**New Ordinance.**

Property owners and others are cautioned to be careful this time of year when stoves are being put up, to comply with the new ordinance published in February last relating to chimneys and stove pipes. Section 1 reads as follows:—The owner or occupant of any building, within the corporate limits of Syracuse, shall, in the month of October of each year, thoroughly clean and remove the soot from all chimneys that are to be used the following winter. Section 2:—Any person using any stovepipe running through any floor or wall, constructed wholly or partly of wood, shall cause such stovepipe to be separated and protected from the wood of such partition by a substantial metal tube or thimble, made with double walls with provision for the free circulation of air between such walls, which must be one inch or more apart. The marshal shall be fire marshal thereof, and his duty is to visit and examine at any reasonable hour, any dwelling house, lot, yard, inclosure, building, chimney, stove-pipe, or receptacle for ashes, to discover if any of them are in a dangerous condition, and to provide proper remedies. A fine of \$1.00 or more can and will be imposed for each and every offense. It would be well for every person to give this matter strict attention, and so lessen the danger of fire. Our town has been for many years so far, and by carefully complying with the ordinance, dangerous fires may be averted. Look well to pipes and chimneys when putting up your stoves, and be careful when you empty ashes.

An exchange in fair in its criticism when it says that some people are so anxious to avoid paying the home merchant a legitimate margin, that they readily believe any fairy tale told them by slick tongued frauds who are entire strangers to them. Ninety-nine out of a hundred of these "soft soaps" offered by these fellows are swindles. The best plan is to patronize home merchants. They help pay a very large part of the taxes, help support the churches, the schools, etc., and are citizens among us. They are responsible for the goods they sell, and can be found at any time, should anything be wrong or the goods not as represented.

Several weeks ago, John Bushong who, with his family, formerly resided at Syracuse, but lately had been making his home at Ft. Wayne, where he had secured employment on the streets, was brought from the latter place on the charge of forgery, at the instance of his father-in-law, Samuel Rasar, who also resides near Syracuse. Bushong's case was brought up in the circuit court yesterday. The jury was only out a short time and promptly returned a verdict of not guilty, which was in accordance with the evidence. Bushong has declared his innocence ever since his arrest, and was confined in jail at the time the jail delivery was made two weeks ago, but then refused to make his escape with the other four prisoners, although urged to do so by the latter. This matter was referred to by L. R. Stooke, who defended Bushong in his argument before the jury. Bushong is a young man with a wife and three little children dependent upon him for support, and as his arrest caused him to lose his place, one would naturally think there is sufficient cause for a damage suit, and we understand that will probably be the case. However, a movement will be made to have Bushong reinstated in the position in which his arrest deprived him of the means to support himself and family.—Pionian.
