IT has arrived at a peculiar condition of affairs in Armenia, where the natives are compelled to renounce Christianity to save their lives.

CONGRESS has in its present session 238 lawyers. Some of our exchanges think they will prove more of a disturbing than a legislative element.

THE Red Cross society, under the management of Miss Clara Barton, will soon leave Washington, D. C. for Armenia to extend succor to the destitute christians in that country. This is true christianity. She is past 70 years of age.

THE Armenians were the first who, as a nation, embraced Christianity. St. Gregory, surnamed the "Illuminator," was to the Armenians what St. Patrick was to the Irish—their apostle. In the year 302 he baptized King Tridates and propagated the faith throughout the whole country. He died in 332, leaving the Armenian church in a flourishing condition. His most illustrious successors were Saints Nerses, Sanak and Mesrep. The last named invented the Armenian alphabet and translated the Bible into Armenian.

Support Home Industry.

An exchange a few days ago gave its readers considerable to think about when it commented on the way a greater portion of its citizens patronized home institutions. It is an established fact that the prosperity of a community largely depends upon the steady employment of its citizens and the amount of wealth that is distributed each week or month in wages. When people are generally employed at good wages it increases their power of consumption of useful and necessary articles, the beneficial effects of which are immediately felt in all branches of industry and trade. When people are idle or employed at low wages their power to consume is lessened and this too is soon felt in the trade of the community, and soon complaints are heard on every hand of dull trade, hard times, etc.

Take for illustration in the city of Plymouth, the cigar manufacturing industry alone. There are in our city at present three establishments that uses their every energy to produce goods that are acceptable to the taste of the lovers of a good smoke. How many of our tobacco users smoke nothing but a home made cigar. We would be afraid to venture the assertion as being authentic, but we do believe in this industry alone, over one half of the smokers in Plymouth use a foreign made cigar.

While it is business for the firms that handle these kind of goods to keep brands of every description on hand yet it is no doubt true, that they prefer to sell the home-made cigar. It is the consumer, the man who depends upon the labor of his own hands, whose employment is secured through the channels of home industries that in most cases, in an unconscious manner deliberately gives a stab at his home manufacturers every time he buys a cigar made out side of his home town. In the construction of these goods and the quality of stock used, there is not the slightest doubt the home made cigar is equal to any for the same price presented for your favors. If this matter were looked upon in a manner favorable to our home producers the increased amount of labor necessary to keep the stock upon the market would increase the number of actual residents in Plymouth and cause a much larger portion of money to be diverted throughout the different channels of trade. Nor is it the cigar business alone; it takes in every industry that manufactures or presents to the inhabitants of our city any article of usefulness or luxury that is in daily demand.

We believe in home production, and the word "protection" to these institutions is meant in its broadest and fullest sense.

## GETTING SETTLED.

J. C. Bunnell in His New Store in Kleeber's old Stand.

Since J. C. Bunnell is getting his furniture stock arranged in a new location and more commodious rooms it is surprising to note the quantity and quality of it and the largely increased advantage to which it can be displayed.

The arrangement of the new store is not yet completed, and will not be for several days, but Mr. Bunnell is ready for business and will continue the low price holiday sale while the work is going on.

Mr. Bunnell has caught the spirit of progress that is latterly affecting merchants of this city in all lines and is keeping well up in the procession that promises to march onward until Plymouth is, without cavil or controversy, the most important city of her class in Indiana.

## Diagnosis of Grippe.

True grippe is a germ disease. These germs are in the circulation and pervade every tissue and organ of the body. This brings speedy collapse and often death to the aged and debilitated. The only germicide known that searches out and destroys every grippe germ in the system is Brazilian Balm. A week or ten days' treatment effects a complete cure.

## NOT GUILTY.

The Jury in The Cunningham Case at Columbia City, Thus Decide.

One of the most intense and interesting murder trials that has occurred in this portion of the state, has been centered around that of Jim Cunningham, of Dunfee, for the murder of old Postmaster Singer, several months ago. The case has been contested stubbornly by both sides, and the evidence, what little was brought out, was purely circumstantial. The scene in the court house of that city last Saturday night at 10:30 seems to have been of the most exciting character, and one that will be remembered for years by those who were present when the verdict "not guilty" was pronounced.

If a lesson was ever forcibly presented to a man that will bear good fruit, it seems to us that Jim Cunningham has secured one that will surely make a better man of him. He announced after receiving his liberty, that henceforth his aim would be, to solve as to be above suspicion.

Jim Cunningham, as brought out by the evidence at the trial, was an easy going fellow, next to shiftlessness, and was considerable of a blower, and it was through his love of bragging that placed his life in danger for the murder of Singer. The verdict gave universal satisfaction.

## "Spongy" People.

Two tramps at Butler, Ind., says an exchange, entered a saloon with a gallon jug, and after having it filled with whisky laid down a dollar which the dispenser refused owing to the fact that it was four dollar whisky. He immediately poured it back into the barrel. The bums retired with the jug, entered an alley, broke it over a stone and proceeded to squeeze about a pint of the four dollar whisky out of two sponges they had put in the vessel.
