

SPORTS CARNIVAL

Syracuse Downs
Pierceton 13-2

Syracuse jumped off to a three run lead in the first inning and continued to hit the ball hard the rest of the game. Syracuse ended up with twelve hits, five of them were extra base blows. Larry Simon had two hits, one was a triple. Bob Pilcher had two doubles and two walks. Max Broeker had two singles and a triple.

In addition to solid hitting, Syracuse had several excellent fielding plays. Bob Pilcher fielded a couple of ground balls at third base that looked like sure hits. Mike Gordon made a long run and a beautiful catch of a foul fly ball that was hit over the score board which is located along the left field foul line.

John Longenbaugh was in very good form and pitched one of his better games. He pitched the first four innings. John struck out eight batters and did not allow a walk. Mike Bahr pitched the rest of the game. After scoring a pair of runs off of Mike in the fifth inning, he shut Pierceton out the final two innings. Mike struck out three and walked two batters. Art Oregon had two hits for Pierceton, one was a triple that drove in both of Pierceton's runs. Schmidt was the losing pitcher. He was relieved by Oregon in the sixth inning. Between them they struck out six and walked seven.

Syracuse has now extended its winning streak to twelve victories and no defeats. North Webster will play at Syracuse Thursday evening at 6:00. This could be a tough game for both teams. (Remember Syracuse did not score until the sixth inning against Mike Vanator of N. Webster in a game played at N. Webster earlier in the season.)

Next week Syracuse will play three games. They will play at Ligonier on Monday and will be host to Akron on Tuesday and Kendallville on Thursday. Akron has not lost a Kosciusko county league game and Kendallville has lost only one game this summer.

I will be transferred to Wheaton, Illinois, as a part of our Corporate Headquarters effective August 1, 1965. Although I will not be in a position to move my family to the Wheaton area until sometime in the fall, I expect to be working in Wheaton prior to September 1st. I am asking that you accept my resignation as soon as arrangements can be made for appointing my successor.

I am sure that the school system in the Lakeland area will be a modern and progressive system educating your young people to meet tomorrow's demands.

Although at times we had our trying moments, I shall remember the associations cultivated during our long, laborious meetings. My respect for each of you is based upon your devoted interest in our present and future boys and girls and the future members of the Lakeland Board maintain this interest in the youth of the Lakeland area, the Lakeland Schools will be a source of pride for all residents of the community. The splendid cooperation I received from Mr. Immel, Mr. Arnold, Mr. Speer and other administrators as well as Mrs. Fawley and Mrs. Coverstone was deeply appreciated. I trust that my requests for factual information on the many problems with which we were confronted were not too demanding.

I wish each of you the best of success in providing a new consolidated high school at the earliest possible time for your growing student population.

Sincerely,
Glenn L. Brown

You have steadfastly contributed to the solutions of our many problems by considering the welfare of all sections of our corporation. You have diligently worked for a high quality educational system. You have devoted many hours of your time thinking in terms of the welfare of the young people of our community. You have unselfishly given of your energy for their benefit.

ONCE

PAINT
YOU'LL NEVER
GO BACK TO
"HARD WORK"
PAINTS AGAIN

Once you see how "Lucite" flows on—how it dries in minutes—how it needs no special primer—how it saves you hours of work—how fast it is to clean up with soap and water after painting—how easy it covers wood, brick, stucco, masonry, cinder block, you'll never go back to oil base paints.

And "Lucite" gives you more—more years of wear—than ordinary paints. Tests on actual houses proved it. If you use "Lucite" according to directions this year, it probably will be the last time you'll have to repaint this decade. Need we say more?
