**A PHILLIPS EXCLUSIVE!**—the super aviation  
gasoline component—Di-isopropyl (pronounced  
di-iso-pro-pull) now available to you in

**PHILLIPS 66**

**Flite-Fuel**

**FOR YOUR CAR**

Phillips 66 FLITE-FUEL is a new, smoother, more  
powerful gasoline made possible by the use of  
high performance aviation fuel components.

Phillips originated Di-isopropyl and HF Alky-  
late—so valuable to smooth motor performance  
that, until recently, their use was restricted by the  
U. S. Government to high performance aviation  
gasoline. Now military authorities have released  
these restrictions, and Phillips can give their  
customers the benefits. New Phillips 66 FLITE-

FUEL provides increased power, smoother ac-  
celeration, higher anti-knock performance, greater  
fuel economy and freedom from stalling . . . plus  
Phillips 66 Controlled Volatility and the clean  
burning qualities for which Phillips 66 Gasoline  
is famous.

Only Phillips 66 FLITE-FUEL contains power-  
packed Di-isopropyl. Get it today at stations where  
you see the orange and black Phillips 66 Shield.
