rejoice in high-sounding names, "Big Bill", the rhinoceros, is easily the prima donna.

Bill is the star of the zoo for the simple reason that he is the only one of his kind known to exist. There may be other East Indian armored one-horned rhinoceros somewhere in the jungles but if so none has been sighted during the past several years. Commonplace as is his name, Bill is the Kohinoor among beasts. One of the New York zoos has made an offer of \$25,000 for him. The Ringling Brothers value Bill at \$50,000, and would not sell him even at that price.

Big Bill is not prepossessing. In fact no other so nearly approaches the pre-historic monster in appearance. He is considered by scientists

CROPS DOING WELL FOLLOWING RAINS

Wheat and Rye Are Nearing Completion, According to Official Report.

INDIANAPOLIS, July 18.—Despite the fact that considerable damage resulting from storms occurring in some places in Indiana generally have been favorable to nearly all crops, according to the semi-monthly report of George C. Bryant, agricultural statistician of the U. S. department of agriculture, made public here Tuesday.

"Good rains occurred early in the month in practically all sections of the state," the report says. Corn is now tasseling in the majority of the southern counties and most of crop has been laid by under favorable conditions, the report continues. Wheat and rye are nearing completion in all except the extreme north counties. The yield is variable but a great crop is expected. Chinch bugs have done considerable damage in places.

Many oats and barley fields in the south part of the state have been abandoned and stock turned on to them. Some good fields are reported in the north part of the state but the crop generally will be short.

Weather conditions have been favorable for potatoes and the early crop is coming on the market. Tobacco is doing well. The acreage is larger than last year. Heavy yields of clover have been reported over

the state. The clover harvest is over and southern farmers are now at work on the timothy crop.

Small fruits were benefited by recent rains. There will be a great crop of apples and peaches. All livestock is in good condition. The farm labor supply equals the demand.

Funerals

ELLET S. NEWMAN.

Funeral services for Ellet S. Newman, 66 years old, who died suddenly of heart trouble at his residence 1115 Lindsey st., Monday evening at 10:30 o'clock will be held at the residence Thursday afternoon at 2 o'clock. Rev. Rutten of St. Paul's Memorial church, officiating.

Besides his mother, Mrs. Nancy Newman, he is survived by his widow, Anna, two daughters, Mrs. Herbert Clewell and Mrs. Hazel Bower; a grandson, Jack Bower; two brothers, Frank and William Newman, and a sister, Mrs. Mary Stuck. Mr. Newman was a member of St. Paul's Methodist church; Woodmen of the World; and the Plasterers' union. Burial will be in Highland cemetery.

FILE REMONSTRANCE.

WARSAW, July 18.—A remonstrance, containing the names of 465 objectors, has been filed with the county commissioners against the proposed L. B. Mendel concrete road in Seward township.

The jewels of the shah of Persia, which are worth millions of dollars, are guarded by 50 armed men.

Bootblack Sold Liquor on Public Square, Is Charged.

GOSHEN, July 18.—Ora Maurer, a Goshen bootblack, who was fined \$120 and given suspended sentence of 60 days at the Putnamville penal farm when he pleaded guilty before Mayor Rimpler on a charge of illegal possession of liquor, is said to have disposed of a gallon of moonshine on the public square here for \$15.

It is also declared that Maurer, with a quart of the "booze" and a whiskey glass in his pocket, peddled the stuff to a Saturday night crowd in the business section at 15 cents a drink.

At the time Maurer was arrested he was in the rear of a cafe he was drunk. Arraigned before Mayor Rimpler, he begged for mercy and pleaded with the mayor not to send him to the penal farm.

NOMINATION HELD UP.

WASHINGTON, July 18.—Naming of John E. Ward as postmaster at Gas City, Ind., was held up by the senate Tuesday at request of Senator Harry S. New. Charges against Ward are in the mail and should be received before his nomination is confirmed. New told the senate. Citizens of Gas City telephoned him, he said, and asked that the nomination be held up, until the charges are received. The nature of them is not known to New.

Busy Day—Assassins Sentenced to Death While Two Turn Gun

LONDON, July 18.—(By U. P.)—Reginald Dunn and Joseph O'Sullivan, assassins of Field Marshal Sir Henry Wilson, were sentenced to death today.

BERLIN, July 18.—(By U. P.)—Fisher and Kern, the assassins of Dr. Walter Rathenau, foreign minister, committed suicide today as police were about to arrest them at Bad Koesen, Thuringia.

The two had barricaded themselves in a tower on top of a mountain.

Volley after volley of shots was fired upon the murderers by the police. As they were being closed in upon police heard them shout "you cowards!" This was followed by two shots within the stronghold.

Kern and Fisher were dead when police found them. They had shot themselves through the temples.

In Palmyra, Syria, there is a flying physician who locates and visits his patients among the wandering Bedouin tribes by means of an airplane.

Thirty thousand head of deer are killed every year by mountain lions in California.

Gunpowder is said to have been discovered by Roger Bacon.

LEGAL NOTICES

CLASSIFIED NOTICE TO BIDDERS.

Notice is hereby given that the undersigned, Trustee of Portage Township, in and for the County of St. Joseph, Mo., will receive bids at his office in the Court House until 7:00 o'clock P. M. on the 24th day of August, 1922, on the items in classes in the amount stated herein. Bidders will be required to give such description of articles mentioned in their bids as will enable School Authorities to judge of their relative merit, unless a specific description of the article is im-
