How To Relieve Bronchitis
Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.
CREOMULSION
for Coughs, Chest Colds, Bronchitis

CHANGE of LIFE?
Are you going through the functional "middle age" period peculiar to women (35 to 55 yrs.)? Does this make you suffer from hot flashes, feel so nervous, high-strung, tired? Then do try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Pinkham's Compound also has what Doctors call a stomachic tonic effect!
LYDIA E. PINKHAM'S COMPOUND

Watch Your Kidneys!
Help Them Cleanse the Blood of Harmful Body Waste
Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, poison the system and upset the whole body machinery.
Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney trouble are bladder disorder or sometimes burning, scanty or too frequent urination.
There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

Yanks Well Equipped
CASEY STENGEL, the Professor, was caught in what looked to be deep thought. Naturally, he was thinking about the Yankees, since Casey and the Yankees will be all rolled up together this season.

"Our outfield," he remarked, "is well set. The best DiMaggio, Henrich, Lindell, Keller and others. We have a chance for good pitching with Raschi, Portfield, Reynolds, Shea, Page and a few more."

"Catching—uncertain. Infield—can't hit. We've got to find greater infield offense—more runs batted in. We were far in back of the Indians and Red Sox in that department last year. Far back, as far as the infields are compared."

This led to a comparison of the five leading teams. It figured up like this:
Cleveland Indians—Fine outfield; better infield; best pitching in baseball plus good catching. Stars such as Boudreau, Gordon, Doby, Mitchell, Bearden, Lemon and Feller. Plenty of power.

"The Indians shape up as a very tough club to handle," he said. "Is this about right, Professor?"
"That is entirely right," Casey said. "A very tough outfit to handle, offensively or defensively. The team to beat—if you can."

This took us to the Red Sox. High-class outfield headed by Williams and Dom DiMaggio. Even better infield with Goodman, Doerr, Stephens and Pesky. Ragged, uncertain pitching. Below Indians, Yankees and Athletics in this respect.

What about the Athletics? Fair outfield—fair infield. Both below Indians and Red Sox. Pitching high class. Might be better than last year—with catching, close to Yankees.

What is the Tigers' ranking? Red Rolfe has a good outfield, terrible infield and first-class pitching. He must improve the infield, just as the Yankees must. Kell is a fine ballplayer. Should be better than he was last year. Red Rolfe is due to become a smart, hustling leader and will get more life and fire into his squad which has been a dead outfit.

Professor Stengel looked over this report. "I guess it's about right," he said. "From what I've read and heard, we've got a job ahead in handling the Indians and Red Sox. Especially the Indians. They are strong everywhere."

"If Bob Feller should happen to have one of his big years—one of his 20-game years—it might be discouraging. It will be a tough league this summer. Can you imagine a world-series winner being strengthened—improved? And quite a bit!"

Help from Bill Dickey

"We've got plenty to do," Stengel continued. "We may need two or three infield improvements. This has been a good infield, defensively, but a poor one offensively."
"I'm counting a lot on Bill Dickey. Bill can help our catching a lot. He is a fine teacher—a very patient type. He can also help our pitching. Our pitching will need a lot of thought and work. Vic Raschi can be a 20-game winner. He has the makings of a star. So has young Bob Porterfield."

"Now about Shea. I know a lot about him. I had him in Portland. He did a great job for us—and a big job for New York in 1947. I think he'll do a big job again this season."

"Dickey will be a big help to all our pitchers. In his old days with the Yankees he was a marvel with young pitchers. He knew how to keep them calm and cool. Pitchers like Atley Donald who could win 10 or 12 straight."

"We'll have to get the best from every pitcher we've got. If we do, it will make a killing difference. I know they've got plenty."

Dickey should be able to bring quick aid to a valuable piece of baseball property known as Yogi Berra. Yogi is a natural hitter—better than .300, and long range to boot. He has a good arm but doesn't know how to throw to second. He can be made into a better outfielder than he is. The Yogi is a fine competitor, more than willing to learn.

Stengel has another badly-underestimated ballplayer in Johnny Lindell. He is better than a .300 hitter who can also hit the big one—the long one. He is a good outfielder with a good arm. He can play first. And he could be a useful pitcher, which he once was.

Lindell is one of the best all-around athletes in the game. He is also one of the best all-around ballplayers—a ballplayer the Yankees, for some reason, have never given his full due.

Pitching Copper

Lindell is six feet, five inches tall, weighs 210 pounds, and takes good care of himself. He now has a job as traffic cop at Santa Anita, operating at one of the busy corners. Johnny would like to turn back to pitching. He was a budding star at Newark where he had a fine record.

Stengel isn't any too sure about Lindell's pitching. "Suppose he falls down as a pitcher?" Casey says. "That might not help him as a ballplayer. We'll see about it when we hit St. Pete this spring."

HOUSEHOLD HINTS
To make fudge squares uniform in size, pour the fudge in ice cube trays which have been greased with margarine. The fudge hardens quickly and each piece is uniform.

Do not use too hot an iron or use too much pressure when ironing the folds of sheets. This results in weakness at the line of the folds and finally causes cracking of the sheet along these lines.

New towels should be laundered before use for better absorbency and sanitation.

It is not necessary to iron Turkish towels. Ironing may mat the loops and make the towel less absorbent.

In ironing cotton sheets and pillowcases, use warm water for sprinkling because it penetrates the fabric more quickly than cold water.

Sheets should be dried out of doors if possible, because fresh air gives them a sweet, clean smell.

Not Quite Imperishable
Although diamonds rate high among the hardest and most imperishable of all known substances, they are composed of pure carbon and are affected by heat at temperatures ranging from 1,400 to 1,607 degrees Fahrenheit.

It is impossible to burn them in an ordinary fire, but it can easily be done with a blow torch and sometimes in an extensive conflagration such as the San Francisco fire in 1906, where temperatures as high as 2,200 degrees were reached.

The diamond is found only in single crystals and, when reduced to dust, it is as black as any other carbon.

Me? I Use Corn Vanish?
Of course—I've had plenty of unnecessary torture, pain, limping, loss of sleep, all these years. I want relief! The book "WHO AM I-MAN?" brings me the How and Wherewith to restore Comfort to my tired feet, by removing the source of corns. They guarantee to remove corns or refund my money. I will send for it now, as this ad appears once a month. It costs so little; will do so much. Postpaid \$3. Address: Corn Vanish, Genl. Del., Minneapolis, Minn.
