15	16	17	18	19	20	21
22	23	24	25	26	27	28
29	30	31				

UNCLE SAM has expended during the present year \$13,182,134 on new ships for his navy.

Not an American rubber dealer has failed during the season of 1895. The pneumatic tire did the business.

It is announced that the flying mouse is a recent discovery in the Cameroon country of Africa. It is a link between the bat and true mouse.

A STATISTICIAN has discovered that of the forty-four governments thirty-one are avowed believers in religion. On punch we think the other five are ditto.

The output of gold the past year in Arizona was over \$4,000,000 and copper \$6,207,000. The governor predicts that the output of gold in Arizona the current year will reach \$10,000,000.

It may be interesting to know that the British Isles comprise no fewer than one thousand separate islands and islets, without counting the jutting rocks or isolated pinnacles.

The Goulds are again before the public through the return of the tax appraiser in New York, who estimates their personal property to be worth \$80,934,580 and the real estate \$2,000,000.

FRANCE has a shortage in the wine crop this year. Thousands of casks of American wine are being sent to that country from the United States. The American who must have the imported article will later in the year pay fancy prices for these American wines with French labels on them.

In Germany they are still discussing the courage of the American traveler who pitched in and flicked a German who insisted on his rights to smoke in a smoking car where, on account of the crowd, women were compelled to ride. That American can come home and have anything he wants.

Mrs. DR. NAXSEN, the wife of the north pole explorer, seems to think that part of the failure of the Peary expedition was due to the presence of Mrs. Peary. She says that women have no business to force themselves into such expeditions, that exploring in the ice is work for men.

A RECENT experiment of the military authorities with "emergency rations" in the form of condensed food was not encouraging. Of a company of regulars sent out on a four days' march one officer and thirty-nine men were made sick by the rations on the first day, and the captain wired back for a supply of hardback for the remainder of the march.

THE late Hjalmar Horth Boyesen was once asked why he didn't simplify the spelling of his name, so as to make it less perplexing for the average American. The inquirer was informed that it was a fide Norwegian name in the first place, and secondly, that it was worth a good many dollars to his possessor as a distinctive trademark for his literary works.

THE late Mr. Houghton, of Boston, was wont to tell a characteristic story of Noah Webster. Houghton was a boy in a printer's shop when an odd-looking old gentleman came in one day to make him prompt at the dictionary. The old man set up the word, "center," not "centre." The dictionary man is said to have traveled New England on this errand to printers.

AN amusing printer's error occurred in a recent issue of the London Times. In announcing the marriage of a young city man to the daughter of a naval constructor at Sheerness, a few words of telegram which, apparently, belonged to some notes from China or Armenia were printed after the interesting intelligence. They read as follows: "Trouble is expected."

THE revenue cutter Commodore Perry brings to San Francisco the news that about twenty out of the forty volcanoes in the chain of Aleutian Islands are now active, after it had been supposed for many years that all but one of them were extinct. The exception was Bogoslov Island, which some years ago was found in a state of eruption, and another island was formed by the material vomited up from beneath the waters. Now the two islands have become one, a neck of volcanic material having been forced up to connect them. The Aleutian Islands belong to the United States.

MASSACHUSETTS has a "man suffrage association," bent on killing off woman suffrage in the state. The women are not content with voting for school officers, but want to take a hand in municipal politics and control the state. As there are more women than men in the old Bay state the male voters realize their extreme peril and with visions of women governors, mayors, aldermen and legislators looming up in bulging relief before their eyes, they have resolved to die in the last ditch rather than yield to the bossing of women. The fact that the men have to organize shows the strength of the women.

THE Iron Age says the quantity of fuel necessary to produce iron or steel has fallen in recent years from four or five times the weight of the product to only a little more than the weight of the steel produced, while there has been little change in the quantity of ore required to make a ton of metal. Of course, a great deal of the reason for this is the greater economy in the use of fuel on the distance from the mine to the blast furnace, a fact which goes a long way towards explaining the recently noted tendency to remove the furnaces and the mills from the vicinity of the coal mines to the shores of the great lakes.

Epitome of the Week.

INTERESTING NEWS COMPILATION.

FROM WASHINGTON.

DURING the first nine months of 1895 the excess of gold exports was \$44,350,843; for the corresponding period last year, \$73,815,163.

