HURT IN ACCIDENT ON

route back to their home in
Waynetown from this city, two wo-
men were injured, one seriously about
today when the Oldsmobile coupe
which they were riding, skidded in
gravel on State Road 43, north
of the city, and turned on its side.

Women, Mrs. Hallie E. Foster,
was driving and her companion,
Jennie Harlow, were unable to
give any details of the accident, ex-
cept that they were nearing a cul-
vert at the time that they met an-
car, which did not give Mrs.
Foster room to turn the car back in
road when it started to swerve.
Passerby brought the women in
to the office of Dr. W. M. Mc-
Nee where their injuries were
treated. The older woman, Mrs.
Foster, suffered large gashes on her
forehead and scalp, and a dou-
ble fracture of the left arm. Mrs.
Harlow was not seriously injured, as
she sustained bruises.

It was not thought that the car
had been wrecked, except that the
shield had been broken in the
front. Mrs. Foster has a sister, Mrs.
Huffman, who lives on North
St., and they had come here
and the day with her, but find-
ing her not at home, had started
to their home when the acci-
dent occurred.

QUINCY HOLDS
ANNUAL PICNICSEVERAL LOCAL PEOPLE AT-
TEND. GOOD SPEAKERS ON
THE PROGRAM.

The fifty-seventh annual Quincy
picnic was held today with the usual
crowd turning out for the oc-
casion. Many Greencastle people
went to Quincy during the morning
and their basket dinners with
them.

It is an old tradition that rain al-
lows some time during the day
at Quincy picnic. In Greencastle
vicinity the sun was intensely
hot and rain began falling shortly be-
fore noon. It continued to sprinkle
shortly after 12 o'clock when
sun came out again hotter than
before.

The rain falling as it did still
adds the Quincy picnic tradition.
Speakers at the picnic were: Harry
H. Porter, Republican candidate for gov-
ernor; Frank C. Dailey, Democrat
candidate for U. S. Senator on the Democratic
ticket.

Many citizens were contrasting to-
day's mode of travel to Quincy with
the mode of travel of a few years ago. For-
merly the Monon "plugs" took large
buses to Quincy and wagons and
buggies were in vogue. Today, how-
ever, the Monon railroad has taken
the place of the wagon and buggy
and where made the trip by auto. Lo-
cal people returning during the af-
ternoon stated that there were a few
wagons and buggies at Quincy but
at the scores of parked machines
it was a far different scene from
ten short years ago.

Rev. Porter And
Family In Wreck

A coupe owned by Rev. J. E. Por-
ter, of Terre Haute, former pastor
of the Greencastle Methodist church,

ing when the machine went into the
south of here as they were en-
route to this city to visit Mr. and
Mrs. H. R. Krehl.

Mrs. Porter sustained bruises and
small daughter also received cuts
and bruises. Besides damage by
fire, caused by a leak in the gas
line, windows in the machine were
shattered and the right side dented.

dition warm.

BAINBRIDGE GIRL MENTIONED.

William H. Remy, prosecuting at-
torney of Marion county is investigat-
ing a report made to him by Miss
Juanita Libka, age 22, living on
Bainbridge Rural Route 1, she stated,
concerning an alleged vice ring in
Indianapolis. The girl said she an-
swered an advertisement in Indianap-
olis as a bookkeeper, that a man a
few days later came to her home and
took her to Indianapolis, where she
worked for a few days. Then she
said he demanded \$200 which she pro-
cured from her parents. He took her
for a drive over the city and after
eating at a hotel, knew nothing for
two weeks. When she woke up in
a Louisville resort, she escaped and
telephoned to an uncle.

KIWANIS"PHILOSOPHY OF LIFE" SUBJECT
OF INTERESTING LUNCH-
EON ADDRESS.

DR. WRIGHT IS GUEST

In Absence of Rev. C. Howard Tay-
lor, Vice-President Russell Brown
Presides At Meeting.

Prof. R. C. Tomlinson, who recently
resigned as head of the public
speaking department of the Green-
castle high school, to go to Lake For-
est College, was the speaker at the
weekly luncheon of the Kiwanis Club
on Thursday noon in the Presbyterian
Church. Prof. Tomlinson's sub-
ject was "The Philosophy of Life." He
recited several poems to bring
out his philosophy on humanity. Each
individual, in the speaker's opinion
should have some sense of the artistic
and a sense of humor to make his
philosophy of life complete.

