QUARTER-MILLION DOLLARS FOREST FIRES COST INDIANA

Forest fires — most of them started through carelessness, has caused an economic loss of a quarter of a million dollars in Indiana last year, Virgil M. Simmons, commissioner of the Department of Conservation said recently, in a plea for cooperation in preventing such fires during the coming weeks.

During the past fiscal year, approximately twenty-eight thousand acres of land were burned over by forest fires in Indiana, destroying future timber and vegetation which had a double value in preventing soil erosion and in

cently, in a plea for cooperation in preventing such fires during the coming weeks.

DAUGHTER OF FORMER RESIDENT WEDS IN SOUTH DAKOTA

According to word received here, Miss Zela Ann Myers, daughter of Roscoe A. Myers, of McIntosh, South Dakota, was married to Mr. Frederick J. Homyer of Eureka, South Dakota, on Saturday, September 16th. Rev. Father Wm. P. Leahy conducted the ceremony and the nuptial mass at 9:00 o'clock. The church was decorated with fall flowers and Chrysanthemums.

The bride's father will be remembered as a former resident of Syracuse, having left this community in 1907. Mr. Myers was a close friend of the late Otis C. Butt and J. P. Dolan.

The young couple left for a wedding trip through Canada, Wisconsin, Minnesota and South Dakota.

The groom is a graduate of Eureka high school and the University of South Dakota and has practiced law for the last four years in Eureka. The bride is a graduate of McIntosh high school and the College of St. Catherine of St. Paul, and for the past three years has been teaching English and music.

furnishing food and cover for wildlife.

Investigations by the fire warden determined that nearly fifty percent of the fires reported were started by smokers — persons who dropped lighted matches or burning tobacco on the ground or out of car windows as they drove down the highways. Many of these fires started along the highways, spreading from dry grass and weeds into adjoining fields and woodlands.

With a total of 438 fires reported, each averaged approximately sixty-five acres and caused damage amounting to about \$5,000.

The Department of Conservation maintains a system of 24 towers from which constant watch is kept for forest fire and has established an organization of fire wardens throughout the wooded sections of the state to combat all such fires. Special equipment for use in fighting forest fires has been furnished these local units and training schools have been held to acquaint the fire fighters with the use of the equipment.

A UNIQUE RESORT

A health resort affording the quiet of almost rural environment, yet in close proximity to a great medical center. Such is the North Shore Health Resort at Winnetka, Ill., on Lake Michigan, near Chicago, described as "one of the most attractively located sanitariums in the world."

In 40 years of operation it has become increasingly popular, especially among patients from the South, who suffer during oppressive summer heat.

The institution has enlarged its scope in recent years, so that it is now a completely equipped sanitarium offering treatment for a variety of illnesses. Its location near the great medical centers of Chicago has made it possible for the institution to keep abreast with new methods of diagnosis and treatment. Visitors returning this autumn after a period of treatment report that an extensive program of redecorating and refurbishing has just been completed and that new equipment has been added in readiness for the popular fall season.

The North Shore Health Resort is one of the oldest and best known of its kind in the middle west. Its baths, massage treatments, the beautiful walks along the North Shore, and other exercise provides a healthful rest at this time of the year.

Fall guests are largely Southerners who go north to enjoy the fresh breezes off Lake Michigan and to sleep in the cool, invigorating night air.

Eight-year-old Edward Pearlman of Philadelphia wandered away from home so often that his mother took him to a clinic for an examination. While she explained his case to the doctor, Edward strayed off for several hours.

Because "he didn't even want women to look at him," George Nikerson of Colorado Springs, Col., splashed acid on his face.

Emile Gingras of Montreal went to sleep in a house he had entered, and was caught with two bags of loot he had intended to steal.

M. C. TO SPONSOR

TWO BAND CONTESTS

Two marching band competitions for high schools will be sponsored by Manchester College this fall under the direction of Prof. S. L. Flueckiger in connection with home football games. The first contest of this kind at Manchester was held last year with nine bands competing for the Overholt trophy, and six others participating in the massed playing. This year two contests will be held, the first for bands from the smaller schools, and the second for bands from the large schools.

The first event will be held Saturday, October 7, in connection with the Manchester-Central Normal game, for bands from high schools under 250 enrollment, ((Class C in national rules)).

It was reported that Bert Ward caught a ten pound pike Wednesday in Syracuse Lake.

There are more than 42,000 telephone employees in the metropolis of New York City, of whom 21,000 are women. Of these, nearly 11,000 are operators.
