FAMED TRAVELER WILL PRESENT FILM OF AUSTRIA

Karl Robinson, world famous traveler, photographer, and lecturer, will deliver his film-lecture on "Austria" in the Union Auditorium at Goshen College, on Thursday, April 8, at eight in the evening.

This all color hour and thirty minute motion picture lecture includes generous portions of the scenic spots, but Robinson's emphasis is on people and things of special human interest. In geographic content the film ranges from the Alp-studded Tyrol in western Austria to Vienna in the east, Austria's capital, caught on the other side of the Iron Curtain where the Russians permit themselves to be photographed — for fifteen minutes, three times a year!

Tickets for the lecture are available at the Tilley Electric Company, Gospel Book Store, the

College Business Office and the Elkhart Paint & Wall Paper Co. They will be on sale in the College Union on the evening of the lecture.

Everybody Welcome

TOMORROW'S HEADLINES?

If you picked up your paper tomorrow and read that disaster had wiped out the state of Kansas, killing 40,000 people, injuring every one of the state's 1,905,299 population and causing a property and economic loss of about \$4,000,000,000, it would be a national calamity.

But when that disaster comes day by day—killing hundreds, injuring thousands every day, year in and year out—the impact is lost because it didn't happen all in a sudden flash. That, however, is the annual toll of highway deaths and injuries and economic loss. 40,000 killed; 2,000,000 injured; cost \$4,000,000,000—in a single year.

This greatest U. S. tragedy is caused mainly by reckless, speeding and drunken drivers, riding their super-powered cars over the nation's highways and byways. Clear skies and straight dry roads are the setting for three out of four fatal accidents. Week-ends and holidays are the times of greatest danger—highest casualty lists. Saturday is the most dangerous day. Drivers in an alcoholic haze are a major factor in swelling the mounting death toll.

What can be done about it? Slow down! Thirteen states with speed limits of 50 miles or less had but 26 per cent of the deaths and the rate declined 18 per cent in one year. If that decline had been nationwide, nearly 12,000 lives would have been saved, 600,000 less injuries.

Slow down! SLOW DOWN! Keep your name off the casualty list.

SLOW DOWN—LIVES ARE IN YOUR HANDS!

Yes, It's True!

America's Biggest Bargain
Has Been Further Reduced in Price

The new federal excise tax regulations now in effect reduce the cost of both local and long distance telephone service, and this means that the biggest bargain in your family budget is a greater bargain than ever before.

Here are some typical, three-minute rates, including the new, lower excise taxes, for night-time, station-to-station calls from this exchange:

Indianapolis	61c
Fort Wayne	39c
Chicago	51c
New York	\$1.20
Miami	\$1.60
South Bend	39c

Remember, please, that long distance service is faster when you call by number. If you don't know the number, however, do not hesitate to place your call. Our operators are trained to locate your party with a minimum of delay.
