THE WABASH.

A Little Pick Up Along the River Front.

Said an old river man this morning: "We are not likely to again have as high water as come upon us in 1875, when the river rose to the sills of the windows at the water works. In 1882—in the Spring—it was still worse, when the city was left in total darkness for over a week by the over-flow putting out the fires at the gas works. The country north of here is tilled out so thoroughly that the surface water is conducted steadily into the river instead of collecting and then coming into the stream with a rush, causing sudden and heavy increases of depth and flow.

The new boat being built for Herman Hulman will have a larger cabin than at first intended. It will be 16 feet long and fitted with a glazed transom extending along the sides and across the ends. The wheel of the old Rex was about 5 feet.

The weeds are a "howling success" already. Like the onion, they "make their presence known."

This entertainment promises to eclipse anything ever put on the opera house stage by amateurs. A wonderful interest in it is being developed, and we predict a great artistic success for it.

Attractions at Taylor's.

The management of Taylor's Opera House, believing in giving their patrons the best attractions they can find, have succeeded in making an engagement for the great military drama, "Fort Donelson," and will give it in an elaborate production next Tuesday evening. It is said to be one of the strongest pieces that has been produced to the public this season, telling a pretty story that is distinctively defined throughout the play, and, therefore, easy to follow, while the many specialties are all new and good, never failing to call forth round after round of applause. All the scenery used in this production has been specially built for it and is said to be simply grand, especially the Fort Donaldson and Ranch scenes in the third and fourth acts.

"Two years and five months ago," answered Papa Clark.

"Since then," continued Freddy, "I have been in Germany, Spain, France, Turkey, Greece, Arabia, Egypt, Russia, Italy and the Palestines. I speak and sing in eleven different languages, but I can only converse in six languages. I first learned to speak the Arab language. My nurse was an Arab. You know my mother died when I was 6 months old. These medals? One is from the pasha of Egypt, and the other was presented to me by Juan Mato, director of the theatre at Barcelona, Spain. I'm just playing a temporary engagement with the Little Elliott company. I have engaged to go with the Hyde this season."

"Freddy was stagestruck even when he was an infant," remarked Papa Clark. "I used to take him to the opera when he was less than a year old, and even then he seemed to understand the music. He paid more attention to the orchestra leader than to the opera, and sometimes his little hands would keep time with the music. His imitation of an Italian musical leader was conceived by himself."
