"BATTLE OF THE CENTURY" AT PLAYGROUND TO-NIGHT

Bitter rivals will clash in the third and championship game of the season this evening at 7:30 under the flood lights at the playground on east Walnut street. It will be a 9-inning soft ball tilt between the Kiwanis and Rotary club members and both sides are promising that it will be one of those "battles of the century."

CARS IN CRASH

Seven persons escaped injury early Thursday afternoon when automobiles driven by Alta Butler, daughter of E. C. Butler of Mt. Meridian and L. C. Schwerin, Indianapolis, were in a collision a mile west of Mt. Meridian on the National road.

The Butler car was occupied by six persons, all of whom were badly shaken up but escaped injury. Schwerin said he apparently went to sleep or was overcome by the heat. His car crossed over on the wrong side of the road and hit the side of the Butler car which had been driven off the pavement in an effort to avoid the collision.

Illness Fatal To Mrs. Williamson

DEATH OF WELL KNOWN LOCAL WOMAN OCCURRED THURSDAY MORNING

Mrs. Jennie Williamson, age 85 years, widow of Augustus Williamson, former Greencastle business man, died at the county hospital Thursday morning at 3 o'clock, following an illness of colitis.

Mrs. Williamson for the past few years lived at the Crawford hotel but prior to that time had resided at her home on Bloomington street. She was well known in this city.

She is survived by a son, Edwin Williamson of Shawnee, Okla., a daughter, Mrs. Florence Regal of Los Angeles, Calif., and a brother, John Burks of Oregon.

Funeral services will be held Friday afternoon at 2 o'clock from the Lakin Funeral Home conducted by the Rev. C. D. W. Hildebrand. Burial will be in Forest Hill cemetery.

City Swelters In Latest Heat Wave

RELIEF PROMISED BY FRIDAY IF COOLING WINDS ARRIVE AS INDICATED

Greencastle again sweltered in the grip of the latest heat wave of the summer Thursday when the temperature soared to near the 100 degree mark in the afternoon.

The minimum early this morning was 76, 4 degrees hotter than the low mark for Wednesday. At 2 p. m. the mercury had soared to 97 which was 9 degrees hotter than yesterday's maximum temperature.

Sultry atmospheric conditions existed and there was only a slight breeze at rare intervals.

However, cooling winds from the northwest tonight and tomorrow will bring relief from the heat, the United States weather bureau at Indianapolis forecast today.

Temperatures throughout the state today will exceed those of yesterday before the cooling winds arrive, J. H. Armstrong, meteorologist, said.

No relief from the extreme drought which has caused a serious water shortage and heavy crop damage is in sight.

Unsettled conditions will prevail over the state with scattered light showers probable but no appreciable amount of rain is expected.

WRITS ARE SERVED

BOONVILLE, Ind., Aug. 9 (UP)—With only seven of 25 persons named in election fraud indictments returned by the Warrick county grand jury under arrest, serving of writs was continued today.

All those arrested were released under bond immediately. The investigation resulted from a fight between supporters of Gov. Paul V. McNutt and R. Earl Peters, Fort Wayne, in the May primary.

Those indicted were members of the McNutt faction, victorious in the primary. The charges include unlawful voting, bribing of voters and illegal marking and examination of ballots.

FLIERS FORCED DOWN

LONDON, Aug. 9, (UP)—Leonard G. Reid and J. R. Ayling, attempting a non-stop flight from Ontario to Baghdad, landed at Heston airdrome at 1 p. m. EDT. today.

GOOD PROGRAM IS PLANNED BY LOCAL C. OF C.

ENTERTAINMENT FOR 4-H CLUB FAIR SPONSORED BY CHAMBER OF COMMERCE

SQUARE DANCE EACH NIGHT

Special Music Arranged For Friday And Saturday. Other Features Also Promised.

