## Girl Scouts Go To Pokagon State Park

The Girl Scouts went to Pokagon State Park over the week end. The Inn was very large and down stairs they had a game room with ping-pong tables, juke box and a place to get sodas and so forth. There was a square dance Saturday night in the dining room. After that we talked from 11:00 till (too late). We had to get up at 6:45 a.m. Sunday and eat breakfast. We all had a wonderful time and hope to go back soon.

What we did: Hiked, played ping-pong, danced, rode horses, slept, ate.

Who went: Kay Adams, Mrs. H. Anglemeyer, Patti Anglemeyer, Bea Bachman, Mrs. R. Brewster, Linda Bassett, Mrs. L. ## NATION JOINED IN POLIO FIGHT

The 1952 MARCH OF DIMES campaign now being conducted here and in 16,000 communities throughout the country is aimed at equipping the nation to cope with polio on a national basis—the only way, experience has shown, that this strange epidemic disease can be fought with any degree of success.

The fact that no community—no matter how large or small—can meet a full-scale attack of infantile paralysis, is demonstrated by the experience of the first ten months of 1951 when headquarters of the National Foundation sent almost \$7,000,000 in March of Dimes funds to some 900 county chapters whose own funds had been depleted by epidemic demands.

But money, as such, is not the only factor in fighting an epidemic of polio. When infantile paralysis strikes, many other forms of help must come from the "outside," help such as nurses, physical therapists and equipment. During 1951, hundreds of trained personnel and huge quantities of equipment were dispatched to critical areas by the National Foundation.

This two-way fight by headquarters and its chapters is made possible by an even division of March of Dimes funds. Half the money raised remains with the chapter for care of local patients and, in emergencies, to supplement the national epidemic aid fund. The other 50 percent goes to national headquarters for research, professional education and emergency assistance to the chapters in critical areas.
