Demonstrations Keep Police Busy In Eastern Cities

Integrationists picketed city halls, supermarkets, department stores, a Brooklyn hospital construction site and locked themselves in chains in one city Thursday in the nationwide civil rights drive.

And across the country a massive "freedom flight" of buses, trains and airliners began to take shape for the August 28 civil rights march of an estimated 100,000 persons on Washington.

Dozens of chanting teen-age demonstrators locked themselves together with chains strung out across a busy street in Elizabeth, N.J., and then tossed away the key.

Several girls fainted in the noisy demonstration in the mid-day heat. Police had to cut the chains from the demonstrators. Traffic was stalled about an hour. A 33-year-old woman was arrested on disorderly conduct charges.

The Southern Education Reporting SER service said the largest number of school districts in Southern and border states to racially integrate classrooms since 1956 would mix white and Negro pupils beginning in the fall school term.

SER said about 113 districts were scheduled to desegregate, raising to 1,092 the number of integrated districts in the 17-state area. Of these, 95 plan to integrate voluntarily and 18 submitted to federal court orders.

The so-called "freedom fleet" was expected to include more than 2,000 buses, 14 chartered trains and five airliners to bring the marchers to the nation's capital.

Rusk Talks With Nikita At His Villa

MOSCOW UPI — Secretary of State Dean Rusk plans to "cover the waterfront" in his talks on the Black Sea today with Premier Nikita S. Khrushchev, diplomatic sources said.

They said Rusk's discussions may range from major cold war issues to the question of freeing an imprisoned American.

Rusk, who came to Moscow to sign the nuclear test ban treaty has remained to hold talks with Soviet Foreign Minister Andrei Gromyko and Khrushchev on possible further progress in easing the cold war.

He flew Thursday to Khrushchev's holiday villa near the Black Sea resort of Gagra and was due back in the capital later today.

Both sides have expressed the hope that the treaty banning nuclear tests in the air, outer space, and under water is "only a beginning" of steps to ease tension between East and West.

But there appear to be differences over what step to take next. Khrushchev has pressed for a non-aggression pact between NATO and the Warsaw treaty alliance.

The United States is more concerned with the security of Berlin and with the Soviet suggestion that means be found to guard against surprise attack by either side.

Berlin has taken on new importance in the thinking of the American delegation, which also includes Ambassador Foy D. Kohler and the former ambassador to Moscow, Llewellyn D. Thompson.

Haiti Exiles Still Wage Invasion

SANTO DOMINGO, Dominican Republic UPI — Dominican authorities in the northern border town of Dajabon today questioned 14 Haitian exiles who said they were the remnants of an invasion that was routed by Haitian government troops.

Paul Verna, top Haitian exile representative here, discounted their story. He said the main force of at least 300 men was still intact in northern Haiti and would fight on to topple Haitian President Francois Duvalier.

A spokesman for the 14 uniformed exiles said they had escaped into the Dominican Republic after being cut off from the bulk of the invaders had "fled into the mountains."

Their story jibed with Haitian government claims that the invasion force had been crushed by loyal troops within hours after launching its first attack early Monday morning. Haiti charges that the invaders entered the country from the Dominican side of the border with "complicity" of Dominican authorities.

Skinner, 32, was shaven and neatly dressed. He said, "I definitely have plans," but refused to say what they were. He read a telegram from his mother, Mrs. Brady D. Skinner of Akron, Ohio, and said it indicated a job was waiting for him at home. He gave no details.

Await Vote Results

INDIANAPOLIS UPI — Results of a Communications Workers of America strike vote against Indiana Bell Telephone Co. were expected to be announced today at the union's regional office here.

BOSTON UPI — Patrick Bouvier Kennedy, newborn son of President and Mrs. Kennedy, died of a respiratory ailment at 4:04 a.m. EDT today, 39 hours after his premature birth by Caesarean section.

The President was with his son when the end came in a giant pressure chamber at Children's Hospital Medical Center. The chamber was a last ditch move by pediatricians to keep the child alive.