The Greencastle Chamber of Commerce will put on an entertainment program for visitors who will be in Greencastle Friday and Saturday for the annual 4-H club boys and girls fair, that promises to be of much interest to everyone.

Greencastle merchants will remain open Friday evening and on Saturday evening as usual.

The music for both Friday and Saturday will be furnished by the Bainbridge-Roachdale high school band. Friday evening the Greencastle band will give a concert on the courthouse lawn, starting at 8 o'clock. It will be the regular weekly concert which has been changed from Thursday evening to Friday evening because of the fair.

The boys and girls exhibits will be made in a half dozen rooms downtown. Musical programs will be given in these rooms by the Fillmore Hot Shots, the Nelson Brothers band and probably others.

The Tincher Sisters of Marion township will also be here for both Friday and Saturday with their interesting musical numbers.

On both Friday and Saturday, a big square dance will be staged on the west side of the square. A space nearly the length of the whole block will be roped off so that the dancers will have plenty of room. Music on a truck will be furnished from the center of the space and dancers will be given space on both sides of the truck.

A number of concessions have been arranged for during the two days and others were expected to be lined up today while representatives conferred with them at the Quincy picnic. There will be shows, a merry-go-round, a ferris wheel and numerous eating places and nick-nack stands that will be of interest to both old and young. With good weather, indications are for big crowds for both Friday and Saturday.

150 PHEASANTS AWARDED TO PUTNAM CO. SPORTING CLUB

Herman Riley, local game warden, and officials of the Putnam County Sporting club received a shipment of baby pheasants from the department of conservation of the state Thursday morning. There were about 150 of the baby birds in the lot.

The pheasants were sent to rearing pens at the camp of Tab Christie near Cataract Falls where they will be kept for the next several weeks, before being returned to sections of this county for release. The birds are to be kept and cared for in order that they will be better able to take care of themselves when released, because they will be much larger and several months old before being given their freedom.

Sues To Collect Two Lost Notes

HENRY CASH MAKES DEMANDS OF \$150 AND \$175 OF HERSHEY AND JEANETTE COOPER

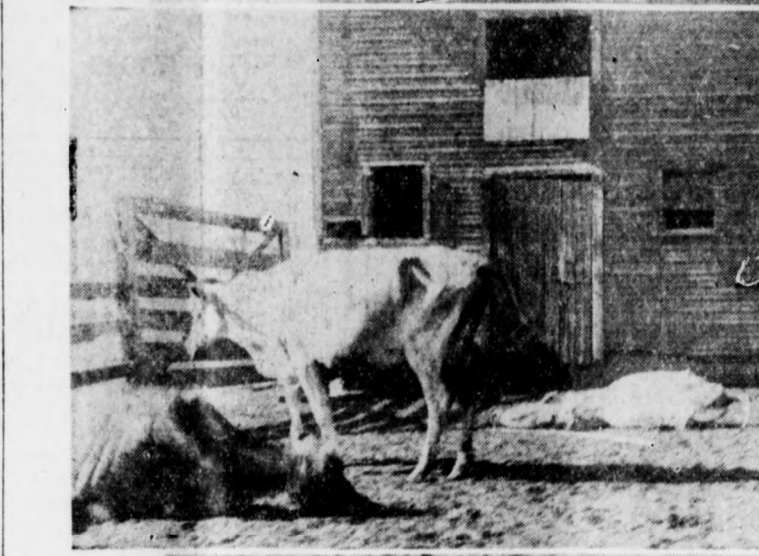

An unusual suit is on file in circuit court wherein Henry Cash seeks to collect two lost notes alleged given him by Hershey Cooper and Jeanette Cooper, which are overdue and unpaid. Demands of \$150 and \$175 are made in the two paragraphs of the complaint.

In the first paragraph of his suit the plaintiff alleges the defendants became indebted to him in the sum of \$100 evidenced by a note which was due Sept. 1, 1932, while in the second paragraph the plaintiff alleges the defendants gave him another note of \$122 which was due Jan. 1, 1933.

