DIAMOND LAKE ENTRY WINS REGATTA

Jack Pfaff sailed his Snipe consistently in the invitational Regatta held on Wawasee by the Wawasee Club, thereby amassing enough points to put him in first place in the final standings. Jack won three consecutive second places to amass a total of 1521 points.

Frank Levinson won two first places and one seventh to make a total of 1452 points. Levinson carried the Burgee of the Wawasee club.

Third place was won by Jack Pardee of Lake Penton, with two thirds and a fourth. His total was 1419.

Others finished in order named: Dick Brotherson, Diamond Lake; Bill Burrough, Diamond Lake; John Karl, Lake Penton; James Wolfe, Diamond Lake; Dick Virgil, Diamond Lake; John Call, Wawasee; Alan Levinson, Wawasee; Joe Newell, Wawasee; Jack Myers, Eagle Lake; Joe Plasket, Wawasee.

The Wawasee ladies served lunch on the Yacht Club grounds to seventy-five people at noon Sunday.

Trophies were presented at the conclusion of the last race by Joe Plasket, local commodore. The trophies were provided by Frank Levinson, Sr.

E. J. Stroud served as race committee chairman. He was assisted by Ed Dody, Bob Emmons, Bill Rockhill, Eugene Bulson, and Duff Sadler.

My Boat, "POKY" By Nancy Plasket

"It was near my 12th birthday last summer, and sailing seemed to get into my blood. Whenever we were at the lake, I followed my Dad's heels, begging for a sail boat of my own. Finally, my dad consented and said I could have a little discarded eight-foot boat.

Then came long hours of scraping, caulking and painting the boat. The boat was painted white on the outside and grey on the inside. After much discussion the boat was named "Poky" and that name was painted in red letters on the stern. Mother and Dad made a small sail.

The day of launching was a great day. Most of the Yacht Club members stood around and watched the performance. When everything was set, Dad made me put on a life jacket and I set sail across Wawasee.

Sailing alone was the biggest thrill I ever had. Sail and motor boats passed me by, and people in them all acted greatly surprised to see me out on the lake alone.

Thus began many days of sailing fun for me. I even went out in stormy weather. I was able to sail quite a few miles across and down the lake, but my little boat would not point up enough to get me home.

By the end of the season my dad was a bit disgusted, for each time I went sailing he had to come out under power and tow me back to the Yacht club.

I hope this fun and experience I have had in sailing will mean that some day I will own a big sailboat of my own.

Three Local Men Have Dairy Herds Inspected, Classified

Brattleboro, Vt. July 26—Wilbur D. Ward, Syracuse, Ind., has recently had his herd inspected and classified for type. The Holstein-Friesian Association of America announces today. The inspection was conducted by W. A. Weeks, North Clarendon, Vt., one of the eleven officials appointed by the association to do this work in the United States. Among the animals classified in this herd, 2 were designated "very good"—the second highest score an animal can receive; and 5 scored "good plus." The type classification, combined with a production testing program, is used as a means of proving sires and locating outstanding brood cow families in an owner's herd.

ON THE AIR Newest Songstress

When WLW's lovely Ann Ryan sings she invariably thinks about the little girl in Bascom, Ohio, who dashed for the school bus every afternoon — and looked wistfully over her shoulder at the school-house where glee club practice was beginning.

That little girl was Ann Ryan and a five-mile ride home on the school bus seemed then a stumbling-block to her vocal career.

The church choir, however, saved the day, and for seven years Ann was a Sunday morning regular — with an occasional solo as her skill developed.

Then came high school graduation, and the hymns were replaced by "Music Maestro, Please" and "Moon glow" as Ann sang popular ballads with orchestras in Fostoria and Cleveland, Ohio.

"But I wanted to be a 'single' — rather than a band vocalist."

TO THE CITIZENS OF OUR TOWN AND COMMUNITY

Things in the past have been poorly handled in the line of fighting fires in this community. The Fire Department has been blamed for 100 percent of the trouble. That in its' self is an untrue statement. The fire department can only do what they are given a chance to do and only as good as the equipment will allow.

In the matter of giving the department a chance, here are a few simple rules to follow in the proper handling of a fire by a citizen.

1. Notify the department AT ONCE! Don't delay even though you only smell smoke. Report it first.

2. Notify all people in the building so that they may get out.

3. Start to fight the fire with whatever means you have available.

This method will get your department on the way at once. If you try to put out the fire by yourself, before reporting it, many valuable minutes are lost before the department knows there is a fire, and thus robs them of the proper chance they are entitled too.

On the above matter I believe the boys will all agree, that even though this method may call for a few "Dry Runs" that will take a half hour time, they would rather spend a half hours time than a half day.

In the matter of equipment.

We do have good trucks, but are in sad need of helmets, coats, and above all some more smoke masks. The Town Board of the present and future, have given us reason to believe that this extra equipment will be forthcoming very soon.

So in the future let's all pull for the same goal, success.

Our local fire department has a very good re-organization plan going and with You Citizens doing your part, we can whip this Jinx.

Signed Volunteer Fire Dept.