For the first nine months of this year the excess of silver exportation was \$89,682,498, against \$27,980,673 for the corresponding period last year.

TOTAL exports for September were \$58,545,443, against \$38,798,675 for last year; for the first nine months of 1895, \$557,390,846, against \$576,618,275 for the corresponding period last year.

This state department received the invitation of the French republic to take part in the Paris exposition of 1900, which is to usher in the twentieth century.

It was shown by a special bulletin issued by the department of agricultural exports for the fiscal year ended July 1 was \$553,315,317, against \$628,863,635 for 1894.

In biennial session at Washington the commander in chief of the Loyal Legion of the United States elected Gen. John Gibbon grand commander.

Postal receipts of the thirty leading cities of the United States for the third quarter of the year 1895 were \$7,400,449, against \$6,733,719 for the same time in 1894, an increase of 9.9 per cent.

At the age of 71 years Col. George H. Fisher, who was consul general to Japan under President Lincoln and to Syria under President Grant, died of heart disease in Washington.

The surgeon general of the army, in his annual report for the fiscal year ended June 30, 1895, shows a gratifying record as regards the health of the army for the calendar year of 1894.

The prevalence of alcoholism in the army continues to decline.

H. H. C. DUNWOODY, of Washington, was elected president of the final session in Washington of the American Association of Weather Service Chiefs.

EXCHANGES at the leading clearing houses in the United States during the week ended on the 18th aggregated \$1,101,032,924, against \$1,134,302,763 the previous week. The increase, compared with the corresponding week in 1894, was 21.9.

In the United States there were 263 business failures in the seven days ended on the 18th, against 283 the week previous and 253 in the corresponding week in 1894.

THE EAST.
In session at Clearfield, Pa., 10,000 miners decided on a general strike throughout the central and northern Pennsylvania coal fields.

In a wreck on the Pennsylvania railroad near Altoona, Pa., two men were killed, and one fatally and several slightly injured.

The Pennsylvania millers will try to induce congress to retaliate upon foreign nations who have discriminated against American flour.

The death of Horatio G. Knight, who was lieutenant governor of Massachusetts in 1875, 1876, 1877 and 1878, occurred at East Hampton, aged 70 years.

Is Philadelphia John H. Brown, aged 53 years, a welder in the United States appraiser's stores, shot his wife, aged 59 years, and then killed himself. No cause was known.

In session at Buffalo, N. Y., the Union Veterans legion elected Col. George C. James, of Cincinnati, national commander.

OVER the government ocean course at Cape Ann the battleship Indiana made her official speed trial run and showed an average speed of 13.61 knots an hour.

WEST AND SOUTH.
The doors of the Commercial National bank at Tacoma, Wash., were closed.

The National League of Republican Clubs executive committee met in Chicago to consider plans for the campaign of 1896.

The fiftieth anniversary celebration of the incorporation of Milwaukee as a city drew an immense crowd.

At Evansville, Ind., Elvira Boothman was granted a divorce from Edward Boothman. She has had seven husbands, has five ex-husbands living and has been divorced six times.

NEW PRINCETON, O. T. Mrs. Carl Huberich and her daughter Bertha, aged 19, were killed by being thrown from a buggy by a runaway horse.

At Lexington, Ky., Tommy Britton broke the world's 2-year-old race record, trotting 1 mile in 2:15.4.

A civic, military and industrial display in the form of a great parade was the feature of the third day of the centennial celebration at Fort Wayne, Ind.

It was said that an active volcano was in eruption in the Olympic mountains, south of Port Townsend, Wash.

It was reported that A. K. Ward, treasurer, secretary and general manager of the Memphis (Tenn.) Barrel & Hoisting company, was a defaulter to the extent of \$50,000.

TEMPERANCE WOMEN.

Their Convention at Baltimore a Marked Success.

Attendance of Delegates Large and Their Enthusiasm Intense—Miss Willard's Address—The New Star Spangled Banner.

BALTIMORE, Md., Oct. 21.—Between 500 and 600 delegates from thirty-eight states and territories, representing 300,000 members of the Woman's Christian Temperance union, congregated at Music hall Friday morning to attend the twenty-second annual convention of that society.

As Miss Willard stepped to the front of the stage, carrying a huge bunch of La France roses, the audience tumultuously applauded her. Following the drop of her gavel a crusade Psalm was read, responsively, led by Mrs. Eliza Thompson, of Hillsboro, O., who is more familiarly known in temperance circles as "Mother Thompson."