The plaintiff alleges both notes were given as payment of the balance due on real estate but that he has lost the notes and cannot produce them as evidence. He asks the court, however, to award him judgments in the amounts asked.

Fred V. Thomas is attorney for the plaintiff.

NEW HEAT WAVE TAKES HEAVY TOLL

BLANKET OF COOL AIR FROM CANADA SEEN AS ONLY HOPE OF RELIEF

CHICAGO, Aug. 9, (UP)—With almost 10,000,000 American farmers already doomed to the catastrophe of a century, a molten sun rocketed temperatures to new heights today over two-thirds of the nation.

Only scattered showers early today and a weather bureau prediction that a blanket of cool air may spread southward from Canada brought hope to sweltering millions. Rains during the night in Illinois, Wisconsin and Iowa brought only a few hours of comparative comfort.

Death followed the sun across the stricken territory. A toll of more than 1,000 human lives, taken by the months of almost uninterrupted heat, grew with every hour.

Hospitals in Chicago, St. Louis, Wichita, Kansas City and dozens of other metropolitan areas were filled with prostrated sufferers. Unofficially it was estimated that more than 350 persons died of heat induced heart failure in 24 hours.

The hard-baked earth, radiating stored up heat in shimmering waves, aided the sun in boosting temperatures even above those of yesterday, when all time records fell from Louisiana to California.

At Otumwa, Ia., a high pressure area drifting down from Canada offered little hope that yesterday's 115 degrees—highest recorded in 115 years—would not be surpassed.

Omaha saw the mercury simmer again toward the 110 degree mark. It was 108 yesterday in Kansas City, Mo., 109 in Topeka, Kan., 106 in St. Louis and Lincoln, Neb., 110 in Des Moines and 108 at Springfield, Ill.—another all time record.

Today threatened to bring even more intolerable conditions at virtually every point.

Through the great wheat and corn belt—across Illinois, Wisconsin, Minnesota, the Dakotas, Missouri, Kansas, Nebraska—the toll in crop damage was terrific.

Experts say it has passed \$2,000,000,000 this year.

The last seven days have dashed virtually every hope that the broiling countryside might recover, even with a period of real gully-washers, from six months of drought. In the week temperatures ran from 5 to 30 degrees above normal. Over eight

20 Years Ago IN GREENCASTLE

Mr. and Mrs. Charles Haltermayr of Indianapolis are the guests of Mr. and Mrs. Charles Meikel.

Dr. T. A. Sigler, assistant state veterinarian, announced that he had placed several farms in the northwest part of the county under quarantine due to hog cholera at Morton.

Ross Runyan, Russell Farmer and Lawrence Bryan who are camping at Blue Bluffs saved three women and four children from drowning it was reported here this morning. According to reports, the group of seven were wading in White river and holding to a boat. One of the women slipped in deep water and overturned the boat. The local men heard their cries for help and succeeded in bringing all seven safely to shore.

R. W. Shafer returned home from a business trip to Cincinnati.

Airplane Trip Reveals Extent Of Drought Damage In Missouri Valley

EDITOR'S NOTE—From an airplane cruising over drought-torn middle America a United Press correspondent gained a vivid picture of what rapidly is taking the form of a national disaster. In the following dispatch the countryside as seen from the air is contrasted with normal conditions.

CHICAGO, Aug. 9, (UP)—The year of the great drought is spreading a vaneer of deepening powder-brown over the Missouri valley, bringing the people of a vast food-producing area to perhaps the most harrowing crisis of their lives.

Viewed from an airplane, the panorama of catastrophe is a startling contrast to the normal appearance of farmland in Kansas, Nebraska, Iowa and Missouri.

Fields which ordinarily at this season are a sparkling green and golden patchwork have been baked a dull dun, with no moisture for many feet under the dusty surface.

Herds of cattle which usually are dark red and Jersey dots on the pastureland now are thin and thirsty creatures crowding the stockyards awaiting slaughter.

