Firms like that of the E-Z Gas Co., have made it possible for everyone to enjoy the advantage of gas for cooking, refrigeration and water heating, regardless of where they live.

Propane gas, a modern fuel, is available to everyone at a cost no greater (in fact in many cases cheaper) than inferior fuels. Propane is a fuel for every purpose, it is a clean fuel and a safe one.

Propane is being used quite extensively for tractor use, which makes possible a reduction on operational cost. Propane is better than other types of liquid gas as there is no dilution, no

carbon, gas does not wash oil off cylinder walls, eliminates sticky valves and gives longer wear.

This firm handles appliances for Propane gas refrigerators, hot water heaters, stoves, ranges and furnaces for homes or store buildings, with heavy duty supply tanks up to 1,000 gallons or larger. It will pay you to investigate this service before installing your heating system.

## BURKHOLDER DRUG

From where I sit... by Joe Marsh

Learn How to Pull Together

Saw a kid go by the Clarion office on a brand-new coaster wagon yesterday—and it reminded me of when my brother and I were about forty years younger.

Our folks weren't poor, but there wasn't enough to buy two wagons for Christmas. We got one between us. Dad made a rule that we each could have it for a week—but the boy with the wagon was responsible for keeping the kitchen wood-box filled.

Seemed a bargain to Bud and me—at first. But soon we discovered it was no more fun playing

alone than working alone. It wasn't long before we were sharing the wagon in return for sharing the chores.

From where I sit, you can't enjoy a privilege yourself if you're going to deny it to others. There are some folks who want the right to enjoy their favorite beverage—but would deny me my right to an occasional glass of beer. I doubt if such people get their full "share" of happiness, though.
