New Chemical Cleaning Department.
Ladies' and gentlemen's garments Chemically Cleaned, by exactly the same methods employed by the Staten Island Chemical Cleaning Works, of New York City.

We do away with the old scouring process, and produce far better results. We remove every particle of dirt or stain without changing the shape or affecting the color.

When garments are not faded, Chemical Cleaning, as we do it, imparts to the fabric a newness and life unattainable by any other process.

After cleaning, the garments are thoroughly pressed by the best tailors that money can procure, this giving them altogether the appearance of new clothes.