The rolling countryside—normally a tree-fringed landscape dotted with pleasant towns—is a blanket of dirty gray, pale yellow and sparse, faded green rectangles.

Meandering streams have been dried up, their beds turned to white ribbons. Ponds in virtually every pasture are dry and powdery craters. The usual deep green of corn fields is missing. On a flight over farming land in states which normally contribute heavily to the nation's food supply there was almost no sign of human activity. Only two herds of cattle were seen.

Rain—a long, hard downpour this month—is the hope of farmers. A real gully-washer would yet save much of the corn crop; pave the way for fall wheat planting. These farmers say they will not give up hope but they greet with anguish each sun-soaked morning and suffer greater mental than physical torture in the blasts of burning wind from the southwest.

From the air, the picture of heat-seared land stretches eastward over Kansas and Missouri to the very banks of the Mississippi river. The hot wind suddenly turns the cabin of the plane into an oven as it drops down over Kansas City. The heat on the landing field—a thermometer placed in the sun there recently registered 132 degrees—is staggering after the cold of 15,000 feet.

The city appears green from the air but only its trees are unaffected. Grass is gone from eight out of ten lawns. On the east side of the streets, where the sun bakes after noon, the rate is much higher. The temperature was around 104 degrees almost daily for weeks. The sun is a glare on the pavements; the wind suffocating when it gathers the fumes of heavy automobile traffic.

The people of Kansas City read the weather forecast first when they pick up their daily newspaper. Many sleep on the lawn. Some have special ice machines which cool their bedrooms—the company at one time was 20 days behind on deliveries of machines. Others put a cake of ice in a pan and turn an electric fan on it.

At roadside vegetable stands, housewives now pay perhaps a dollar for a basket of tomatoes which last year cost around 35 cents. Many are buying canned vegetables by the case, storing them against high prices next winter. Many shops, stores, restaurants, night clubs, are air conditioned. Women frequently have luncheon and stay all afternoon in cooled restaurants to play bridge at the luncheon tables.

Farmers come daily to special fire-plugs around the city and fill tubs, buckets, and tanks with water which is hauled to their farms. Thirteen railroad cars of water were shipped from Kansas City on Monday to Kansas and Missouri farms.

OLD ECONOMIC LAW ASSAILED BY PRESIDENT

PLEDGES ALL A SHARE IN NATIONAL WEALTH THROUGH NEW DEAL

"NEW DEAL HERE TO STAY"

Mr. Roosevelt Delivers Aggressive Address Friday At Green Bay, Wisconsin.

GREEN BAY, Wis., Aug. 9, (UP)—President Roosevelt today challenged the old economic law of "tooth and claw" and pledged the new deal to a multiplication of national wealth in which all may possess a share.

Mr. Roosevelt defied those who complain that the nation lacks confidence. He bluntly warned that the new deal is here to stay and will move forward, not retreat.

"There is no lack of confidence," the president said, "on the part of those business men, farmers and workers who clearly read the signs of the times. Sound economic improvement comes from improved conditions of the whole population and not the smallest fraction thereof."

"Those who measure confidence in this country in the future must look first to the average citizen."

"Honest business is secure," Mr. Roosevelt assured 20,000 persons gathered here for Wisconsin's bi-tercentenary celebration. He proscribed selfish profit by the few at the expense of the many.

But the president said the methods employed in seeking social justice would not "rob Peter to pay Paul."

"The processes we follow do not in adding to general prosperity take from one and give to another," he said. "We are concerned with more than mere subtraction and addition. We are concerned with the multiplication of wealth through co-operative action; wealth in which all can share."

The address contained political implications which may figure in the three-year show developing in this state. By indirectness, Mr. Roosevelt uttered what observers regarded as an appreciative endorsement of Sen. Robert M. La Follette, progressive Republican who faulted Herbert Hoover in 1932 to support the new deal. Wisconsin Democrats will oppose La Follette this year with a man of their own party. The youthful insurgent heads the ticket of a third party movement and there will be a regular Republican state in the Wisconsin field.

