## RED UNITS AT THRESHOLD OF REICH CAPITAL

RUSSIANS LESS THAN 7 MILES FROM BURNING BERLIN

LONDON, April 21.—(UP)—Red Armies stormed the last defenses of Berlin today and a Moscow dispatch said they were expected to break into the burning capital over the week-end.

By United Press  
Russian troops reached within 10 miles of Philadelphia today. The Philadelphia in this case is a German town 12 miles south-east of Berlin.

LONDON, April 21 (UP)—The Red Army laid siege to flaming Berlin today, storming the capital's last defenses from positions seven miles or less away.

A German transocean broadcast reported by the FCC said the eastern front had moved "within the immediate vicinity of Berlin" with gun flashes of both Soviet and Nazi guns visible in the city. Another Nazi broadcast said the Soviets had captured Muenchenberg, 16 miles east of Berlin, after throwing a new tank corps into battle.

Thousands of Soviet guns and planes were pouring a steady rain of steel and explosives into the devastated city. The muffled thunder of their explosions was audible to American ninth army troops along the Elbe river, 45 miles west of Berlin.

The Germans freely admitted the situation was deteriorating rapidly. Both their primary and secondary defense lines east of the capital had been shattered. Berlin's days appeared numbered.

Johannes Steel, an American radio commentator broadcasting from Paris, said an agreement had been reached that the Red Army would be the first to enter Berlin. He predicted the Russians would by-pass the city and enter it from the south.

## MRS. ROOSEVELT HAS LEFT THE WHITE HOUSE

BIDS GOODBYE TO HER MANY FRIENDS ON THURSDAY

WASHINGTON, April 21.—Mrs. Franklin D. Roosevelt has moved from the White House and has left nothing undone for her successor, Mrs. Harry S. Truman, who is expected to occupy the mansion Monday.

Mrs. Roosevelt was on schedule to the last minute, thereby completing the fastest exit ever made by a First Lady ever made, with the exception of Dolly Madison, who was running from a fire set by the British.

Mrs. Roosevelt held her last press conference Thursday afternoon over tea in the softly lit state dining room. She couldn't go, she said, without bidding goodbye to the friends she had met so regularly for so many years.

She told her all-female audience that she is going directly to New York, where she has an apartment on Washington Square, then to Hyde Park on Sunday.

First off she will dispose of Mr. Roosevelt's belongings.

She revealed that she expects to keep on writing, though her definite plans will not be made until she is settled again. She resumed her syndicated column, "My Day," last Tuesday.

She stated definitely that she doesn't aspire to public office.

## 20 Years Ago IN GREENCASTLE

Dave Braden was in Russellville on business.

Work was started on the old brick building on north Jackson street owned by W. D. James and John W. James. The structure will be made into a modern garage.

Mr. and Mrs. Neil N. Taulman were visitors in Indianapolis.

## SPECIAL TRAIN GOES THROUGH THIS CITY

Delegates to the San Francisco conference, traveling on a special train—the Del-Mar—in two sections, are scheduled to pass through Green castle this afternoon about 4:15 o'clock on the New York Central Railroad. Approximately 250 of the 1,800 delegates to the conference will be on the trains, it was said.

Delegates aboard the train are reported to be diplomatic missions and members of the judicial conference.

## Bartletts To San Francisco

Dean Edward R. Bartlett of DePauw University will accompany Mrs. Bartlett to San Francisco this weekend, where Mrs. Bartlett will be a representative of the Women's Division of the Methodist Church at sessions connected with the United Nations' Security Conference.

Dean Bartlett, who plans to be off the campus until May 12, expects to visit DePauw alumni in California and to attend meetings of the San Francisco and Los Angeles alumni groups. The San Francisco group will meet in Oakland, Calif., on May 1 and the other group will meet on May 5.

Dean Bartlett is taking color movies of the DePauw campus and activities with him to the meetings.

## NO SUGAR BLANKS UNTIL FIRST OF MAY

Since the schools of Green castle have given out all of the canning sugar applications allotted to them, consumers are asked not to make further inquiry at the schools until May 1 when the next shipment of applications is expected.

A consumer may write to the Putnam County War Price and Rationing Board office, asking that an application be mailed to him. The Board does not have applications at this time but an application blank will be mailed as soon as the next shipment arrives.

