Snow fell here Monday to the depth of nearly ten inches, and the merry jingle of sleigh bells are heard on every hand.

We are under obligations to J. P. Dolan this week for an article with table showing the rise and fall of lake Wawasee, which will no doubt be read and appreciated by our many readers.  
A. C. Acker left Sunday for Goshen where he will locate. Mr. Acker is a first-class painter, and we cheerfully recommend him to the citizens of Goshen as an upright, honorable gentleman, worthy of their confidence and trust.

The F. & A. M. held their annual yearly election Friday evening, and the following officers were elected for the ensuing year:—J. W. Steller, W. M.; M. Nicolai, S. W.; Thos. E. Snively, J. W.; David Fry, Treas.; J. H. Miller, Secy.; E. E. Miles, S. D.; Saml. Akers, J. D.; D. R. Howser, Tyler; Oliver Cromwell, S. S.; David Hoover, J. S.

Married, Wednesday evening at Benton, Ind., by Rev. Dunn, Mr. Wesley Hise to Miss Chloe Holloway. The bride and groom are two of our most popular young people. After the ceremony they returned to the home of the groom's parents, Mr. and Mrs. Abe Hise, where they received the hearty congratulations of their many friends. The Syracuse cornet band serenaded the happy couple in the cosy parlors of Mr. and Mrs. Abe Hise, after which refreshments were served. THE REGISTER joins with their many friends in wishing them a happy and prosperous future.

With this issue we enter upon the year 1896. THE REGISTER is looking forward to a prosperous year for Syracuse. Last year our town made considerable growth and there is no reason for its not continuing its advancement. Many fine residences were built and hundreds of feet of cement walk were laid, and we hope to see the year 1897 add to the growth and prosperity of our town. You can't do it by sitting around and finding fault with others; what it needs is an individual effort on the part of every citizen. Many people are here daily looking for locations. We need more dwellings in town. There are not enough to accommodate those who are now here. Our men of means can realize handsomely by putting up neat cottages. Syracuse is bound to grow; you can't stop it. Don't try, for you will find your efforts in that direction thwarted by the more enterprising people. We have the finest location for a large town in the state. Beautiful lakes, high ground, and other natural advantages not to be found elsewhere. We are informed that parties will open a banking house here, and without doubt the electric road from Goshen to our lakes will be completed before harvest. It is coming, and with it will come many improvements to Syracuse. Thousands of strangers will be brought to our town by the electric road, and some bright business capitalists will see our advantages and locate factories here. Let them come, they will find THE REGISTER always ready to extend to them all the assistance at its demand.

**A Valuable Prescription.**  
Editor Morrison of Worthington, Ind., "Sun" writes: "You have a valuable prescription in Electric Bitters, and I can cheerfully recommend it for Consumption and Sick Headache, and as a general system tonic it has no equal." Mrs. Anna Stehle, 2839 Cottage Grove Ave. Chicago, was all run down, could eat nor digest food had a backache which never left her and felt tired and weary, but six bottles of Electric Bitters restored her health and renewed her strength. Price 50 cents and \$1.00. Get a bottle at Bushong & Miller's drug store.

**Rise and Fall of Lake Wawasee.**  
Table I. gives the rise and fall of the lake from July 6 to Dec. 31, '95. On the former date a graduated stake was driven into the lake at a point opposite the University Biological station, and regular observations made of the stage of the water until Sept. 23d, when another stake was constructed on the post of one of the new boat houses in Syracuse Lake and marked so as to compare with the one on lake Wawasee. In this way the work could be continued here, after the Biological Station closed for the season and at the same time the observation here be in perfect accord with the notes taken on the first measuring stake.  
September 17th a rain gauge was obtained from the U. S. Dept. of Interior, and set up within 800 feet of the lake, since which time daily observations have been taken at 7:30 a. m., and 5 p. m., of the precipitation, rise or fall of the lake, temperatures of the air and surface of the lake where it is 25 ft. deep, and the bottom of the lake at the same depth; besides many notes of the temperature of the shallows near the shore.