Dr. Ernest Wright, a former
Greencastle boy, who is now one of
the leading physicians at Belvidere,
Ill., was a guest. Dr. Wright gave
a brief account of his life since leav-
ing Putnam county and he stated that
he was glad to be in Greencastle
again and to meet his old friends.

In the absence of Dr. C. Howard
Taylor, president of the club, Rus-
sell E. Brown the vice-president, pre-
sided at Thursday's meeting.

Mrs. Opal Cox of South Locust
street underwent a major operation
at the County Hospital Wednesday
night. Dr. Ruddle of Indianapolis
performed the operation with the as-
sistance of Dr. Hutcheson.

AUTO TAKES
TO DITCH TO
AVOID TRUCKEMORY F. COOPER IN ACCI-
DENT ON STATE ROAD 43
LAST NIGHT.

DRIVER ESCAPES UNHURT

Cooper Attempted To Pass Machine
And Takes To Ditch To Avoid
Crash With Truck.

Taking to the ditch to avoid hit-
ting an approaching log truck, Emory
F. Cooper, damaged his light
coupe but fortunately escaped in-
jury near the Big Four arch on
State Road 43, just north of the city
on Wednesday evening about 8 p.m.

According to Cooper, he was driv-
ing at a moderate rate of speed and
started to pass around another car.
Because of the dust and the blind-
ing headlights he could not see
plainly and just as he started to go
around the other machine he saw a
log truck approaching. To avoid hit-
ting the truck he swerved back with
a sudden application of the brakes.
The car was thrown sideways and
went into the ditch.

The auto landed on its left side,
damaging the top, smashing both of
the fenders, and bending one of the
disk wheels. The Franklin Street
garage wrecker was called and towed
the machine into the city for re-
pairs.

Gene Tunney To
Marry Rich Girl

(Copyright 1928 by United Press)
NEW YORK, Aug. 9.—Gene Tun-
ney, now retired from boxing, and
Mary Josephine Lauder, daughter of
one of the country's first and richest
families, will be married this autumn
or winter, probably in New York.

The rumored engagement of the
heavyweight champion and the Green-
wich, Conn., society girl was confirm-
ed last night in an announcement by
friends of Tunney and of Mrs. George
Lauder Jr., the mother of Miss Lau-
der, at Mrs. Lauder's request.

With that announcement, it is pos-
sible to tell why Gene Tunney be-
came a champion and a millionaire,
and how he became a Shakespearean
scholar and a man of culture, receiv-
ing into the salons and drawing rooms
of the elite.

The romance goes back five or six
years when Miss Lauder was about
16. Tunney was a friend of her
brother-in-law, Edward Dewing, of
Hartford, Conn. Through Dewing,
quite without design, he met her.

morrow, and will follow plans made
by him before he died.

Catholic Church, Brennan's home
parish.

WORD FROM DOW BOY

Mrs. A. J. Dow has received two
postal cards from her son, Julius,
who disappeared from his home east
of the city Monday. The first card
was post-marked Crawfordsville, and
one which she received Thursday
morning was mailed from Chicago,
and told nothing except that he was
all right.

The boy disappeared from his home
either last Sunday evening or late on
Monday, driving the family car.

TO CONDUCT
CATTLE TEST
OVER COUNTYSTATE VETERINARIAN TO IN-
SPECT PUTNAM COWS FOR
TUBERCULOSIS.

TO LOCATE OFFICE HERE

Milk To Be Shipped To Indianapolis
Must Be From Accredited Areas.
County Not Accredited.

A few days ago W. E. Gill, county
auditor, received a letter from the
office of the state veterinarian, F.
W. Brown, which asked that the
county commissioners make an ap-
propriation of not less than \$4,000,
to be available by January 1, 1929 for
testing cows for bovine tuberculosis.

This is necessary because two ad-
joining counties have been tested and
are recognized as accredited areas.
The law states that when two ad-
joining counties have been tested it
is necessary for all other counties
bordering these two to be tested also.
Morgan and Hendricks counties
have been tested and are accredited
areas.

