A PAPER FOR THE PEOPLE.

MAN ABOUT TOWN.

Ornithologists say the farthest northern point to which the southern blackbirds fly is two miles northeast of this city on the Poor Farm road. Several men in this city have long been aware of the fact and every spring they get young birds in an orchard near the King dairy and raise and sell them. Many persons have been curious to know where these men got their mocking birds.

Why not have a public celebration of the eighty-fifth birthday of Terre Haute's distinguished, and much loved citizen, Col. R. W. Thompson, next June?

One feature of the affair of The Express and the law firm, one of whose members made a cowardly assault on Mr. Allen, that attracts the attention of the thinking citizen is this: If The Express' statements as to the course of the lawyers in securing clients are true they ought to be disbarred, not to say prosecuted under the law against barratry. The bar has a duty to perform in its own vindication, one way or the other. The lawyers should be made to refute the charge or be disbarred. The incident has started a good deal of quiet talk on this line among citizens. Of course there is always a tendency on the part of some persons to accuse lawyers indiscriminately of shady conduct in the practice of law but stories are told, by men who do not talk recklessly, of instances of soliciting and promoting litigation quite as bad as anything The Express has accused Eggleston & Walker of doing.

The trustees of Coates College have issued an address to the public in regard to the financial condition of the institution, as a preliminary step in an effort to raise \$50,000 to pay the debt and thereby relieve the college of a burden which menaces its existence. The trustees give their word for it that hereafter the college will be conducted at an expense within its income. It is known that the expense account can be curtailed and this will be done. The trustees say that the shortage in the past six years on interest and expenses is \$10,000. The remainder of the debt was created by the purchase of Hulman park, the purchase of furniture, apparatus and the erection of new buildings and repairs. The faculty is a big one, an expensive one and a first class one; the curriculum is high and the reputation of the institution is growing. It is an old joke in newspaper offices that anyone can print a model newspaper if he has the money to employ first class talent and plenty of it but the trick is to build up the newspaper with nothing but its revenue to pay the bills. Perhaps the same is true of a college. However, the trustees say they are going to "live inside their income" hereafter. They are in search of three men who will give \$10,000 each toward lifting the debt. After they get this \$30,000 they will bait the hooks for smaller fish. There is hope of raising one \$10,000 contribution in Indianapolis. The return benefits are totalize in \$70,000 that will be annually expended in this city by reason of the college being located here.

This week has been looked forward to, no doubt, by President Parsons, of the Normal, ever since the revolt on the part of the students last June. It was to tell the story of the effect on the institution of the defection. The attendance at the beginning of this spring term would show whether or not the opponents of the president were talking advisedly when they said the attendance would fall off unless the board of trustees made a change in the school management. The attendance is larger than ever before but that does not mean that the defection is entirely removed by a good deal. There is no outward evidence of it at present and no doubt there is less of it than last year, but those who know the true inwardness of the situation know that the opposition still exists but it is of a passive nature.

I talked with a man last night who had just graduated from the Keeley institute at Dwight, Ill., and who carried on his person a certificate to the effect that he is a member in good standing of the Bi-Chloride of Gold League of the United States. He was very enthusiastic over the gold cure, and seemed not to care who knows he had been there. He had a more pleasing experience there than some others, however, from the fact that he went there sober, and the medicine doesn't have the sickening effect in a case of that kind as it does when the patient goes there under the influence of liquor. He had an interesting lot of anecdotes to relate concerning the patients, physicians, and circumstances connected with the Keeley place. Among the patients there during his treatment was the judge of one

of the highest courts of Manitoba, who, accustomed to authority all his life, expected to have everybody stand around and obey his beck and call. He wanted the doctors to visit him in his private apartments and treat him, but he was compelled to take his place in line and have his arm punctured with the common herd. The latest graduate informed me that Terre Haute had quite a respectable representation on the list at Dwight, including men who are prominent in the professional, labor and political world. It includes also a well-known saloon keeper, who tired of his own wares, and quit them by the gold route.

A two column letter from here appeared in the Indianapolis Sentinel yesterday which set forth the Eddy side of the retirement of the president of the Rose Polytechnic from that institution. Heretofore but little has been said in print about the matter and it was not expected that it would be made the subject of newspaper discussion. The board of managers endeavored to deal considerably with Dr. Eddy and have been bearing to a remarkable degree.

The Rev. Dr. Leech preached an April fool sermon last Sunday, which day was the first of April. He talked on missionary subjects and the congregation was "fooled" when the services closed without a collection being taken.

And still there is a wide divergence of opinion as to the extent of the damage done to the home fruit by the lingering of winter in the lap of spring. Dan Fasig, of the commission house of Apman, Fasig & Starr, says that in these days of rapid transit of fruit trains the loss of a local crop does not affect the market. There are ten times as many carloads of fruit brought to this city now as were brought here a few years ago.

NEWS OF THE CITY.

The physicians of this city will celebrate, May 14th, the anniversary of Jenner's first vaccination. Drs. Jenkins, Cooper and Schell compose the committee in charge of the affair.

Isaac K. Castle, stepfather of Miss Edith Castle, the well known vocalist, who is now studying music in Boston, died at his home on north Fourth street, Tuesday, after a long illness with consumption.

Mrs. Mary Ellen Lease, of Kansas, and Mrs. Helen M. Gougar, of Lafayette, will tell the people what's ailing 'em at Naylor's opera house, April 25, and will prescribe their well-known remedies for curing the evils.

The march of improvement has reached the National State bank, and the directors have decided to remodel and modernize the front of their building at Fifth and Main. The Central Manufacturing company will do the work.