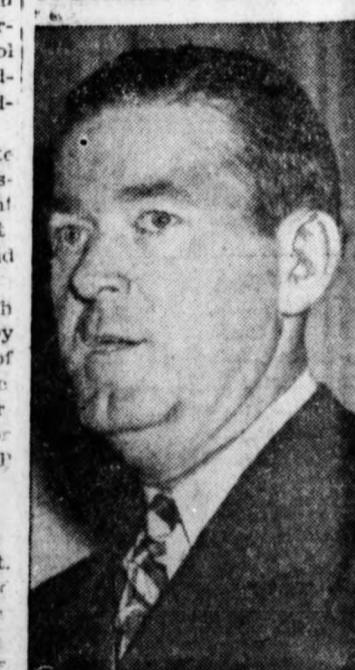

## STATE PARKS OPEN MAY 5; BROWN CO. LODGE OPEN

INDIANAPOLIS, April 21.—May 5 has been set as official "opening date" for Indiana's 13 state parks, although the properties operated by the Indiana Department of Conservation have already drawn thousands of visitors.

Brown County Lodge and cabin opened Saturday and the Arcade hotel and pavilion at Dunes State Park open May 19. Opening dates for other hotels operated by the department have not been set.

Despite the May 5 opening date for the parks, visitors are welcome before that time, Milton Matter, department director, pointed out that the opening date merely signifies that admissions will be charged at the gates beginning at that time.

## Truman's Choice?

ROBERT HANNEGAN, above, is being mentioned in Washington as President Harry S. Truman's choice for one of two positions, observers speculating that the Democratic national chairman may succeed Postmaster General Frank Walker or he may be selected by Truman to play a role similar to that of Harry Hopkins in the administration under Roosevelt. ## EMACIATED BRITISH TOMMIES LIBERATED BY YANKS

THESE EMACIATED soldiers of the British armies, who were held prisoner by the Germans from four to five years, were liberated by the Second division of the U. S. First Army, when the Yanks took the German town of Gettingen, location of a German prisoner of war hospital. This is a U. S. Army Signal Corps photo. (International Soundphoto)

## 3 ALLIED ARMIES AIMED AT LAST NAZI CITADEL

STRIKE TOWARD HITLER'S HIDEOUT IN BAVARIAN ALPS

By United Press

A BBC broadcast said today that American and Russian patrols were only 25 miles apart in an unidentified sector. The report was attributed to "messengers reaching Moscow."

PARIS, April 21.—(UP)—Three allied armies struck for Nazidom's last citadel in the Bavarian Alps along a front of more than 200 miles today. In the north, British armored divisions enveloped Bremen and stormed into the suburbs of Hamburg.

Striking in the war's decisive hour to prevent the Nazis from rallying the broken armies for a prolonged stand in the Bavarian Alps, the American Third and Seventh and the French First Armies wheeled against the mountain citadel along a twisting battle line extending northward from the Swiss to the Czechoslovak borders.

Lt. Gen. George S. Patton's third Army rammed a half-dozen armored spearheads up to and across the Czechoslovak border on a front looping in to within 58 miles of Pilsen and 98 miles or less west of Prague, the last main escape corridor between northern and southern Germany.

The U. S. Seventh Army struck south and southeastward from captured Nuernberg within less than 70 miles of Munich, northern anchor of the Nazi Bavarian line.

The French closed in from the west to a point barely 30 miles from Lake Constance, western shoulder of the Bavarian redoubt.

## Jap Resistance On Cebu Ends

MANILA, April 21 (UP)—Hundreds of Superfortresses bound for Okinawa blasted the Kyushu bases of Japanese suicide planes blamed for the sinking of some of the 15 American vessels lost in the battle of Okinawa and Japan during the past month.

On Okinawa itself, three American divisions thrust deeper into the enemy's last-ditch defense line less than three and a half miles north of Naha, capital of the island, and the third day of the greatest ground offensive of the Pacific war.

Advances of up to a mile were reported all along the four-mile line extending across the southern end of the island yesterday. Swarms of planes and the big guns of warships joined massed land artillery in an unprecedented supporting bombardment.

The big fleet of Superfortresses bombed nine airfields altogether on Kyushu, southernmost of the Japanese home islands. The raid was the third in five days on the suicide-plane bases, but two of the airfields — USA, near the northeast coast, and Kushira in the south — were hit for the first time.

A 21st Bomber Command announcement said the attacks covered the "length and breadth" of Kyushu.

There was no mention of opposition and it was indicated that both fighter and anti-aircraft reaction by the Japanese was negligible.

## MOLOTOV AWAITED

WASHINGTON, April 21.—(UP)—The capital waited somewhat impatiently today for Soviet Foreign Commissar V. M. Molotov and the Big Three, Big Four and possibly Big Five talk, which will begin with his arrival.

The latest information available indicated he would reach here late today, giving American, British, Russian, Chinese and possibly French diplomats just three days for discussions relating to the San Francisco security conference opening next Wednesday.

