Pratt's Food at Miller & Bushong's

Our merchants are enjoying an excellent trade.

See Ketrin's Robes and Household Blankets. Prices very low.

Dr. Ibrig and wife were the guests of S. L. Ketrin and wife over Sunday.

A large lot Men's heavy winter Shirts at Extremely Low Prices!

S. L. Ketrin's

Mrs. Dr. Hoy returned from her old home at Millersburg Ohio Saturday evening.

Miss Vay Hammond was the guest of her uncle Charles Hammond, of Milford, last week.

Preaching in the M. E. church Sunday morning at 11 o'clock sun by the pastor.

Prof. Bean, of the Ligonier schools, visited his brother Mr. Chas. Bean, of this place last Friday.

The people say that we extract teeth without pain.—

Henzl, the dentist.

The railroad company have a large force here this week harvesting ice, which is now 7 or 8 inches thick and of excellent quality.

The town trustees have ordered two prison cages which will arrive soon and be erected in the basement of the school house. The cages complete, delivered here will cost \$145.

Ed. Younce, of Garrett, was home Sunday. He reports his crushed hand as getting along nicely and hopes it may be of some use to him yet, though it will be much crippled.

Our schools opened Monday, after a two weeks vacation. The teachers and pupils will no doubt take hold with renewed energy, and apply themselves during the school term.

The second winter term Elkhart Institute of Art, Science and Industry, Elkhart, Ind., will begin on Tuesday, Aug. 21st to Oct. 26th. Circular free.

The Ligonier people are making

an effort to inject new life into their fair association, and to settle their quarrels, so that the Noble County fairs may be continued. The day of the woolly calf, big pumpkin and three legged chicken is gone it seems, and the dear old county fair, where the mone and the shell racket men harvested the profits of the last crop, specific horses ran imaginative races, and coy maidens pledged their troth over slabs of ginger bread, are to live only in memory.

An exchange remarks that once, when a man fractured his leg or arm, a doctor was called who "set it" now they never do, they always "reduce the fracture," once they had "numb-palsy," now they have "locomotor ataxia," once plain stomach ache, now "appendicitis," once heart disease, now "heart failure," and so on until the end until it almost demands an autopsy to tell "what's the matter," and yet we have apparently progressed in the art of guess work as in all other arts.

Mrs. Mahilia Weaver, aged about 60 years, died at the county infirmary last Friday, Jan. 5, of injuries received by falling from an upper story window in an attempt to run away. Her hips were broken and spine injured. Paralysis and blood poisoning ensued. The deceased passed nearly all her life in this community. She was brought to the home of her son, Mr. Aaron Weaver, of this place, at whose residence Rev. L. W. Love delivered a funeral discourse on Saturday. The burial was at the Concord cemetery. Mrs. Hoover, of New Paris, Ohio, a sister of the deceased arrived just previous to Mrs. Weaver's death and had charge of the funeral obsequies.

Dr. Harris the gentleman interested in promoting the Michigan City and Toledo ship canal was in town last week. The distance from Chicago to Toledo over the route now travelled is said to be 720 miles, while the proposed canal would shorten to 200 miles. Besides the cost of wrecks in the lakes and straits which runs into millions every year, most of which could be saved. The canal is to be 60 feet at the bottom, with a depth of water of 13 feet, is to have anywhere from 22 to 35 locks, and is estimated to cost \$15,000,000—unless Uncle Sam take a partnership in it, in which case the depth of water and the cost will be considerably increased. The proposed route touches South Bend, Goshen, Wawasee Lake and Defiance, Ohio, of which places the substantial people are giving the project much support.

Our friend, Andy Gallagher, the genial dispenser of the laudanum fluid, has placed a comfortable little heating stove in his milk wagon. The stove was made by our tinner, S. Harkless, and is cylindrical in shape, 7 in. in diameter and 12 in. high, and has a 3 in. pipe. With this little heater in his "Pullman car," Mr. Gallagher is better enabled to withstand the intense cold of these wintry mornings. The delivery of milk on a long route is not as pleasant a job as some people think. Mr. Gallagher is always prompt, never missing a day, and brings to his customers good rich milk—the genuine article.

Mr. R. Schenberger and wife of Webster, were in town Saturday.

Geo. Brown and family, James Casey and family and Mrs. Scott, of Ligonier, were the guests of Mr. and Mrs. C. W. Knorr over Sunday.

Will Robins, of Milford, was in town Sunday.

O. H. Aborn, ex-county clerk died at his home in Warsaw on Monday last of neuralgia of the heart.

After twenty-four years as chairman of the democratic central committee of this county Mr. Wm. Conrad has resigned, for the reason that he says, "his age does not warrant him to continue in so active a position." Mr. Conrad retires with the utmost esteem and confidence of the members of his party throughout the county. F. J. Zimmerman, of the Union, was chosen to succeed him. F. M. Idle and Albion Beck were re-elected respectively secretary and treasurer.

Miss Cora Bitterback, accompanied by Jessie Ketrin, returned from Ohio last week, where they had been visiting relatives and friends during the holidays.

G. A. Johnson, the father of the lad who was shot at Milford recently, being dissatisfied with the investigation made by the coroner, procured the arrest of young Robinson under the charge of manslaughter, and he was held to the circuit court in the sum of \$1000 to answer by Justice Field of Warsaw. His father, Capt. North and Albert Lentz are his bondsman.

