CLARK GRIFFITH STADIUM, Washington, Oct. 7.—The young man who soured the Giants' famous war cry—"They cannot beat us"—proved it yesterday afternoon in one of the most thrilling world series games played in years.

John Collins (Blondy) Ryan, the fair-haired boy shortstop of the National league champions, came through in the eleventh inning with the base hit that scored the winning run and then saved the game by starting a double play that ended the last desperate rally of the Senators with the bases full.

In a flash that had the hearts of one and all, including 27,762 cash customers, beating wildly with excitement and suspense, Carl Owen Hubbell pulled out his second conquest of the American league champions by the thin margin of 2 to 1 after a sensational duel with Monte Weaver, youthful right-hander of the Senators.

It was the third triumph for the Giants in four brilliantly pitched ball games, by far the most dramatic of anything that has happened so far, and puts this amazing New York team within one game of its goal—a world championship that seemed like a "pipe dream" to their followers only a few months ago.

But for an error by the great Hubbell himself in the seventh inning, when he juggled Joe Kuhel's easy bunt and paved the way for the tying score, the master of the "screw ball" would have scored a 1-0 shutout in the regulation nine innings, thanks to a terrific home run drive by Manager Bill Terry into the cone-like centerfield bleachers in the fourth frame.

As a result of this deadlocked situation, the two pitchers and the two teams fought in spectacular fashion for the edge. Four times the Senators failed to score off Hubbell or break through the Giants' defense, with runners on third base, in a furious struggle marked by the ejection of Heinie Manush, slugging left fielder, from the game after the sixth inning for a row with Umpire Charles Moran of the National league on a close decision at first base.

"Are Sin, Disease, and Death Real?" is the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, October 8.

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "He brought them out of darkness and the shadow of death, and brake their bands in sunder. He sent his word, and healed them, and delivered them from their destructions. Oh that men would praise the Lord for his goodness, and for his wonderful works to the children of men!" (Psalms 107: 14, 20, 21).

The Lesson-Sermon also includes the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Sin, sickness, and death are comprised in human material belief, and being not to the divine Mind. They are without a real origin or existence. They have neither Principle nor permanence, but, along with all that is material and temporal, to the nothingness of error, which simulates the creations of Truth" (p. 286).
