## -ROSES IN SPEEDWAY-

Who but October  
Would dare to pin  
Summer's last rose  
Beneath her chin.

There was a killing frost  
last night which means that  
the annuals can be pulled  
up and the beds filled  
with bulbs.

Tulips, hyacinths, and  
daffodils should be planted  
at least six inches deep.  
They can be left for two  
years before dividing, or  
they can be planted under  
tall shrubs and allowed to  
naturalize themselves for  
years to come. Spade lime  
and bonemeal into the  
ground and a trowel full  
of sharp sand under each  
bulb gives it perfect  
drainage. (Too early to  
transplant roses.)

Lady's bicycle for sale  
Good as new. Reasonable
