THE THOMAS JEFFERSON was one of four B & O engines that inaugurated railroad service into Washington, Aug. 1835. The other three were the George Washington, the John Adams and the James Madison. They were called "grasshoppers" because of their long, spindly connecting rods. President Andrew Jackson adjourned a cabinet meeting so that he could greet the great cavalcade of distinguished people who rode the four trains on that occasion.

### TREAT MASTITIS WHILE COWS ARE DRY

Mastitis, due to *Streptococcus agalactiae*, is most successfully treated with Beebe G-LAC (Tyrothricin). It is superior to any other preparation used for mastitis in the dry period because of its slow absorption. It remains in the udder during the entire dry period. G-LAC is active during this entire period. G-LAC should be infused into the teat canal in 40cc doses. No other treatment is necessary.

It is successfully used in dry and lactating cows.

Ask us about the Beebe Testing Service. Free test pads supplied on application.

### MULE-HIDE COR-DU-ROY ROOFS

The COR-DU-ROY Prevents Checks and Cracks

The alternate ribs and grooves act as "Expansion Joints" that release tension and absorb contraction caused by heat and cold.

**ASPHALT** the Best Waterproofing Known

It was used to call Noah's Ark, to build the Sphinx and Pyramids 3000 years ago. It's the waterproofing in Mule-Hide Roofs.

**9% EXTRA WATERPROOFING ASPHALT!**

"More Meat, Less Bone" describes Mule-Hide construction. Extra asphalt for more years of waterproof service. A weight test will prove it. ONLY MULE-HIDE ROOFS HAVE COR-DU-ROY

**WAWASEE-LUMBER CO.**

SYRACUSE, INDIANA

COR-DU-ROY is Wind Resisting

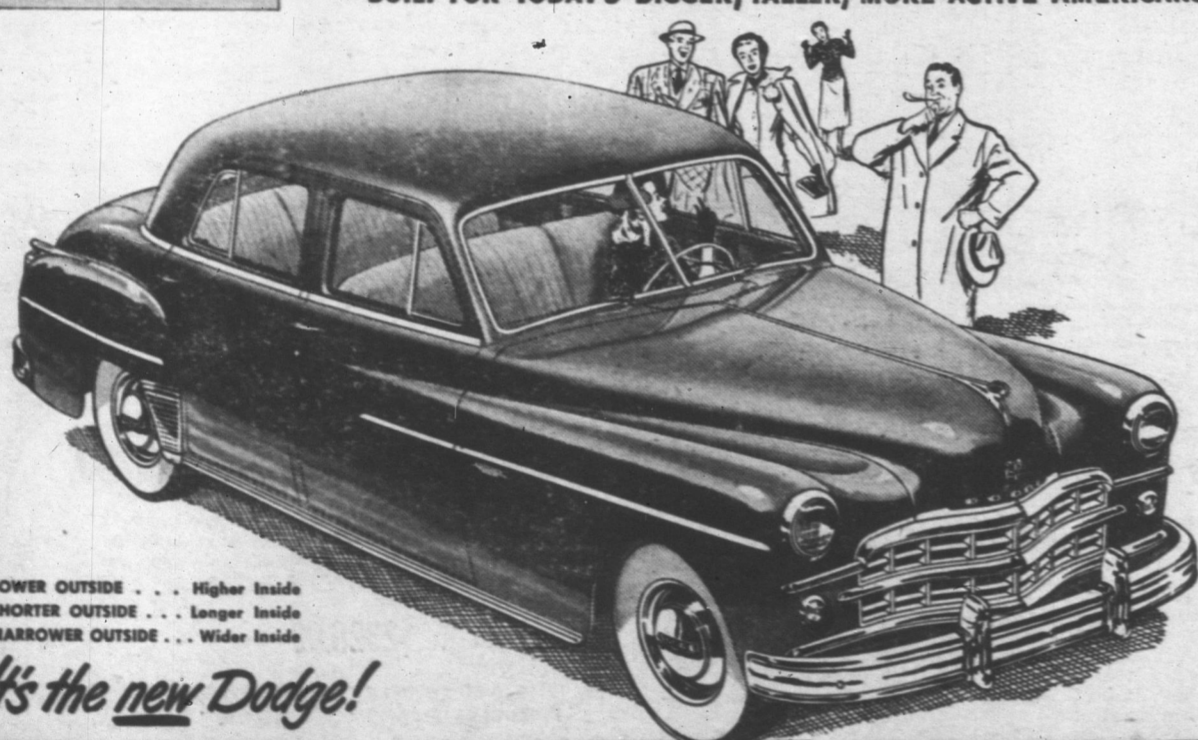

Extra asphalt. PLUS alternate ridges and valleys give it extra rigidity — just as Steels stronger when "angled" or "channeled."
