'Hash vs. Cuisine is club topic

Marjorie Thornburg, Syracuse, was the guest speaker for the Wednesday Afternoon club on Wednesday, Sept. 25. Mrs. Thornburg was introduced by Eleanor Bates, Syracuse, program chairwoman and co-hostess for the meeting. The meeting was conducted in the home of Arlene Sloan.

Mrs. Thornburg spoke on the topic of "Hash vs. Cuisine." She effectively ran the gamut of her topic from the elaborate, vulgar Old Roman banquets to "grazing," the current dietary fad. She illustrated the face the acquisition, preparation and consumption of food has been of utmost importance through the ages by reminding the group that the voyage of Columbus was undertaken in the search for food and was most successful in that respect; many new foods were introduced to Spain as a result of his exploration.

She brought out that due to the many ethnic groups that make up America, as a country we are the melting stew pot of the world.

During the meeting Janice Baumgartner, Syracuse, was welcomed as a new member and there were 14 members and one guest present.

LOUISA'S LETTER

Dear Louisa,

We were married a year ago and separated two months later. We realized we had made a mistake and with no children involved we were divorced.

Now my former husband is presently going with another girl and I understand they are planning to be married.

Now my problem is this: We had many beautiful wedding presents and lots of them were given by his friends and family.

When we separated he did not say anything about the presents but I've heard that he thinks he should have some of these presents.

What do you think about this?
His Ex — N.J.

Answer:
I think you should divide the presents and give him the ones

that came from his friends and family.

It may be possible that the new wife will not want these presents but I think you should offer them to him.

Louisa

Dear Louisa,

We are about to get a divorce. Do you think the children should stay with one of us six months and the other six months?

T.I. — Colo.

Answer:
I think the children should have a regular home with one of the parents — so that they have roots in one place — and the other parent should have visitation privileges.
