Business and Professional Women Meet

Jewelry... bracelets, earrings, necklaces, rings, etc., gemstones in the rough, and in the finished beauties, held some 46 ladies entranced attention to Ernest Williams, (builder of the fabulous Jade Window in the North Shore Baptist Church, Chicago), at Louie's Grill, Wawasee, Tuesday night, when the Business and Professional Women's Club held their dinner meeting, with excellent turkey and trimmings.

Guests were Mesdames John Adrian, Lorraine O.; Martha Dan- skin, Van Noy, Calif.; E. E. Hay, Oshkosh, Wisc.; E. L. Fosbrink, W. E. Long, Nelson Miles, Clem Lisor, Jr., Herbert Linville, Claude Swartz and Miss Cecil Robinson.

Hostesses, Mesdames S. V. Lar- son, John Shire, Nelson Felts, and James Butt, used fall flowers, and a forerunner of Halloween in napkins, and lighted pumpkins for table decor. Recognition was ex- pressed of Columbus Day.

In the short business session led by Mrs. Frank Bates, president, the Christmas Lights Decoration Chairman, Mrs. John Bower, chose Mrs. Jerry Herbison, as her committee. Mrs. Noble Blocker, current project chairman and her committee, Mesdames Barton Cox, Orval Snobarger, and Lavon Da- vis, presented their idea, which was approved for money making.

Mrs. Bates read a communica- tion from the American Legion from the Federal government dis- cussing Equal Rights for Ameri- can Korean veterans, and ap- pointed Mrs. Ardis Larson to join her in a meeting at Warsaw Friday, 8 p.m. at the American Legion. Guest, Mrs. Nelson Miles, won the door prize.

Mrs. Bates then introduced her brother, Ernest Williams, as a man who, somewhat late in life, changed his vocation from that of dairyman, and started a new ca- reer in jewelry, and presented Mrs. Williams as the standby who accompanied on trips for gem- stones, and was of invaluable help to her husband. Mr. Williams said he was not posing as a geol- ogist, that he had started this "rock" business as a hobby, and "it went commercial on him", and that they enjoyed the pleasure of hunting unusual stones in moun- tains, even through 1000s of miles of bad roads, hard climbing, etc.

Now living in Elkhart, the Wil- liams' are looking for a home in the Syracuse vicinity, as the "Toll road is going right through their house at 3506 Cassopolis Street. The Williams' private collection display was shown, and delighted exclamations over the unusual and beautiful pieces as they went around the tables and the ladies examined them.

There was much jade, Mr. Wil- liams' favorite. He said, "Jade is a lovable stone if you work with it and get to know it". One can see that this "dairyman-turned- jeweler" loves his finds and all phases connected with them. Wil- liams showed a piece of the jade

INTERMEDIATE MOTHERS CLUB
Twenty-five members of the Intermediate Mothers Club met Monday evening at the home of their president, Mrs. Bud Cripe. Mrs. Orrin Smith, Kosciusko county chairman of the Red Cross Blood program, introduced Mrs. Sally Lodge of Warsaw who discussed the services of the county Red Cross. She stressed the immediate need in the county for volunteer workers as Grey Ladies, canteen and mobile helpers. An interesting film on how the Red Cross handles the donors blood was shown. Mrs. Gaylord Jones and Mrs. Harold Kline were as- sistants hostesses.

of which he made the church win- dow, (Mrs. Williams did the art work) commissioned by Mr. Kraft of the Kraft Cheese com- pany. Mr. Kraft, now deceased, was privileged with 3 months time to enjoy the finished window and dedication. His last tribute to the maker of the only such window in the world, Mr. Williams and his helpmate, was a glowing recog- nition of their skill and love of their work. The window has been appraised by Time Magazine ex- perts at \$1,500,000.

Williams met Mr. Kraft through Chicago friends and found this "many times a millionaire" quite human and of wonderful charac- ter. He has made 1000s of gem stones and jades for him. Kraft loved gifting the Kraft Choir of 300 ladies, and always carried pieces of polished jade, value about \$7, in his pockets, to be- stow on many people who took his interest even momentarily. Wil- liams also made for Kraft a bracelet for Queen Elizabeth when she was a princess visiting here, and saved a newspaper picture of her at some function wearing the bracelet.

Rough stones, petrified wood, asbestos, etc. and finished jewels—plume agate, cat eye, onyx, aquamarine, tiger eye jasper, moonstones, and many others were shown, and the Williams' were given accolades of applause for one of the most interesting programs ever, and kept them many minutes after the program, to tell more and more. Two ladies were seen detaining them, in the parking area, even.

ART & CRAFTS CLUB
Louie's Grill was transformed into a lovely flower garden, Tues- day evening as the Art & Craft Club held their initial meeting of the season. The attractive party table was graced by a centerpiece of fall flowers arranged by Mrs. Mary Bushong. Tiny ceramic flow- ers held the place cards of each member and were the gift of the new president, Mrs. Alice Clark. Each member also received an ex- quisite pair of shell ear rings brought from Florida by Mrs. Louella Francis. After the dinner party, the Club members held a business meeting at Mrs. Alice Clark's home and planned the pro- gram for the coming year.
The next meeting will be held 18 October at the home of Mrs. Fred Kirkpatrick and the lesson will be "Arrangement of Fall Flowers for Centerpieces and Cor- sages."
Mrs. Priscilla Rhodie was guest of the club for the evening.

A group of Hebrew songs played by Mrs. Hillary Bachman and sung by Mrs. Dreher terminated the evening.

Good home lighting may mean the difference
between success and failure. Follow these simple suggestions and your child will never be at a disadvantage due to faulty lighting.
1. Eliminate dark shadows in the study room by having an adequate source of general light (ceiling or in- direct light).
2. Have a lamp of at least 150 watts for reading (pre- ferably diffused-type giving "soft" light).
3. Eliminate glare (have no unshielded lights within direct vision of child at work in the room).
Your child will be able to make the best progress in study with good lighting. And the suggestions may be used to benefit the whole family. Why not review your lighting needs today?