Molotov's visit will make possible these negotiations:

1. A new attempt by Britain, Russia and the U. S. to agree on a broadened Polish government in time to seat Poles for at least the last stages of the United Nations conference.
2. The latest information available indicated he would reach here late today, giving American, British, Russian, Chinese and possibly French diplomats just three days for discussions relating to the San Francisco security conference opening next Wednesday.

**ALLIES TIGHTEN VISE ON GERMANY**

ON BOTH THE EASTERN AND WESTERN FRONTS in Europe, Allied armies tighten their vise to strangle the Nazi war power. Observers see the southern portion now being pressed to form a giant, new pocket of which the core is Berchtesgaden (A) in the Alps. Yank armies (1) driving toward Munich may be met in that region by Soviet troops (2) ascending the Danube, and Allied armies in Italy (3) would seem to aim their offensive toward the same area. Meanwhile, Americans in the north (4) close nearer the oncoming Russians (5) for the apparently imminent contact that would clamp the vise and choke off this southern pocket. (International)

## CHRISTMAS IN MARCH

## EVANSVILLE, Ind. (UP)—

Maybe the calendar says Christmas is in December, but for M/Sgt. Elmer Franzman and his family, it's in March. For three years, the sergeant kept writing, "I won't be home this Christmas." So when finally he was given a furlough from the battlefronts, the Franzman family decided to make it seem like "next Christmas."

religious discrimination issue  
already are attracting sufficient  
interest in some of these states  
to loom as of great importance  
next year when the legislatures  
of some forty-six states convene.  
One reason for the Soviet's  
partial change of heart about  
religion inside its borders is the  
simple fact that the attempt to  
stamp out religion proved a fail-  
ure. And this discovery has  
been extremely well expressed  
by the Soviet Commissar of Edu-  
cation. "I find that religion is  
like a nail; the harder you hit it  
the deeper you drive it in."

News coming out of Sicily  
since the Allied occupation of

through the regime of Mussolini  
the ancient Waldensian Church

some of the persecuted families  
fled to the Alps where this new  
church was born.

"Doctrine of Atonement" is the  
subject of the Lesson-Sermon in all  
Churches of Christ, Scientist, on  
Sunday, April 22.

The Golden Text is: "If any  
man be in Christ, he is a new creature;  
old things are passed away;  
all, all things are become new."  
(II Corinthians 5:17).

Among the citations which com-  
prise the Lesson-Sermon is the  
following from the Bible: "But God,  
who is rich in mercy, for his great  
love wherewith he loved us, Even  
when we were dead in sins, hath  
quickened us together with Christ,  
(by grace ye are saved); And hath  
raised us up together, and made us  
sit together in heavenly places in  
Christ Jesus: For through him we  
both have access by one Spirit unto  
the Father" (Ephesians 2:4-6, 18).

### Donus Masten Writes Parents

Mr. and Mrs. Everett Masten received the following letter from their son Donus who is on the New Hebrides Islands with the Navy Supply Division. He has been there for 16 months, but they are expecting him home in the near future. The letter follows:

April 1, 1945  
Easter Sunday

Dear Mom and Dad:

Happy Easter Sunday! Another Easter with no Easter lilies. I wonder if the weather has permitted them this year. Today's weather is typical April weather at home, it has rained continuously since around 9:30—that's when I woke up and it was raining then.

This is my Sunday off and as usual I have accomplished very little. I realize I should have gone to church services, but I just didn't have enough ambition to get up that early. Perhaps next year I can go with you.

If you have trouble following this writing just blame it on the boys who have all the tables occupied. I am in my bunk and using my pillow for a desk. I'll be alright if I can just stay awake.

Saw "Pop" Moran this morning and he may be back with us within the next few days. He had a cup of coffee with us and was very cheerful as always. He certainly enjoys this Navy life, but how he can be beyond me.

Got another letter from you Friday, your mail has been coming through very good the past week.

From what you say Jerry is getting to be quite a little man. It will be good for him to spend his vacation with you, and he should be able to help you a great deal. Seems I was doing several things when I was his age. Does he like to fish? Guess he wouldn't be a Masten if he didn't, Ha!

Big ships don't scare me! I'll take my chances on any of them just to get home. There's nothing about water to be afraid of, especially now. It's just as safe as a train trip.

I don't want anyone to do something just to make things easy for me. I'll get by without too much help. Anyway, it isn't good to get things too easy. I'm planning on taking a trip to Danville when I get home and get all my courses straightened out. I have never gotten my credits. I'm not getting any younger and don't waste too much time in getting started.

Glad Russell Buis came through safe, he surely has had his share. I doubt if the boys in Europe would want to trade places with him, they had to fight from one foxhole to another and their gains were measured in yards. The news continues to sound very good, but, still the fight continues.

