The Associated Press reports that the representatives of the syndicate of New York and New York and New England capitalists who have been for several days endeavoring to secure a majority interest in the famous French Lick Springs property at French Lick, Ind, have returned east without having accomplished their object, some of the largest owners of the securities of the company being unwilling to part with their holdings. The property is now controlled by Kentucky, Ohio, Tennessee and Louisiana capitalists. Next winter, for the first time in nearly half a century, there will be a winter season there.

SAY

Do the people want to know why G. W. goes to the corner of Fourth street and College Avenue so often?

Why, he gets more meat for the money, and he can get his groceries and have them all delivered at one time, and if anything is not first-class he can get his money back. No old, tough milch cows bought or sold by this firm, every pound full weight and first-class. I own my building and pay no rent or clerk hire, and will be satisfied with a small profit. Give me a chance on sugar and all kinds of groceries. When it comes to meat, clear sides, boneless ham or breakfast; bacon and pickled pork, I can't be undersold by any one. My lard is rendered by myself. It is pure. I have enough young cattle and sheep bought to last 60 days. will handle Chickens, Butter, Eggs and all kinds of country produce.