De Marquis L. Hedges, an old and well known employe of the Vandalia, died at Indianapolis on Monday. He was born near Pimento, and all his life had been spent in this county. His wife and one daughter, Miss Cora Hedges, court stenographer, survive him.

The ladies of the Congregational church will give a World's Fair at Bindley Hall, the week of April 16th, that promises to be a great success. Many unique features, reproduced from the World's Fair exhibits, will be introduced, and the affair will be a great novelty.

Ex-congressman W. D. Owen, of Loganport, who was commissioner of immigration under President Harrison, will speak in the Circuit court room Tuesday night. He is a candidate for the nomination for Secretary of state on the Republican ticket, and is a fluent able speaker.

Samuel Royse died Tuesday night, at his home on south Fifth street, aged fifty-four years. He had been sick for a long time with locomotor ataxia, and for many weeks had been unable to leave his bed. He was born in Butler county, Ohio, December 6, 1839. He was auditor of the county from 1874 to 1878, and was most highly respected as a just and upright man. His death will be severely felt in this community, in which he was universally respected as a good citizen. His wife and four children survive him.

The members of the fire department gave a reception to their friends at Germania hall, Wednesday night, that was a great success socially, the hall being crowded. The grand march was led by Chief Kennedy and wife and Assistant Chief Boleman and Miss Hannahan. It consisted of a number of novel movements and ended with a representation of the letters "F. D." A programme of dances was then given, the affair not ending until a late hour. Refreshments were served, and the occasion was made notable by the good time enjoyed. The chief and the members desire to return thanks to those who assisted in making the reception so successful.

Eiser's for Rare Fruits.

John B. Johnson, of Fayette township, is announced this week as a candidate for county commissioner from the First district, subject to the decision of the Republican nominating convention. Mr. Johnson is one of the most prominent residents of the "over the river" district of the county, and a man who, by the conduct of his own affairs, has demonstrated that he would be a capable man to have charge of the public's business. He served during the war as a member of the 7th Illinois cavalry, and has been a resident of Vigo county since 1864. He has the hearty support of the Republicans of his portion of the county, and his nomination would be well received by Republicans generally.

The Populists were first in the field with their council candidates and city ticket. Monday night they nominated the following candidates for council:

Second Ward—Frank Storz.
Third Ward—Henry Meinberg.
Fourth Ward—Louis Guerin.
Fifth Ward—Wm. Loose.
Sixth Ward—Charles Harris.
Seventh Ward—Samuel M. Young.
Eighth Ward—Jonathan Sonnenfeld.
Ninth Ward—Wm. A. Gifford and Wm. H. Chapman.

Tenth Ward—Frank Bennett.
They were unable to find a man who would take the First ward nomination. On Wednesday evening the following city ticket was placed in the field:

Mayor—Wm. Warner.
Treasurer—Charles E. Temple.
Clerk—H. H. Wilson.

Wm. Warner is president of the Carpenters' union. H. H. Wilson is president of the Coopers' union, and C. E. Temple is a carpenter and contractor.

The Republicans last night nominated the following councilmanic ticket:

First Ward—W. O. Gunkle.
Second Ward—Henry Graham.
Third Ward—Louis Finkbinder.
Fourth Ward—Dr. S. J. Young.
Fifth Ward—Henry Neukom.
Sixth Ward—Henry Schonefeldt.
Seventh Ward—J. R. Puga.
Eighth Ward—Dr. E. L. Larkins.
Ninth Ward—Nelson Hollis and Joseph Barney.

Tenth Ward—Herbert Briggs.
The city ticket will be nominated on Thursday evening next. The Democrats will nominate their candidates for council Monday night, and their city ticket on next Friday night.

AMUSEMENTS.

"The Tide of Life," by Edward Weitzel will be at Naylor's opera house one night, Thursday April 12th. This play is said to be one of the most pretentious realistic drama on the road. Scenery, mechanical, and electrical effect are carried for the entire production. The play is in five acts. The scenes are laid in and near New York, and are reproductions of the locality they represent. The first act shows a full rigged merchant vessel lying in a ship at the foot of South street in New York. A junk shop on the right and a warehouse on the left. The second act shows the Hotel de Bum or the tramps roost. A quietude of tramps occupy the "Hotel" and supply the comedy element to the play. The third act is a country home on the Hudson river by moonlight. A passenger and freight train are seen in this act. The fourth act is an office building. A criminal to escape arrest, jumps from a second story window of the building, catches on a live electric wire, and is electrocuted in midair. The fifth and last act shows the country home on the Hudson again, where all ends in a novel and highly pleasing manner. The company is a large and capable one and it contains players of merit. Terre Haute and Lafayette are the only two cities they will play in this season, outside of the larger cities, as the production is such a large one they can only play week stands. The seat sale opens on Tuesday morning at Button's; usual prices.

"BEECHWOOD."
Mrs. M. A. Aydelotte's new comedy drama, "Beechwood," will be presented at Naylor's next Friday night, with an unusually strong cast made of local talent, including many new faces. Terre Haute has always had a reputation for producing capable dramatic talent, and this drama will introduce a great many new people. Especial attention has been paid to costuming and scenic effects in "Beechwood," and the production is likely to be a notable one.

NOTES.
Mary Anderson says she will never return to the stage.

The theatrical manager is known by the company he keeps.
The tour of Otis Skinner as a star next season will be directed by J. J. Buckley, one of the present managers of Modjeska, and nearly every member of the Modjeska organization has been engaged for the supporting company.

New faces, new costumes and splendid scenic effects will be the features of "Beechwood" next Friday night at Naylor's.
