WE SEND THEM  
THUNDERBOLTS -

But do we give them the greatest weapon of all?

In providing our men with the wonder weapons of all time, is our job complete? Have we given them our best?

No! Not until every free dollar in America is invested in War Bonds have we provided our men with the greatest weapon of all. For it is support from the folks at home—support that lets the soldier know we're backing him to our limit—that gives him the greatest part of his fighting strength.

Curiously enough, the farms of America need those War Bonds as urgently as our boys need the weapons and the supplies those Bonds will provide. For as those Bonds mature, they will replace machinery and equipment and provide cash to maintain those farms as profitable business enterprises.

#### 5 REASONS FOR INCREASING YOUR WAR BOND PURCHASES

1. The tempo of this war is hitting its highest point. Government expenditures for war are at the peak. **MORE MONEY IS NEEDED . . . NOW!**
2. In proportion to WHO HAS THE MOST MONEY, individuals are not buying their share of War Bonds. America must correct this situation.
3. War Bonds provide the farmer and rancher with the financial reserve he *must* have to survive the ordinary ups and downs of farming as a business.
4. Money will be needed urgently at a future date to replace and repair farm equipment, machinery, and buildings. War Bonds will provide it.
5. War Bonds are the safest investment in the world, return a good rate of interest, are easy and convenient to buy . . . from bank, post office, rural mail carrier or Production Credit Association.

### GOP Women Plan Radio Parties

"Neighborhood radio listening parties" to bring the discussion of the 1944 campaign issues into the family parlor are one of the major activities of the Republican women's campaign in behalf of the Dewey-Brecker ticket.

Sponsored by the National Federation of Women's Republican Clubs, of which Mrs. W. Glenn Suthers of Chicago is president, the campaign listening parties were inaugurated September 8, to hear Governor Dewey's speech carried by NBC and CBS radio networks from Louisville, Kentucky.

Republican women's clubs in 4000 communities in 40 states will join in the nation-wide chain of tune-in parties, to be continued to Election Day. Scheduled addresses of Governor Dewey and Vice-Presidential Candidate John W. Bricker and other Republican speeches indicate the community parties will have a heavy listening schedule.

"These neighborhood radio parties will be in keeping with the emphasis being placed on neighborhood activities in this campaign," Mrs. Suthers points out.

"They will bring together those

families without radios, stimulate interest in the candidates and in wider discussion of issues. Above all, they will strengthen the great American community spirit."

lem of our time. It seems to me that much of our success in war has come from the sense that every individual has a personal job to do. While there has been a maze of regimentation, some necessary, some inexcusable, our strength at home has come wholly from the genius of our free men in industry and the devotion of our workers and our farmers to their jobs. Our success or failure after the war will depend on whether we take to heart the lessons the war has taught us. If we permit the continuance of the regimentation which some so earnestly desire, we shall fail."

#### A COMPLICATED VEST

Springfield, Ill. — Federal Judge Charles Briggle recently took material for a vest to his tailor. The tailor said he could not make a vest because of a War Production Board order. The Judge wrote a polite letter to WPB concluding with, "Please, may I have a vest?"

Ponderous WPB machinery was then set in motion. The case was referred to the appeal branch of the textile, clothing and leather bureau of the New Deal agency. Eventually, Judge Briggle received a stern letter asking him to explain more in detail his need for a vest.

Wrote the Judge: "My reason for requesting permission to have a vest made was purely on a common sense basis. I own the goods and have enough to make a vest. I thought this situation might appeal to one's ordinary common sense."

WPB replied: "Based on your representations and on the recommendations of the textile and leather bureaus and pursuant to paragraph F of Order L 224, the provisions of the above specified paragraph are hereby relaxed to the extent required to permit you to have a vest made from the material you own."