The main reason why this is so
important to Putnam county dairy
men is because the Indianapolis Board
of Health, by the order of an ordi-
nance recently passed, is going to
require all milk brought into that
city to be from tested cows in ac-
credited areas. The greatest part of
the local supply of milk is sent to In-
dianapolis and the loss of this mar-
ket would mean a great deal to the
local farmers.

According to the county agent, the
loss of any cow found to be affected
with this disease would not be great
as the cow is appraised by the man
who tests it, and when sold on the
market the Federal government and
the state government make up two-
thirds of the loss sustained and the
owner stands good for the other third.

The state veterinarian, F. W.
Brown, will have charge of the test-
ing and will have headquarters in
Greencastle, working out of here in-
to all parts of the county until the
work is completed.

SWASHBUCKLER
DAYS IN OLD
CLINTON TWP.TENNESSEE AND KENTUCKY
BLOOD BOILED OVER AT TIMES
IN CIVIL WAR.

ROPES AND BULLETS FIGURED

Booneville, Alias Alma, On Wolf Pen
Fork of Little Walnut, Now
In Paradise.

Jeremiah's rhetorical question to
the effect that the leopard cannot
change its spots has never been at-
tacked by the super-critic, but Carthage,
being another sort of cat, changed
its spots and became Mt. Meriden.
Now comes Booneville, on the
Wolf Pen fork of Little Walnut, in
Clinton township, which was known in
official and society circles under the
aesthetic designation, Alma.

Uncle Sam knew it, or her, as that.
Mail addressed to Alma reached the
citizens of Booneville. The past tense
of the verbs is used here for the
reason that Alma is dead. It, or
she, died soon after the Civil war
closed. One local deliver into histor-
ical matters in Putnam county has
said that the opening of the distill-
ery at Clinton Falls, a quarter of a
mile down stream, was the cause of
the death of Alma, but Wm. Davis,
who yet lives on the site of the old
hamlet, says there was no connec-
tion between the two occurrences,
that they were merely coincidental.

The reason for the Dr. Jekyll-and-
Mr. Hyde existence of the town, as
far as concerned its names, was un-
known to Mr. Davis, but it is safe
to assume that Uncle Sam, having
one Booneville in Indiana, in War-
rick county, did not want another in
Putnam county.

Booneville on Wolf Pen creek
smacks of the old swashbuckler days
in Indiana, and the community, in
at least some periods of its existence,
lived up to its name. Its people were
chiefly Kentuckians and Tennesse-
ans, with their inherited ideas of per-
sonal liberty and their traditional
traits of character. They stood up
for their principles as they saw them.

They fought wolves and bears in
the early days, when the wilderness
in Clinton township was scarcely
touched by the pioneer axe, when it
was necessary for a man to blaze his
trail as he went in order to be sure
of getting back from where he was
going. An age of glamour to us,
possibly, but one of hardship to the
pioneers who lived through it.

The Wolf Pen fork of Little Wal-
nut, on which Booneville was situat-
ed, received that Wild West appella-
tion because of the existence on its
banks, not far from the little village,
of wolf traps in which the big tim-
ber wolves of the region, who loved
the pioneers pigs and calves as well
as the pioneers themselves, came to
grief. That in itself denotes the
wildness of the natural surroundings
of the place.

The first settlers had to travel
some seven miles to have their grist
ground, to Portland Mills or Blakes-
burg. There were no roads. Corn
and grist was carried on horseback.
Grist mills were built closer, later.

There was an Indian and a bison
trail up the stream, which passed
within rifle-shot of the center of the
collection of houses. Indian encamp-
ments were not far away.

James Houck, an uncle of some of
the Houcks of Washington county,
came to Booneville in 1838, from Lan-
caster, Pa., and opened a blacksmith
shop which had a widespread busi-
ness. He, so Mr. Davis, his grand-
son, relates, made the iron fittings
for the present old wooden bridge over
Ramp creek at Fincastle, on state
road 43. Mr. Davis' mother, when
she was so small she had to stand on
a box to reach the anvil, made horse-
shoe nails for her father. The
Houcks brought with them the first
iron cookstove known in Clinton town-
ship.