Guess this will be all for now, take good care of yourself and please don't worry about me.

Your Son,

Don

## ARMY ASKS

CHICAGO (UP)—The quartermaster depot of the Army, with headquarters here, is urging discharged veterans who do not want their uniforms to return them to the Army. There is a shortage of materials for combat troops, public relations officers explained. Arrangements have been made whereby discharged veterans may express collect parts of uniforms not wanted to the post from which they were discharged.

**FABULOUS HOARD** of German gold and money cached in a 2,100-foot salt mine at Merkers, Germany, was viewed by these two American officers, Lt. Col. William L. Russell, left, of Chevy Chase, Md., 90th Division military government officer, and Maj. Frank Brock of New York, member of the Third Army. More than 100 tons of gold bullion, currencies of many nations and stacks of priceless art works were captured when two talkative German women spilled the secret to military police. Reichsbank officials on the spot said the bullion represented "all the gold in Germany." Included in the treasure was an estimated \$2,000,000 in American currency. (International)

## SPEEDY CONSTRUCTION MEANS SPEEDY ADVANCE

**ONE OF THE BIGGEST REASONS** for the rapid advance into Germany is the lightning-speed construction of pontoon bridges by the U. S. engineers. From little streams to the great Rhine, the might of Yank troops depends on the bridges set up for them by the in-front-of-the-front engineers. Here, a rising, swift-moving river adds to the complications of building under fire on the Sure river in Germany, but the GI construction crew extends their pneumatic span and traffic rolls on in chase of the Nazis. ## WAVES Solve Jig-Saw Puzzle to Aid Navy's Fighting Men

These WAVES are working on a jig-saw puzzle — the most important jig-saw puzzle imaginable. On duty at the Navy Hydrographic Office, they are helping construct a chart by use of aerial photographs. In it finished form the chart will guide the Navy's fighting men in operations in the Pacific zone. In it exists two years, there's still a need in the WAVES for thousands of patriotic young women — 20 to 36, without children under 18 — whose starting pay, counting food and quarters, will be \$141.50 a month, plus many "extras" and post-war advantages.

## 12,000 CANS IN WEEK

CHICAGO (UP)—One week's supply of tin cans from 185 penny lunchrooms operated by the Chicago Board of Education provided enough material for two B-29 bombers. John Howatt, board business manager, said the 12,000 gallon cans were turned over to the War Production Girls' Club of the New Market Board.

## HEBRON

Mrs. Gretrude Hazlett returned home from Tenn. last week. She was recently called there by the illness of her son, Donald, who is now convalescing satisfactorily.

Mrs. Paul McGaughy attended a social tea last Wednesday. Mrs. McGaughy, a social tea last Wednesday, was given by the Sunshine Girls' Club of the New Market Board.

Mrs. Rafe McGaughy has been helping care for her daughter, Mrs. Lillian Grimes, and baby who returned to their home from Culver hospital last week.

Mrs. Edith Sutherlin and daughters of Texas have been visiting relatives in Greencastle and Indianapolis. The daughters made a business trip to Chicago last week.

## ARMADA OF SUPERFORTS WINGS ITS WAY TO JAPAN

**FLYING IN THE SUBSTRATOSPHERE**, B-29 Superfortresses based in the Marianas head for a target in Japan with only the clouds for scenery. Air Force officials say the bombardiers often must release their bombs over the target under just such atmospheric conditions as these, without ever seeing their objective. This is an AAF 21st Bomber Command photo. (International Soundphoto)

## INFANTRYMEN Crouch IN RUINS OF JUELICH

**NINTH ARMY** doughboys take shelter in these ruins along a street of Juelich, Germany, to avoid the heavy enemy shelling in the battle-scarred city. With troops of Lt. Gen. William Simpson's Ninth Army, these infantrymen crossed the Roer river in a surprise assault and are now driving relentlessly toward the western Ruhr foundries at Muenchen-Gladbach. This is a United States Army Signal Corps radiophoto. (International Soundphoto)

## YANK, RED ARMIES GET CLOSER AND CLOSER

**AS TWO NEW AMERICAN OFFENSIVES**, one from the south and another from the east, kept the Germans on the run, the Russians began a thrust from bridgeheads along the Oder river for a grand assault for Berlin. U. S. Ninth Army forces massed at the Elbe river for the final drive on Berlin. American troops opened a general attack all along the line. A second Russian offensive brought the great Baltic port of Stettin under direct artillery fire. A third Russian assault from points east of Vienna was aimed at the Nazis' national redoubt in the Bavarian Alps. (International)