She began the crusade inauguration in her home twenty-one years ago, and from thence she brought the W. C. T. U. to this place. She is in her 64th year, but her powers seemed unimpaired as she led the reading Friday morning.

Mrs. Henrietta L. Monroe, president of the Ohio W. C. T. U., offered a fervent invocation. Some routine business was followed by the reading of the president's annual address, which was, in part, as follows:

Miss Willard's Address.
"Civilization is but Christianity's effect on the brain and hands of the race; science and invention are its twin daughters, and both lead the totality of their influence against the practice of stimulation. All of the states and territories except two (Georgia and Arkansas) now require teaching of the laws of health to all school children, beginning with the youngest. Mrs. Mary H. Hunt heads this movement as the representative of the whole Christian temperance cause. Four times a year the Sunday-school lesson explicitly teaches total abstinence. This is another point gained by white-ribboners, who worked ten years for it."

The general assembly of the Presbyterian church has this year declared in favor of non-interference with the liquor traffic. The Canadian parliament this year declared by an overwhelming majority in favor of prohibition. In South Australia and Utah women have been admitted to the full rights of citizens. Five legislators in the United States have submitted this question to the people. In New York city ten years ago.

Civilization is but Christianity's effect on the brain and hands of the race; science and invention are its twin daughters, and both lead the totality of their influence against the practice of stimulation. All of the states and territories except two (Georgia and Arkansas) now require teaching of the laws of health to all school children, beginning with the youngest. Mrs. Mary H. Hunt heads this movement as the representative of the whole Christian temperance cause. Four times a year the Sunday-school lesson explicitly teaches total abstinence. This is another point gained by white-ribboners, who worked ten years for it."

The superintendent of the narcotics department, Mrs. E. B. Ingralls, of St. Louis, said that more persons were interested in the movement than ever before, and that reformers are beginning to realize that soothing syrups, headache medicine and the cigarette lead to the use of opium, chloral and other drugs. Many men, she said, were giving up the use of tobacco. Lecturers were becoming more numerous. She said they were decreasing the numbers of smokers. Mr. Pullman had been petitioned not to place smoking lounges in his cars and she understood that the millionaire car-builder was not putting these compartments in the sleeping cars and that smokers would be forced into the ordinary smoking-car or go without the weed.

The Night Session.
An enormous crowd attended the session at Music hall Friday night. After devotional services, Mayor La Follette welcomed the delegates to the city. A message of encouragement and sympathy was read from Cardinal Gibbons. Addresses of welcome were delivered by Rev. John F. Goucher in behalf of the Methodist Episcopal church; Rev. W. E. Bartlett, in behalf of the Catholic clergy; Mrs. Mary Haslip, president of the state W. C. T. U., in behalf of the state unions; and Mrs. Alice C. Robinson, speaker of the city W. C. T. U. organization. Mrs. Mary Reed Goodale, of Louisiana, and several other ladies responded.

THE PRIZE FIGHT.
Corbett Arraigned for Conspiring to Violate the Laws.
HOT SPRINGS, Ark., Oct. 21.—Thursday afternoon Prosecuting Attorney Teague had a warrant issued for the arrest of James J. Corbett on a charge of conspiring to commit a breach of the peace, by entering into an agreement to do bodily harm to one Robert Fitzsimmons. The sheriff served the warrant at Spring Lake, but as he arrived there at a late hour it was decided upon that Mr. Corbett should give bonds for his appearance in court Friday morning at 9 o'clock.

It is a humorous story, told by a woman, that the late Mrs. Mary Reed Goodale, of Louisiana, and several other ladies responded.

MISS FRANCES E. WILLARD.
reform has torn through the line of least and sought that of greatest resistance. Municipal politics in that metropolis and many others turn on the temperance question. The enforcement of law by Commissioner Roosevelt and the renewed war upon Tammany, led by the redoubtable Mr. Parkhurst, are the salient features of the day.

The act of the Methodist conference in voting to admit women to the general conference is the latest step on the current of the times. The women's demand of the Atlanta exposition and the great congress of women held in the fifth social are other tokens hardly less significant of the new movement.

It is a humorous story, told by a woman, that the late Mrs. Mary Reed Goodale, of Louisiana, and several other ladies responded.