Booneville had a sash-saw mill built
by Colvin Grubb, a brother of George
W. Sherman and Henry Grubb. Har-
ry Crodian had a store and the post-
office part of the time. Dr. L. K.
Dille also had the postoffice and a
grist mill. Isaac Firestone owned the
tan yard in the '40's, just west of
Mr. Davis' present home. There was
also a shoemaker's and a gunsmith's
shop. One of the Chittingtons had
a store.

Other Booneville residents were
James and Zip Lewis Nelson, James
Hanna, Jonathan Manker, Thomas
Smith, Dave Nelson and Wilson
Spaulding.

The residents of Booneville were
divided in the matter of their allegi-
ance to the Union during the Civil
war time, just as were the people of
the states from which they and their
fathers had come. The Knights of

the Golden Circle were well organiz-
ed and operated during the period of
the great hostility. Men and boys be-
came bitter enemies of those who had
been their closest friends.

The sympathizers of the South di-
rected their enmity against the Union
soldiers who came home on furloughs,
especially. Wm. Davis' father was
slated for hanging by them, even the
tree on which he was to swing being
determined, but the plan failed.
One other man was to be captured
and hung as he approached his home,
from the Union army, but a woman
who heard of the plot warned him of
the danger before he reached the am-
bush, and he took another trail home,
avoiding the conflict.

In the house of the place now oc-
cupied by Frank McAlinden, several
miles from Booneville's site, in the
east door frame, there is a bullet
hole made by a Union man who now
has relations in Greencastle. A
Southern sympathizer had been where
the bullet hit, just a scant second or
less before.

It is needless to say that the fam-
ilies of all these old-time enemies are
the best of friends now. —G. E. Black

OFFICIALS AT
WORK ON NEXT
YEAR'S BUDGETIMPOSSIBLE TO COMPLETE BUD-
GET UNTIL NEW VALUATION
IS ASCERTAINED.

According to reports here and
there in the community, there will
be changes in the city tax levies and
the city school levies for the coming
year. Until the exact amount of the
valuation in Greencastle city and
Greencastle township is known, it
will be impossible for the city offi-
cials and the city school officials
to make an accurate budget.

W. E. Gill, county auditor, is now
making up all the valuations in the
county the five per cent added Tues-
day at the request of the Indiana
State Tax Board, and until his is
totaled, the assessment for these
units cannot be totaled.

The City officials are now work-
ing on the budgets for the coming
year, and it is believed there will be
a reduction in the city tax rate. The
expenses will be held to the mini-
mum and if the valuation is near the
same as this year, there will in all
probability be a fair reduction.

In making up the city school bud-
get for next year, there will be some
increases because of the construc-
tion of the Second Ward building,
and the expenses attached to the
construction that may not have
been covered by the bond issue.

This will probably mean an equally
high rate as this year if not higher.
In the county, there will no doubt
be an increase in the tax levy be-
cause of the heavy reduction in val-
uations made this year by the taxing
officials. There will be a loss of
about \$3,000,000, and this loss will
have to be off-set by an increase in
the rate to raise the same amount
that was raised this year.

The officials are working on their
budgets and until these are com-
pleted, they will be unable to give
an accurate idea of what the levies
for next year will have to be. All
the levies will be made either this
month or early in September.

Heavy Loss Of
Life By VolcanoERUPTION ON SOUTH SEA IS-
LAND KILLS 1,000. ABOUT
600 INJURED.

AMSTERDAM, Aug. 9.—(UP)—
One thousand persons were killed
and 600 injured when six villages
were destroyed by an eruption of the
volcanic mountain Rokatinda on the
island of Paluweh, according to
dispatches received here today from
Batavia.

Casualties and property destruc-
tion centered in the southwestern
part of the island.

Nine ships were reported to have
been sunk off Celebes Island.

MAY HAVE AIRPORT

There is a possibility that Putnam
County may have a regularly equip-
ped air port. Donald McLean and
Andrew Hirt who purchased the Peck
Corner at the National road and
Road 43 a few days ago, are consid-
ering the establishment of a regula-
tion air port at that important cor-
ner for mail carrying airplanes as
well as for commercial planes.

This corner is on the trans-con-
tinental air route east and west and
would be an ideal spot for such a
place.