Warsaw people are complaining bitterly against their canning factory, and the kick they put up when called upon to produce the amount of their donations can almost be heard in this corner of the county. Warsaw isn't a dazzling success in any enterprise we can think of until it comes to the business of getting offices, and then she's a daisy, and don't you ever doubt it.

Word comes from Columbia City that the surveyors are northward bound over the line of the proposed Huntington, Columbia City and Ligonier electric road, and that they expect to reach this city this week. The survey has been made from Huntington to Columbia City. They who pretend to know say that the line will be completed before November, 1896.—Ligonier Banner.

At Claypool last Wednesday morning a Nickel Plate train struck a sleigh containing Wm. Doddridge, a clerk and Daniel Rhoades, a farmer, the former of whom was killed instantly, and the latter injured past hope of recovery. The Claypool Times gives an account of the accident and very feelingly and truthfully adds: "Scenes like the above where friends and old acquaintances are brought before us cold in death or horribly mangled, has its impression."

We notice Col. W. T. Dennis, formerly state fair commissioner, has issued a chart giving the names of all the fish native to Indiana, together with cuts of the same. The list includes rock bass, pickerel, stone catfish, Sacramento perch, largemouth black bass, sunfish, pike, yellow bass, galico bass, white bass, yellow perch, brook trout, wall eyed pike, muskallonge, white perch, brook pickerel, crappie, helmarize, crappie, warmouth, blue sunfish and long eared sunfish.

SOME ELECTRIC RAILWAY PROSPECTS.
The future importance of the Burns Electric Railway system is beginning to reveal itself by the preliminary construction of other similar systems with which it will connect. It has been definitely settled that the Burns will eventually reach from Goshen to South Bend, and from Goshen to some point on Wawasee Lake. From thence it has been said, there will be connections made for Ft. Wayne. It appears a railway is being constructed from Ft. Wayne to Columbia City. Another one is being surveyed from Huntington to Ligonier, passing through Columbia City. The proposed route through Noble county is within five or six miles of Wawasee lake, and that is the point where in all probability, the Burns system will connect with it. The three systems will tap a number of pleasant inland lakes, where summer resorts will be established. The Burns system will boast of Christiana Lake, near Elkhart, and Wawasee Lake at Syracuse. The Huntington-Ligonier system will have Shiner Lake, and the Ft. Wayne line Everett Lake. Thus in the summer time, Goshen people can take an open car through the country, stopping at a number of different resorts, if they are so inclined.

Saturday morning the directors of the Huntington, Columbia City & Ligonier Electric Railway met at Columbus City in Marshall, McNaughey & Clugston's office to decide on which route to send their surveyors north from that city. The company has been considering three routes; one to pass Loop Lake, another to go to Crooked Lake, and the third to touch Center, Round and Shiner Lakes. It has been their intention to establish a summer resort at whichever one of the lakes they go to. After discussing this matter and considering the plan that Geo. Ruch laid before them, it was decided to have a survey made of the route running to Shiner Lake.—Goshen Times

NOTICE.
I am prepared to gum saws, and grind plow points and do all kinds of repair work at my shop on Main street.—S. Harkless.

Word comes from Columbia City that the surveyors are northward bound over the line of the proposed Huntington, Columbia City and Ligonier electric road, and that they expect to reach this city this week.

The survey has been made from Huntington to Columbia City.

They who pretend to know say that the line will be completed before November, 1896.—Ligonier Banner.

BECKNELL & KITSON,
Milford, Indiana.

Piles of people have piles, but De Witt's Witch Hazel Salve will cure them. When promptly applied, it removes scabs and burns without the slightest pain.

BUCKLEN'S ARNICA SALVE.

The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Chapped Hands, Chilblains, Corns and all Skin Eruptions and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents a box. For Sale by Miller & Bushong.

THE SILVER CRAZE.

Silver has greatly depreciated in commercial values, and may be found impracticable for money purposes, but thousands suffering from dyspepsia, indigestion, and constipation have found that 50 c. or \$1 in silver, invested in Dr. Caldwell's Syrup Pepis is worth its weight in gold. Trial size 10 doses (10 c.) by Theodore Miller, druggist.

Wife.—Here's an account of a man who shot himself rather than bear the pains of indigestion. Husband! The fool! Why didn't he take Dr. Witt's Little Early Risers? I used to suffer as bad as he did before I commenced taking these little pills.

If suffering with piles, it will interest you to know that Dr. Witt's Witch Hazel Salve will cure them. This medicine is a specific for all complaints of this character, and if instructions (which are simple) are carried out a cure will result. We have tested this in numerous cases, and always with like results. It never fails.

NEVER OUT OF SEASON.

There is no time in the year when Dr. Caldwell's Syrup Pepis is not a benefit to mankind. It cures constipation and indigestion, and diarrhea caused by bad condition of the digestive organs. Trial size bottles 10c, also 50c and \$1 size of Theo. Miller, druggist.

VERY TROUBLESOME.

Laxative "teas" are a bother. Caldwell's Syrup Pepis is more convenient, pleasant to take and more effective. Try a 10c bottle large sizes 50c and \$1 at Theo. Miller's druggist.