But despite their efforts, the boy died 39 hours and 12 minutes after his birth at 12:52 p.m. EDT Wednesday.

White House Press Secretary Pierre Salinger somberly announced the death and said President Kennedy would fly to Otis Air Force Base, Mass., later today 9:15 a.m. to join his wife who is hospitalized there. He decided to stay at the hospital until then.

Mrs. Jacqueline Kennedy had not been notified of the death as of the time of Salinger's 4:30 a.m. EDT announcement, the press secretary said. The First Lady has been in excellent condition at the base hospital since the birth, 5½ weeks premature, of her son Wednesday. But the infant had struggled all the way.

Within hours of his birth, the child had to be taken by ambulance to the Boston hospital where facilities were believed available to handle his breathing problem, known technically as idiopathic respiratory distress syndrome.

The boy's condition seasawed during his 34 hours at the hospital.

Thursday morning, doctors had noted "some encouragement" but Kennedy was summoned back from Cape Cod, where he had been visiting his wife, in the early afternoon because of a decline in the infant's condition. The child's breathing improved after he was placed in the huge pressure chamber which provided needed oxygen for his tiny lungs.

But at 2:10 a.m. EDT, the President was awakened in his fourth floor room at the hospital and advised to go to the chamber on the ground level.

HORSES NO STRANGERS TO JANET CROSBY

Nobody yells "get a horse" to Janet Crosby, R. R. 2. She's a pony lover and everyone knows it.

This 11-year-old lass is just a youngster to State Fair competition, but she has already racked up Grand Champion winnings with her Shetland Ponies at the 1962 Indiana State Fair. She is planning on achieving that plateau again at this year's State Fair, August 24 through September 4.

The daughter of Mr. and Mrs. Clifford Crosby, Janet has been an active member of her local 4-H club for three years. She decided to exhibit her ponies at the 1963 State Fair after she won top honors at the Putnam County Fair. There, too, she won Grand Champion Pony under 46 inches.

But showing ponies doesn't take up all of Janet's time. She has also completed projects in handicraft, wildlife and foods. She has participated in judging and various demonstrations during the past two years. "Through 4-H I have learned to cook, sew, and make many varied and different things in handicrafts," she says. "I love animals and I am

looking forward to bringing my ponies to the State Fair this year."

Janet will be in the sixth grade at Roachdale Public School this fall.

Nikita Talks Of German Problem

WASHINGTON UPI — Soviet Premier Khrushchev told American officials at the nuclear test ban treaty ceremonies that either a pro-West or pro-Communist solution of the German problem would be "foolish" because it would "lead to war."

This was reported by Senate Democratic Whip Hubert H. Humphrey, who also said the Soviet leader cautioned against "exaggerating" the importance of the nuclear pact.

Humphrey, who was in Moscow for the treaty signing, said Khrushchev called it a "small beginning to bigger questions"—and not an indication of early cold war solutions.

And as an indication of his "pre-occupation" with the problem of Red China, Humphrey said at one point Khrushchev told Undersecretary of State Averell

Harriman and other U.S. officials present: "God has given you Adenauer and God has given you some foolish allies, too."

A SUCCESSFUL PROJECT

The milk stand at the Putnam Co. Fair was quiet a popular place from early morning until late at night.

The Putnam Co. Farm Bureau sponsors it for publicity and good will. Handy's Dairy was very cooperative in furnishing the milk and making it possible for us to sell both white and chocolate milk for 5c a glass. Any profit from this project is donated to the Fair association.

This project was started 7 or 8 years ago and is growing more popular each year with both young and old. Some drinking from 4 to 5 glasses at a time and returning several times a day. But what of it? Its the cheapest thing on the ground and the most nourishing thing which satisfies both hunger and thirst.

Each day of the fair a different Township Farm Bureau works at the milk stand which gives them a day at the fair to meet their friends and no one is overworked and all has had a part in the project.

The Putnam Co. Farm Bureau milk stand at the fair has been so popular that the Montgomery County last year started one at their fair and this year the Vermillion County Farm Bureau started one at their fair. All report a great success.

