It was reported this morning that Peterson's general store at Donaldson was burglarized last night. The truth is that some person broke a window in the store to make it appear that a burglary had been attempted, presumably to have some effect on the jury before which the young man from Donaldson, accused of burglary, is being tried.

One of our city officials desires us to speak favorably of the work done on our streets once in a while. So we desire those who have registered "kicks" about some necessary repairs, to come the front when those matters have been attended to. It is true that people are too apt to complain when repairs are needed, but selfishly refrain from commending good work when accomplished.
All teachers and educational workers are invited to attend the State Centennial meeting of the friends of Phonology as this is the centennial year of this science. We witnessed a disgusting sight on South Michigan street Sunday afternoon in the shape of two young fellows not to exceed 18 years old, one of them being considerably under the

influence of liquor. It is bad enough to see such a sight during the week, let alone on Sunday. Of course they had been indulging in too much wind.

The announcement of Mr. C. C. Vink of Bourbon, for the office of county treasurer of Marshall county, appears in another column of the INDEPENDENT. Mr. Vink needs no introduction to the people of this county. His record as county treasurer is before them. Mr. Vink no doubt will make an excellent race.
Bert Harris and Albertus Simons took a spin on the tandem this morning. The exercise was exhilarating of course, and everything went along smoothly until they struck one of those crossings on Center street that has a hump on it. The inclination to leave their seats was very pronounced, and although no bones were broken, a demoralized condition of affairs, with skinned shins was the result.
We are informed by Mr. J. W. Thayer that the report regarding Mr. Stuck getting 4c a bushel more for wheat in Burr Oak, is all fabrication. He was offered 68 1/2 cents for it in Plymouth, so our informant says, and received 69 at the above mentioned place. We hardly believed that our grain merchants were making such a wide difference in the price of cereals, as the report gone out, and are glad to report the charge made.
Dr. Houser was greeted with a full house last night. The doctor has changed somewhat since he was here before, and appears older but has lost none of his vivacity and entertaining mannerisms. Last night he gave a graphic description of all the principal places of interest in London, illustrating his talk with a stereopticon a very fine triple lense dissolving view instrument. Tonight his subject will be Paris, and an admission fee of 5c will be charged.
Our friend J. W. S. Clark registered an indignant denial regarding the story about his dog, which was circulated some days ago. Mr. Clark has always been careful about leaving his dog run at large, although those who were neighbors to him, say that the animal is not at all vicious and that the children were fond of playing with it. The report regarding the viciousness of Mr. Clark's dog is, according to those who are acquainted with it, wholly unfounded. It is a proper caper for people to keep their dogs inside of their own premises and then these occurrences will not be forthcoming. We understand there are other dogs in the same locality where Mr. Clark lives that are considered a nuisance by the neighborhood. Keep your dogs at home.
