## Death Stalks the Jungle

Army Signal Corps Photo  
American doughboys, dug in behind a banyan tree on Bougainville, are watching for Jap snipers. An infantry patrol is just ahead of them. Their field of fire is hampered by the dense jungle growth. This crew killed six Jap snipers while in this position. Back their attack by buying War Bonds.

## Mr. and Mrs. America Study This Picture

Army Signal Corps Photo  
Sgt. William Barbero, while taking the picture of his buddies who died to take Hill 700 in the far off Southwest Pacific, expressed a desire that it be published in the United States to arouse the folks back home to the fact that our boys are dying for them. Here, Sergeant, is the picture for all to see. Other pictures he made of that fight were so grisly—and in some instances so clear that recognition may have been possible so the Army has restricted them. Look again and buy War Bonds today.

## A Drink for a Hero

Army Signal Corps Photo  
Pvt. Robert W. Anderson, Baraboo, Wis., who was wounded at Los Negros, is given a drink of water by Miss Maryann Mitchell, a Red Cross worker from Cleveland, Ohio, on his arrival back at a base in New Guinea. He is a member of the First Cavalry Division. Are you buying War Bonds to back these boys up in their island invasions in the Pacific?

## News From the Boys in U. S. Service

A 7th AAF Base in the Marianas.—A new 7th AAF record for bombing missions was established by a B-25 squadron under command of Major William K. Pfingst of Syracuse, Ind., during Guam and Tinian operation, according to figures compiled by the 7th AAF Bomber Command.

Averaging two missions a day for 13 days, Maj. Pfingst's medium bombardment squadron completed 26 missions during the last six days of July and the first week of August, the compilation showed. Engaged primarily to eliminate enemy ground installations and to support Marine ground activity, the 7th AAF Mitchell mediums dropped 210 tons of bombs and fired more than 37,000 rounds of 50 calibre ammunition in low level bombing and strafing attacks. Operating from a 7th AAF base on Saipan, the B-25 squadron completed missions over nearby Tinian in less than an hour and a half, under Maj. Pfingst's command. On strikes against Guam, the time from base to target and return averaged 3 hours. Maj. Pfingst is the son of Mr. and Mrs. A. A. Pfingst, Syracuse. He joined the 7th AAF in the Central Pacific in October, 1943.

Mrs. John H. Murphy, who has been here at Lake Wawasee, at the home of her parents, Mr. and Mrs. Lester Mock, has been notified by the War Department of the death of her husband, Private Murphy, aged 37, killed in action in France August 3rd. He had previously been reported as missing. Private Murphy, a former Goshen barber, moved with his family to Mishawaka in 1942, from where he was inducted into the army in October, 1943. He was first attached to the medical corps, and was sent overseas last May and was then transferred to the infantry while in France. In addition to the widow, he is survived by a son.

## Federal Income Tax Forms Will Be Simplified

Claim New Tax Forms Will Be As Simple as Two and Two.

According to late news reports, relief is in sight in connection with the annual task of filling out those income tax forms. The new forms, compared with those old puzzlers, are as simple as 2 plus 2.

Internal Revenue Bureau experts say they believe they are now on the road toward forms that the average taxpayer can understand.

For approximately 30 million taxpayers, there won't be much to it—answering a few simple questions. For the 20,000,000 others it will be somewhat more difficult, but still considerably easier than in former years.

A person with an income under \$5,000, provided more than \$100 of it is not from dividends, interest and wages not subject to withholding, will be allowed to make his return on the withholding receipt provided by the employer.

All the taxpayer will have to do is fill in the amount of wages, other income and few other answers, mostly listing dependents. No figuring is involved. The taxpayer will mail the information to his collector, who will do the mathematics, and sit back to await a bill for the balance due, or a refund if he has overpaid.

Individuals with higher incomes will use a so-called regular blank, but the experts promise this, too, will be less confusing than in the past. These taxpayers will have to figure the amount of tax, but tables accompanying the forms will make this easy.

There is a flat deduction of 10 percent for contributions, interest, taxes, medical expenses, and so on. Those who claim larger deductions must use a regular blank and give details.

The 1944 tax law makes numerous changes in allowances for dependents, for instance:

Each person is entitled to a \$500 exemption.

## Tax Calendar

Here in an income tax calendar for individual taxpayers:

Sept. 15—Third quarterly payment due on 1944 taxes. Also time for amending estimate declarations if they have become out of 'kilter.' The final tax is supposed to be within 20 percent of the estimate, but there is no penalty if it exceeds that.

Dec. 1—All employees must file a new exemption certificate with employers. This is due to the changes in exemptions.

Jan. 1—Employers begin using new withholding rates. Withholding taxes average about the same, but they will differ in individual cases, chiefly due to the changes in exemptions.

Jan. 15—Deadline for 4th quarter installments on '44 taxes.

Jan. 31—Deadline for employers to give employees receipts for wages paid and taxes withheld in 1944.

March 15—Persons who did not file a return Jan. 15 must file return for 1944. Any balance due is payable in full.
