Lasting Barrier Against Crabgrass

Same as we use screens to keep bugs out of the house,
we'll use HALTS* to keep crabgrass out of the lawn. By
spreading HALTS properly with the Scotts Spreader
now, we'll be laying down an overall protective
blanket on every bit of the lawn.
Later, when crabgrass sprouts—bing!
—HALTS nips it, shoot by shoot. It's
the best answer to crabgrass, ever.

More and more folks are coming to us for advice on improving their
lawns through an easy-to-follow Scotts Program. Come in anytime.
We'll be glad to prescribe the correct Program for your lawn.

Save \$5.00! Scotts Spreader (16.95)
