LETTER TO THE EDITOR

Daily Banner:

As the dust settles, this reader's interest is swept on to question an even greater excess — that of Federal spending.

I noticed that Senator Vance Hartke was quoted as pledging "a balanced budget in a balanced economy"; this being the goal of the Democratic Party. Good, I'm for that! However, don't I recall that Mr. Hartke and Mr. Bayh voted themselves a big pay raise? Of course, they may have needed it, prices being what they are today. But how come all Indiana's Republican Congressmen voted against a pay raise. Who's economizing?

Everyone knows that the Democratic Party goal is a bal-

anced budget. Just because they haven't balanced one yet doesn't mean they aren't for it. Being against a balanced budget would be like being against fried chicken or apple pie. No one in his right mind would campaign on such an issue, especially in Indiana! But let's give credit where credit is due. Why, in just the first six months of this year the Joint Senate Committee on Non-essential Federal Expenditures reported that 7,948 new employees have been added to the Federal payroll. That averages 323 a week for the period of time between January and June. Gosh, a guy could go broke on such economy!
