## WALKERTON.

Population, 1,200; 72 miles east of Chicago; nearest competing towns, South Bend, 22 miles; Plymouth, 14 miles; Bremen 18 miles; LaPorte, 16 miles. Fine brick business houses, neat residences, large flouring mill, extensive pickle salting works, saw-mill, and creamery (soon to be re-built). Two railroads—the B. & W., running east and west, and the L. E. & W., north and south—making the shipping facilities excellent; good schools and churches; surrounded by good agricultural country. The best town for its size in northern Indiana. An excellent location for factories and men of capital.

Editor Wadsworth, of the LaPorte Argus, is developing some strength as a congressional possibility in the Thirteenth district. He is a growing favorite with the democracy of the district. He would no doubt make a good race.

The Chicago Inter Ocean, that great republican newspaper, has not suffered by the recent era of financial depression but has gone right along adding to its foundation stones—a large and substantial circulation—with a stride that under the circumstances is truly wonderful. At one time additions to the subscription list were coming at the rate of 800 to 1,100 per day for the daily issue, and as high as 1,500 per day for the weekly Inter Ocean. The result of this is to place it easily at the head of the list of great Chicago newspapers. It is certainly a good, clean, family newspaper of the highest order.

It has been decided by the Epworth League of the South Bend district to hold a League rally at Lake Maximus June 19 to 22. The plan is to combine healthful recreation with league work. The forenoons and evenings will be devoted to reading and discussion of papers and lectures and the afternoons to recreation, such as boating, fishing, games, etc. Plans are on foot to make this a most enjoyable and helpful occasion. An excellent program has been prepared for the occasion. Speakers of national reputation have been secured, the best musical talent in the district will furnish music. There will be reduced rates on railroads and hotels. People can arrange to go in clubs, furnishing their own tents and provisions at a very slight cost.

Ex-county Clerk Thomas H. Dalley, of Goshen's most popular and genial citizens, and cashier of the city national bank, expired on Wednesday afternoon of last week while in the dentist's chair. He was having teeth extracted and cocaine was used as an anaesthetic. It is supposed that he swallowed a small portion of the drug. Death ensued in thirty minutes from the time the cocaine was administered.

The creamery, J. M. Schroeder states, will not be rebuilt this spring.

The town donated the ground for the creamery when it was started with the understanding that it was to be in operation a specified length of time. This agreement, it is claimed by some of the citizens, will be violated if the creamery is not rebuilt this spring, thus causing the ground to revert to the donors. The matter is being looked into.

On Sunday morning at the M. E. church, Rev. Stockbarger preached from the text, "Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy mind," taken from Matthew 22: 37. The growth of Christianity in the world is an example of the power of love, its controlling factor, as opposed to the harshness of the law, even the best that the world afforded previous to the coming of Christ, the potency of love over law as a controlling influence in the world, these and many other truths were brought out forcibly in the course of his excellent sermon.

The Northern Indiana and Southern Michigan Agricultural Society held a meeting Saturday morning and transacted the usual business pertaining to the annual fair. The premium list and purses for this year's fair were gone over and approved. A. Gaylor, of Penn township, has been a member of the board of directors for some time, but has never attended any of the meetings, so a vacancy was declared, and Charles G. Towle was appointed to fill the place. The fair will be held the first week in October this year. Everything will be done to make it one of the old successes of the past.—South Bend Times.

The Advance is in possession of facts that warrant us in making the statement that the proposed railroad between Nappanee and Benton Harbor, Mich., will be constructed as rapidly as the work can be done. Mr. Dallin, the promoter of the road, has the financial arrangements all made, which will insure its completion. Work will commence soon notwithstanding all reports to the contrary.—Nappanee Advance.

Mrs. Beaver, of Niles, better known here as Lodenra Drago, accompanied by a young lady named Brown, arrived in this place Friday on a missionary tour for the religious sect known as the "Flying Roll." They have traveled on foot from Detroit, without money, or clothing other than what they wear, and are engaged in spreading abroad the tenets of the peculiar religion, using the methods of the Salvation Army of street preaching. They were not allowed to talk in Niles. The head of the church of Flying Rollers, known as Prince Michael, is serving a term in Jackson prison for illicit treatment of a young Canadian girl who was induced into membership of the flock of which he is a leader. Mrs. Beaver spoke in the Christian church Saturday evening and in the church of the Larger Hope, Sunday evening. Thus far we learn of no converts being secured. She with her companion, went to Berrien Springs from this place.—Buchanan Record.

The Mrs. Beaver above mentioned will doubtless be remembered by many of our readers as Miss Drago who was a teacher in the Walkerton schools several years ago. She was an excellent teacher, an educated, cultured lady, and she gave excellent satisfaction as a teacher while here. She was one of the best disciplinarians in the school room that the writer ever saw. She afterward taught in the South Bend schools where she was held in high esteem. Those who remember this brilliant, accomplished lady will be sorry to learn that she has degenerated into a fanatic pursuing strange religious gods.

Somebody asked Senator Brice why he was a democrat. "For the same reason that I have red hair," was his laconic reply.—Mishawaka Enterprise.

An Explanation.

EDITOR INDEPENDENT:

Your correspondent from Tyner City is mistaken about a school teacher in Polk township not getting any good from the newspapers, etc. The first words he says are, "we are sorry," which is a lie to start with. He is only glad to have a chance to try to slander some one or else to play a joke. I did not believe the item had any reference to me until several readers of your paper were asking me about it. As I take several papers continually, by the way, yours with the rest, I don't see the point he wishes to make. But if it is a joke you have your foot into things worse than I or any of the teachers, for no teacher ever said or intended anything of the kind, and he only drew a conclusion from what the Bremen Examiner, Plymouth Republican and Democrat had in them. But I do and express myself in opposition to certain kinds of literature some newspapers furnish their readers. I believe I said two thirds of the newspapers were unfit for the teacher to read and take into the school for pupils to read as supplementary reading, and I say that yet. And I will give you three of my reasons: First. Two thirds of the newspapers contain sensational fiction which fires the imagination and and passions of our youth causing more evil than our saloons. Second. Blood and thunder stories, crime in detail, and prize fights and scandal, personal and political, in their minutest details. These are the principal reasons why I made the objection I did that called up so much comment from the different local papers. I did not attack local any more than other papers. I know sometimes it is necessary to have and the reading masses require some of the above kinds of reading, but discrimination to avoid extremes is necessary. As no teacher in Polk township ever made such a statement as your correspondent would make believe was said I have no reply to make to your comment on said item or explanation, for your profession was not attacked in that light. I have advocated the use of local papers first, and other papers afterward. I did not get offended at you for you only did what most people would do, "strike back, if struck." Hoping this will make matters right and sooth your wounded feelings, I am yours respectfully,

J. M. SCHROEDER.
