### HERE'S HOW TO HAVE

the Most Comfortable, Cleanest,  
Safest Heat You've Ever Known!

THE ANSWER to complete heating satisfaction needs only three words: HEAT WITH ELECTRICITY. Electric Heat insures comfort with steady temperature control... no hot surges or cold drafts.

Because it's sealed in like electric light, Electric Heat is clean... no fire... no smoke... no film and definitely no fumes.

There are no storage or supply problems... nothing to leak or spill.

Besides all these exclusive features there is also the advantage of individual room control. There's a separate thermostat for each room so that you can keep the living room warmer without heating up the entire house.

And the advantages of Electric Heat include such important things as freedom from servicing and adjustments... no moving parts... no noise.

No wonder more and more homes and apartments are turning to Electric Heat.

Electric Heat is quickly and easily installed in a new or existing home. Check with your builder or electrical contractor, or call Power & Light, ME 1-1411, Ext. 251.