RESIDENTS OF
CITY SWELTER
IN HEAT WAVEWEDNESDAY WAS HOTTEST
DAY OF SUMMER. MERCURY
REACHED 95.

SWIMMERS SEEK STREAMS

Bright Sun Thursday Morning Gave
Indications That Temperature
Would Be High Today.

Wednesday was the hottest day as
yet this summer for Greencastle ac-
cording to the government gauge at
the home of Prof. Ernest R. Smith
in Northwood. The thermometer
registered a maximum of 95 degrees
above which is the highest it has
soared today.

Citizens of the city sweltered again
Thursday morning as the hot rays of
Old Sol beat down upon the sidewalks
and pavements. Before noon there
was every indication that the mercury
would go as high if not higher than
on Wednesday during the present
heat wave.

The heat wave has made Big Wal-
nut Creek and other streams in the
vicinity, the mecca for swimmers this
week. One local motorist reports
passing the swimming hole at Crowe's
bridge, northeast of the city, last
night about 9 o'clock where a score
of bathers were enjoying the cool
waters of Big Walnut. Other holes
in different directions from Green-
castle are having their share of the
bathers and it is sincerely hoped
that no accidents will occur.

FLORIDA STORM
SWINGS TO GULFTROPIC STORM IS BELIEVED
SUBSIDING IN SOUTHERN
STATE TODAY.

JACKSONVILLE, Fla., Aug. 9.—
The tropical hurricane which for more
than 24 hours has spread destruction
across the Florida peninsula was rap-
idly hurrying its full force into the
Gulf of Mexico north of Tampa to-
day. It was hoped the worst of the
tropical disturbance was over.

The high winds—which at times
are reported to have reached a ve-
locity of 80 miles an hour have whip-
ped over a wide district starting on
the eastern coast, smashing their
way through the midlands, now are
touching the west coast and possibly
will pass on out to sea.

Tampa and St. Petersburg on the
west coast were isolated. Behind the
storm lay a trail of devastation across
the state. Property and crop dam-
age was estimated in the millions.

Reports from towns and cities in
the interior and on the east coast
where the full force of the hurricane
had passed continued to indicate no
loss of life.

Wind velocities of 60 to 80 miles
an hour were reported near Tampa
early today before the hurricane
swept down all wires to the north.

In Tampa bay lay coastwise vessels
which had delayed departures until
hurricane danger passed. Some fear
existed for safety of shipping.

Weather bureau advices said the
storm would move north of Tampa,
however. At 8 a. m. today all wires
were reported down 50 miles north
of Tampa.

In this territory, bounded on the
south by Tampa bay and on the
north by upper Citrus County, the
center of the hurricane was believed
moving.

A delayed telegram from Tampa
received here at 9 a. m. and appar-
ently filed by the United Press cor-
respondent there soon after midnight,
said the center of the storm missed
the city, although telephone and tele-
graph lines were damaged.

INDIANAPOLIS LIVESTOCK

INDIANAPOLIS, Aug. 9. (UP)—
The hog market was 10 to 25 cents
higher at the Indianapolis livestock
exchange today. Bulk (160 to 275
lbs.) hogs cleared the pens at \$11.40
to \$11.95 with a top price of \$12.
Receipts were estimated at 4,000.

The cattle market was steady on
receipt of 750 head. Steers sold for
\$14.50 to \$16. The calves market
was steady but tending higher. Veal-
ers brought \$16.50 to \$18 and heavy
calves \$7 to \$11.

The sheep market was weak on re-
ceipt of 800 head.

What Everywoman Knows

"Mr. Wetz's grocery is located at 16 east Washington street, and I thought I would drop in on him the other day to ask what experience he was having with the popular new Middy Bread.

My boss, the baker, insists on making every loaf of Middy bread large, soft and flakey and baking it to a crisp, brown crust on the outside.

I asked Mr. Wetz what he thought about the size and he said, 'Not only has it a better taste, but it is by far the largest pound loaf I have ever sold.'

This means more slices as well as better slices."

Do you enjoy your

If you do not enjoy your food it is a true sign that you are losing your appetite. And when your appetite is "gone" it means you haven't the resistance to ward off disease. Loss of appetite is only a symptom. General weakness pervades the entire body. There is no desire to work or play.