The president said: "Your two senators, both old friends of mine, and many others have worked with me in maintaining excellent co-operation between the executive and legislative branches of the government. I take this opportunity of expressing my gratitude to them."

Mr. Roosevelt, in fighting words, lost little time in getting down to cases, summing up briefly the birth of the new deal and pointing out the obstacles which may hinder complete fulfillment, the persons who call for expressions of confidence from the administration. At the same time, however, he explained:

"It is government intent no injury to honest business. The processes we follow in seeking social justice do not in adding to general prosperity take from one to give to another. In this modern world, the spreading out of opportunity ought not to consist of robbing Peter to pay Paul."

"We are concerned," he emphasized, "with more than mere subtraction and addition. We are concerned with the multiplication of wealth through co-operative action; wealth in which all can share."

"These high purposes must be accompanied by co-operation among those charged by the people with the duties of government. I am glad to be in a state from which I have greatly drawn in setting up the permanent and temporary agencies of government."

Mr. Roosevelt contrasted the new deal with the pioneering spirit shown by the early Wisconsin settlers when he observed that "We are but carrying forward the pioneering methods to the better use of vast land and water resources—what God has given us to use as trustees not only for ourselves but for future generations."

"But man is fighting also those forces which disregard human co-operation and human rights in seeking individual profit which is gained at the expense of his fellows."

"It is just as hard to achieve harmony as it is to achieve discord."

Prevo's Store To Have New Front

ONE OF OLDEST FIRMS IN CITY REMODELING STORE FOR NEW DISPLAY WINDOWS

The S. C. Prevo Co., store on Indiana street, has started work on remodeling the display windows and the entire front of the store. The work is well underway and will require about a month to complete.

Prevo's started here in 1900. They were first on east Washington street, but removed to their present location when the new building was erected. The store has kept pace with modern merchandising methods and the new front is in keeping with their policy of staying abreast of times in both merchandise and displaying it.

The new front will be quite different from anything in the city. It will have one center entrance, an island display window with an arcade behind it and the entire length of the display windows, which will line the front directly behind the island display case.

Special black onyx glass is to be used to line the windows with the use of aluminum metal strips for the frame work. The floor of the arcade will be of terrazzo construction and the lighting will be of the latest type for display purposes.

The store will be open during the construction period, and a grand opening will be held about the first of October, following the completion of the work.

FREDERICK SCHORTEMEIER
TO HEAD G. O. P. SPEAKERS

INDIANAPOLIS, Aug. 9, (UP) — Frederick E. Schortemeier, former secretary of state, will head the speakers bureau of the Republican state committee in the 1934 campaign.

His appointment was announced by Don B. Irwin, state chairman, following a meeting of the state committee and candidates for state offices. Schortemeier will take active charge of the bureau Sept. 1. He served as secretary of state from 1925 to 1929 and now is practicing law in Indianapolis.

Candidates who met with state committee members yesterday were almost unanimous in the belief that numerous small meetings throughout the state will be the most effective method of campaigning.

Each urged that issues be clear cut and that no attempt be made to confuse the voters.

Irwin said he had held conferences with chairmen and vice chairmen in 90 counties and that he plans to enlist the aid of at least 100,000 persons in the Republican campaign.

The time and place for the official opening of the campaign will be selected at the summer outing of the Indiana Republican Editorial Association at Lake Wawasee next weekend.

The state committee yesterday denied a petition of a group of Vigo county Republicans who had sought the ouster of Hugh Cuthbertson, Terre Haute, as Vigo county chairman.

HOKE TO QUIT SEPT. 15

INDIANAPOLIS, Aug. 9, (UP) — Denying reports that he will continue as Indiana member of the national emergency council, Fred Hoke today said his resignation would become effective Sept. 15. His resignation was submitted several weeks ago, effective Aug. 1. Washington officials induced him to continue until after the federal housing program was started in Indiana.

