TRAFFIC SAFETY PROGRAM GETS UNDER WAY

Indianapolis, Feb. 7.—A month long safety emphasis campaign stressing "Know and Obey Traffic Laws" got under way over Indiana this week under auspices of American Legion Posts, local and state police, the Indiana Traffic Safety Commission, and the Indiana Traffic Safety Council.

Safety committees of 475 Legion posts are leading the drive to stimulate not only knowledge and observance of laws, but building of strong public support for traffic law enforcement by police and courts.

Using as their slogan "Don't Learn Traffic Rules by Accident", Post safety committees and police agencies are carrying the plea for safe driving and walking practices to the public by every means possible.

Campaign sponsors point out law violations by drivers and pedestrians are involved in nearly all accidents, and that violations most commonly contributing to accidents, in order of frequency are:

In cities—Speed, right-of-way, under the influence of alcohol, disregard of officer or traffic control device, wrong side of the road, improper passing.

In rural areas—Speed, wrong side of the road, under the influence of alcohol, right-of-way, improper passing, disregard of officer or traffic control device.

The members of the Christian Endeavor of the Lakeside E.U.B. church enjoyed a Valentine party at the church Monday evening with Frances Byland, Carol Miller, Shirley Reed and Lucille Babcock as hostesses. Games were a feature of the evening's entertainment. Refreshments were served in keeping with the Valentine theme. Shirley Reed will be hostess to the group Feb. 21 in the Guy Rarig home.

SPORTSMEN'S QUESTIONNAIRE MAILED OUT

Indianapolis, Feb. 10 (Special) —Thousands of hunters, trappers and fishermen of Indiana have received a sportsmen's questionnaire from Pittman-Robertson Project Leader William B. Barnes of the Division of Fish and Game.

Approximately 22,000 questionnaires were mailed to a cross-section of Indiana's hunting, fishing and trapping population again this year. Names are chosen at random from department records and the information will cover the period from the beginning of squirrel hunting season on August 15 to the end of the night hunting and trapping season on January 15, 1948.

Hunters who receive the forms are requested to state the number of times they hunted and the total season's bag. Trappers will list the number of days traps were set and the total catch. Persons receiving Sportsmen's Questionnaires are asked to fill them in and return them promptly in order that tabulations may be completed as quickly as possible.

Returns are used as representative sample for determining the annual harvest of wildlife over the state. The results are used for comparison with results of the same survey taken past years for the determination of increase or decrease in the populations of game birds and animals. This information will enable the Division of Fish and Game to better manage this valuable natural resource and make for better hunting.