It will be noticed that for September there were four precipitations aggregating one and fifty-three hundredths inches, and that on the 25th, notwithstanding a rainfall of one and forty hundredths inches the lake rose but, seventy-five hundredths of an inch. This may be accounted for in the suddenness of the downpour which did not reach the lake in so large a volume as it did even 800 feet west, or there were physical conditions in the lake basin by which the water was carried off so rapidly as to prevent a rise corresponding with the fall.  
In October there were six precipitations aggregating one and fifty-nine hundredths inches. During this month the stage of water was lowered three and eight tenths inches or a net loss of five and thirty-nine hundredths.  
The lake reached its lowest point Nov. 2d, at which time it was ten and one-half inches lower than July 6th. During this month there were fourteen precipitations (rain, snow and sleet) which aggregated four and seventy-one hundredths inches, causing a rise of six and twenty-five hundredths inches.  
There were fourteen precipitations for December amounting to seven and thirty-five hundredths inches, which caused the lake to rise twelve and twenty-five hundredths inches, making the gain of November a total rise of eighteen inches above the low water mark of Nov. 2d, or a net gain of seven and one-half inches over level reached July 6. These are the conditions which obtain 5 p. m., Dec. 31.

At this hour there is a favorable outlook for another ice crop. The north-east corner of the lake is entirely covered with a crust from one-fourth to one-half inch thick, while extending clear around the lake is a belt of about 15 feet wide the same thickness.  
The sensible heat is fast leaving the deeper portions of the lake as is demonstrated by the mist arising all day; with this nearly all removed and a continued low temperature maintained, it will not be many days till the cheerful ring of the ice say will again be heard.

Herewith is given the table of the rise and fall of the lake since Nov. 2, when it had reached its lowest stage, being at that date ten and one-half inches lower than July 6. It will be seen that from July 6 to date there were eighteen inches rise and a net loss from July 6 to Nov. 2d, of ten and one-half inches making a net gain of 7 1/2 inches.

In the matter of the Estate of BENJAMIN F. CROW, Deceased.  
In the Kosciusko Circuit Court, December Term 1895.  
NOTICE is hereby given that Joseph P. Dolan, as administrator of the estate of Benjamin F. Crow, deceased, has presented and filed his accounts and vouchers in final settlement of said estate, and that the same will come up for the examination and action of said Circuit Court on the 4th day of January 1896, at which time all heirs, creditors or legatees of said estate are required to appear in said Court and show cause, if any there be, why said accounts and vouchers should not be approved.  
Dated at Warsaw, Indiana, this 13th day of December, 1895.  
JOSEPH P. DOLAN, Administrator.

Councilman Geo. L. Lamb is now constructing at his foundry and machine shop on ninth street a naphtha launch for lake Wawasee, which will be run in connection with his new hotel now under contract for construction at South Park. The launch is being built under the direction of Geo. Paterson, an expert boat builder of Benton Harbor, and when completed will be as pretty as such can be well built, being in length 35 feet over all with six feet beam and capable of carrying twenty-five or thirty passengers. Mr. Lamb is also building the engine at his shop. Of course when she is launched there will be a bottle broke on her nose and perhaps some noses otherwise broken on bottles, which is eminently proper as any one knows who has attended ship launchings.—Goshen News

**Buckley's Arnica Salve.**  
The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Chapped Hands, Chilblains, Corns, and all Skin Eruptions and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents a box. For Sale by Miller & Bushong.

**The Silver Craze.**  
Silver has greatly depreciated in commercial values, and may be found impracticable for money purposes, but thousands suffering from dyspepsia, indigestion, and constipation have found that 50 c. or \$1 in silver, invested in Dr. Caldwell's Syrup Pepsin is worth its weight in gold. Trial size (10 doses 10 c.), by Theodore Miller, druggist.

**Important to Clergymen.**  
Clerical permits, entitling clergymen to half rates, issued by the Baltimore & Ohio Railroad Company for 1895 have been extended by general order until February 29, 1896, and will be so honored by agents and conductors.  
Similar permits for the year 1896 will be issued by the company upon receipt of proper application from those entitled to them.

Wife—Here's an account of a man who shot himself rather than bear the pains of indigestion. Husband—The fool! Why didn't he take De Witt's Little Early Risers? I used to suffer as bad as he did before I commenced taking these little pills.

If suffering with piles, it will interest you to know that De Witt's Witch Hazel Salve will cure them. This medicine is a specific for all complaints of this character, and if instructions (which are simple) are carried out a cure will result. We have tested this in numerous cases, and always with like results. It never fails.

**Never Out Of Season.**  
There is no time in the year when Dr. Caldwell's Syrup Pepsin is not a benefit to mankind. It cures constipation and indigestion, and diarrhoea caused by bad condition of the digestive organs. Trial size bottles 10c, also 50c and \$1 size of Theo. Miller, druggist.

**Very Troublesome.**  
Laxative "teas" are a bother. Caldwell's Syrup Pepsin is more agreeable, pleasant to take and more effective. Try a 10c bottle large sizes 50c and \$1 at Theo. Miller's drugstore.