Thursday had the largest sale of milk between 65 and 70 gallon or around 1100 cups. The other days were running close to 60 gallon a day. That's a few more gallons a day from the modern frigidaires 4 dispenser spicklets than we used to get from the 4 spicklets of old Bossy and a lot less trouble.

Thanks folks for helping us with a good public relations program and come see us next year at the fair.

Raps Pentagon For Money Waste

The American taxpayer would be well advised and within his rights to demand that the national Defense Department make better use of the taxpayers money.

Or, maybe, some alert member of congress should call the Pentagon to account for some of its tom fool methods of doing business: The angry taxpayer and alert members of Congress need do no more than to refer to the numerous reports by the comptroller general of the United States on the wasteful practices of the Pentagon brass, military and civilian.

Joseph Campbell is the comptroller general. His job is to audit the books of all spending departments and agencies and to tell congress what he turns up.

What turns up is a shocking story of waste, extravagance and stupidity, notably in the department of national defense.

In a single mail this week were three reports from Campbell, each running about 25 pages and each relating that some fathead

in the Pentagon had wasted another bundle of the taxpayer dollars.

There was, for example, the report on "unnecessary annual expenditures by the Departments of the Air Force and the Navy for leasing commercial facilities to store petroleum products in the San Francisco area instead of using excess government owned petroleum facilities at the Navy fuel department, Point Molate, Richmond, Calif."

Campbell reported that the Navy surplus oil storage capacity at Point Molate averaged 450,000 barrels for the past three years. But the Pentagon has been leasing nearby storage facilities with a capacity of about 432,000 barrels at \$305,500 a year. Pure waste!

There was another report on "the increased price for ballistics computers resulting from excessive estimated materials costs under a department of the Air Force contract." Campbell estimated that this one wasted about \$83,800.

The third report described the deplorable unreadiness of the 3rd Armored Cavalry Regiment, a strategic Army corps unit, when it was ordered to Berlin in the autumn crisis of 1961. This situation developed for lack of repair parts for combat and other motor vehicles.

"Our review disclosed," the report said, "that so many combat vehicles of the 3rd Armored were out of commission for lack of repair parts that not even one squadron of the three that composed the regiment was satisfactorily equipped to perform its strategic mission at the time it was ordered overseas during the Berlin crisis."

Forty of the 51 M48 medium tanks were out of commission. Eighty of 85 M59 personal carriers were useless. Of all combat vehicles, tanks, self-propelled howitzers and self-propelled mortars, 91 per cent were out of commission. A shocking situation.

All the more shocking because Campbell makes a great many reports to congress each year and, roughly, more than half of them relate to national defense and usually spotlight its wasteful practices or some such costly good as crippled the 3rd Armored. The sum involved in these wasteful Pentagon practices may be mere peanuts compared with the \$55 billion defenses will spend this year. But it isn't peanuts to the working stiff from whose wage every week the wasters take their cut.

WASHINGTON UPI — President Kennedy yesterday sent to the Senate the limited nuclear test ban treaty and urged its swift ratification as a measure which would actually increase American security while helping to ease the threat of war.

The President assured the senators that there was nothing in the treaty which would endanger the defense of the United States and said the pact could lead to "further agreements" to blunt the peril of nuclear war.

Kennedy sent a special message to the Senate as representatives of 31 countries called at the State Department to sign the three-power agreement outlawing air, space and under water tests. Another 30 were expected to sign here within a day or two and many others are affixing their signatures in London and Moscow.

Suspect Arson In Paint Shop Fire

PENDLETON UPI — Authorities admitted today they have only skimmed the surface in an investigation to determine if an arsonist caused a \$75,000 blaze which ruined the paint shop at

the Indiana Reformatory Wednesday. Supt. John W. Buck said checking prisoners who might have set the fire was a "long, drawn-out process." He said he detector tests for more than 40 inmates are planned, including 32 who regularly worked in the shop and a dozen or so others who could have been in the building shortly before the flames were discovered.

Buck and his regular staff had help from Bernard Sweeney, chief arson investigator for the state fire marshal's office.
