You'll be ahead with Ford's new Interceptor V-8 and Precision Fuel Induction. There's nothing newer than these engines that give you up to 300 hp. Smoother power! From less gas! One secret is Precision Fuel Induction, a wonderful new carburetion, fuel feeding, and combustion system.

You'll get up to 15% more gas savings with new Cruise-O-Matic Drive teamed with the new Interceptor V-8. New D1 position, used for all normal driving, lets you move smoothly, automatically—with just a touch of your toe—from solid-feeling take-offs right up to highway cruising speeds.