FARM ESCAPE SENTENCED

Ray Osgood, of Dearborn county, who said he was 39 years old last Independence day, lost his independence in circuit court Thursday morning when Judge Wilbur S. Donner sentenced him to serve 1 to 5 years in state prison for escaping from the Indiana State Farm July 27.

Osgood said he was sent to the farm for six months for stealing slot machines. He was "turned up" by the wife of another man who was sentenced to the farm for the same offense. Osgood said this woman was "sore" because her husband did not get away with him. Osgood was apprehended in Cincinnati.

Treaty Of Taif By Arabs Ends Recent Warfare

ALLIANCE MADE BETWEEN SAUDI ARABIA AND THE YEMEN

HODEIDA, Arabia, (UP)—A defensive alliance to protect the Arabian peninsula against any outside attack, is the outcome of the recent hostilities between Saudi Arabia and the Yemen.

The victorious King Abdul Aziz Ibn Abdul Rahman El-Feisal Al Saud and His Majesty Iman Yehya Ibn Mohamed Hamed-du-Deen have signed a treaty of "Moslem Friendship and Arab Brotherhood," called the Treaty of Taif.

By this treaty it is hoped to preserve a lasting peace between the adjoining kingdoms, and one clause of it suggests they "help each other in any unforeseen calamity and form a united front against any attack on the Arabian Peninsula."

Occupation by the Imam's troops of certain Saudi-Arabian territory is given as the cause of the recent hostilities. By the new Treaty of Taif, this disputed area reverts once and for all at Saudi Arabia, and the boundaries of the two countries are strictly defined.

The treaty declares that it is desired "to confirm the frontier between the two countries, establish good neighborly relations and ties of Moslem friendship and strengthen the foundation of peace and tranquility between the countries and the people."

Recognition is made of the complete independence of each kingdom, and the renunciation of any claim by either party beyond frontiers which are defined in the treaty. In cases of dispute, each ruler agrees to submit the matter to arbitration.

It is usually best to house the pullets soon after the first eggs are laid on range. There is little or nothing to be gained in attempting to hold the pullets back. When they are ready to lay house them, and feed a laying ration.

It would be wise to look into the matter of breeding males for next year at this time as desirable males are harder to find in the fall.

A suitable growing ration should be fed until the pullets are placed in the laying house. Most growing rations consist of both grain and mash. Since many of the grass or legume ranges in Indiana are of little value at present due to the dry weather, it is also wise to use about five per cent alfalfa meal or three per cent alfalfa leaf meal in the ration.

Every poultryman is cautioned to be on the watch for lice and mites at this time of the year. The mites stay in the cracks and joints of the wood roosts and supports. They can be controlled by cleaning the house well, then painting the roosting equipment with one-half kerosene and one-half carbolineum, or one of the reliable cool tar disinfectants.

Examine the pullets occasionally for lice, as they are sometimes found on them in large numbers at this time of the year.

When treating for lice one may dip the birds in slightly warm water in which is placed an ounce of sodium fluoride to a gallon of water, or nicotine sulphate may be used on the roosts.

WASH OUT 15 MILES OF KIDNEY TUBES

Win Back Pep...Vigor...Vitality

Medical authorities agree that your kidneys contain 15 MILES of tiny tubes of filters which help to purify the blood and keep you healthy. If you have trouble with too frequent bladder passages with scanty amount causing burning and discomfort, the 15 MILES of kidney tubes need washing out. This danger signal may be the beginning of nagging backache, leg pains, loss of pep and vitality, getting up nights, lumbago, swollen feet and ankles, rheumatic pains and dizziness. If kidneys don't empty 3 pints every day and get rid of 4 pounds of waste matter, your body will take up these poisons causing serious trouble. It may knock you out and lay you up for many months. Don't wait. Ask your druggist for DOAN'S PILLS... a doctor's prescription... which has been used successfully for millions of kidney sufferers for over 40 years. They give quick relief and will help to wash out the 15 MILES of kidney tubes.