Rich, red, blood builds and sustains

Your physician will tell you that lowered vitality is the result of insufficient supply of red blood cells—those vitalizing elements in the blood that nourish and sustain the body.

When you get your red blood cells back to normal, that sluggish, let-down feeling, loss of appetite, rheumatism, boils, pimples, and skin troubles disappear. You get hungry again; sleep soundly; solid flesh takes the place of that which was once flabby. You feel strong; and your nerves become steady.

obligation which that inheritance implies.

We have become the trustees of Dodge Brothers
good faith to their customers, and it is our purpose
to execute that trust with fidelity.

Mrs. Inez McDowell, who for the

Ladies and Gentlemen! Do You Know?

That you can now buy brand new
Goodyears for as little money as you
were asked a short time ago for cheap,
inferior, little known tires?

That we will make you a liberal al-
lowance for old tires? In other words,
"we will buy your troubles before they
happen."

That you have four types of Good-
years from which to select — Double
Eagles, Heavy Duty All-Weathers,
Standard All-Weathers and Path-
finders?

That for the last 12 years more people have been riding on Good-
years than on any other tires—which proves that long experience
with tires has convinced most people that it costs less to ride on
Goodyears.

JOHNSON MAY BUY SITE
DELPHI, Ind., Aug. 9.—Reports that Jack Johnson, former negro world's heavyweight champion, had purchased a lot on Lake Delphi on which he intends to build a country home, have aroused a number of Carroll and White County residents to strong protests.

Efforts have been made to ascertain who sold the land to Johnson. Thus far no details of the reported sale have been learned.

The Monticello Herald in commenting on the report said: "It is understood that the deal for the land is being engineered by Guy Eaton of Hammond who owns a subdivision of Shaffer Lake just across from the country club. It is not known what holdings Eaton has on Freeman Lake and consequently the prospective location of the Johnson purchase is not available.

"The intimation that Johnson might locate a summer home in this community caused something of a sensation. Some of the property owners on Freeman Lake objected on the ground that there might follow an influx of the sporting element which they would not want. Others said it would be good advertising as Jack usually makes news wherever he goes."

Neuritis Pains Stabbed Her In Back Like Knife

"Konjola Is The Medicine My System Always Needed," Says This Lady.

MRS. PAUL RAINÉY

"The aches and pains of neuritis left my body very quickly after I started taking Konjola and I feel other sufferers are looking for just such a medicine, that's why I am endorsing it," said Mrs. Paul Rainey, 326 E. Lewis St., Ft. Wayne, Ind.

"My suffering had made life miserable for me and it seemed I could not interest myself in anything. Everytime I made a move those neuritis pains would stab me in the back like a knife and jump from one spot to another. My back was always sore and aching. The pains would get so bad sometimes that I couldn't stand to be on my feet and would have to go to bed for several days.

"Konjola is the medicine my system always needed. I could notice a great change after finishing the second bottle and after completing the treatment every ache and pain was gone. I will always stand ready to praise this surprising remedy to anyone."

Konjola is sold in Greencastle, Ind. at the Owl drug store and by all the best druggists in all towns, throughout this entire section. —(Adv.)

MOVIES

AT THE VONCASTLE

"Telling the World," which shows at the Voncastle today and Friday, is perhaps the best of the line of starring pictures with which William Haines during the past two years has periodically convulsed and thrilled these United States.

The story concerns a youthful ne'er-do-well who when ejected into the cold world by his wealthy father gets a job on a newspaper with his first assignment to interview his parent on the subject of why he kicked him out.

With that hilarious opening, the tale moves rapidly through Haines' period as a "cub" wherein he solves a night club murder and incidentally rescues a little cabaret girl (Anita Page—and what a beauty she is!) from the clutches of the police.

Unfortunately, Haines' ideas of acquaintance with the girl do not include matrimony and she, rather than cause them both unhappiness by yielding, joins a theatrical troupe en route to the Orient. Haines, awakened too late to what he has lost, follows her and by means of a news story sent out from the interior of China that arouses the entire world, rescues her from the vengeance of a Chinese war lord who has ordered her executed.