But don't take chances with strong drugs or so-called "kidney cures" that claim to fix you up in 15 minutes, for they may seriously injure and irritate delicate tissues. Insist on DOAN'S PILLS... the old reliable relief that contain no "dope" or habit-forming drugs. Be sure you get DOAN'S PILLS at your druggist. © 1934, Foster-Milburn Co.

COVERLET OF HANDKERCHIEFS
CANTON, Tex. (UP)—A bed coverlet made of silk handkerchiefs presented to Mrs. D. E. Keith on Christmas Day, 1933, by her sons, boys on the old Macador Ranch, has been presented to the Panhandle Plains Historical Society. On each handkerchief the initials of the guest is embroidered. Mrs. Keith made the handkerchiefs into the coverlet.

FIRST MAYOR TO PAY TAX
COUNCIL BLUFFS, Ia. (UP)—Mayor Hugh H. Finerty is the first chief executive this city ever has had who paid a poll tax. All persons under 45 must pay. Finerty, who is close to the 40 mark, is the first mayor under 45 the city has ever had.

1918 "MODEL T" FOR MUSEUM
EL PASO, Tex. (UP)—John Hinton of Fabens, owner of the 1918 Ford manufactured by the Dearborn motor magnate, recently offered his prized possession to the factory for a museum piece. The "Model T" is a high-wheeler with the steering wheel on the right side.

COLLEGE HEAD
WOOSTER, O. (UP)—Dr. John W. Coe, professor of missions and comparative religion in Wooster College since 1923, has resigned to become president of Hastings College at Hastings, Neb.

Mrs. Sam Farnow, east Washington street, is reported critically ill.

Built for possession of real estate was filed in circuit court Thursday by George Sandy, William Sandy and Edward Sandy against Bert Sandy and Homer Williams. The plaintiffs alleged the defendant is unlawfully holding 44 acres of real estate, part of which he has rented to the defendant Homer Williams. An order to the sheriff to seize the disputed property was issued by the county clerk upon the filing of a deed bond by the plaintiffs. Elbert A. Ewert is attorney for the plaintiffs.

Wings Over Italy Are Stork's

The stork is unofficially reported hovering over Austria and its big neighbor Italy, cables disclose, with rumors that Signora Benito Mussolini, self-effacing wife of D. Duce is expecting her sixth child in six months, and Frau Engelbert Dollfus, widow of the slain Austrian chancellor, and the guest of the Italian dictator's family, is sewing tiny garments of her own for the near future. And Italy's royal house is preparing to greet a possible heir to Crown Prince Humberto, and his Belgian princess, Maria Jose, in September.

DEMOCRATS PREDOMINATE

WOODBRIDGE, O. (UP)—If the G. O. P. hopes to regain its power, it will have to seek fields more fertile than Morgan County. Seventy-one candidates who have filed for state and county offices all are Democrats. The only Republicans who have filed are nine seeking posts as Republican committeemen.

4-H CLUB INFORMATION

To the 4-H Club Members:
The Putnam County 4-H Club Fair must maintain a high standard and exemplify the true spirit in the development of the 4-H's. Each and every department must put forth all possible effort to be able to show the public what 4-H Club members are accomplishing in Putnam County.

To the County Council and the Board of County Commissioners: We long the credit for our premium list. The interest that they have taken in 4-H Club work is greatly appreciated by all people interested in the rural youth.

Various organizations and the Business and Professional men are boosting 4-H Club members to greater achievements.

Never forget, 4-H Club members, this fair is your fair, and it will take your co-operation to the fullest extent to make it a success. The classes must be filled, so we are counting on each of you exhibiting your project. Boys and girls, do your part!
Eugene Akers,
4-H Club Agent.
