JOHN N. JOHNSON.
Obituary.
William Webster McCann was born in Lincoln County, Ohio, December 28, 1848, died at his late residence five and one-half miles east of Syracuse, January 3, 1898, aged 49 years and 5 days. The deceased was a member of Kosciusko Lodge No. 230, Knights of Pythias. In his death the lodge and community in general recognize the loss of a most worthy member. As a citizen he was highly respected, and those who knew him best were his best friends. He leaves a wife and seven children, four sons and three daughters, who have the sincere sympathy of the entire community. The remains were laid to rest in the Byer's cemetery Wednesday, January 5, under the auspices of the K. of P. lodge. Rev. Rogers conducted the funeral which was largely attended.
Syracuse Tent No. 157, met in their lodge room last Thursday night and after the usual business of the order, the degrees were conferred on four candidates. The work was done by Knights from Cromwell and Syracuse. After the candidates were shown through the mysteries of the order—all present retired to the dining room and partook heartily of a bountiful repast prepared by the ladies. Seventy-five done ample justice to the well filled tables. After supper a good social time was indulged in after which all returned home feeling that much good had been done in the way of uniting all more closely together with the bonds of fraternal love. The Knights of Syracuse tent No. 157 are hustlers and are fast coming to the front.
Friday the 24th was the occasion of most interesting exercises in our schools. For some time previous, teachers and pupils had been engaged in preparing suitable programs, and those rendered were in accord with the Christmas thought. In one respect the school children's celebration of Christmas this year, differed from that of all other years. An effort was made on the part of the teachers to instill in the minds of the pupils the proper conception of Christmas; to direct their thoughts from self and selfish things, and to learn a lesson of self sacrifice. Acting upon a suggestion teachers and pupils contributed toward a general fund to be expended in remembering persons who were rendered helpless by some bodily affliction. The sympathies of the children were quickly aroused. They entered into the spirit of the plan with zeal, and soon each room had a neat sum in its treasury. They then selected the person to be remembered and elected a committee to purchase and present the gifts. These committees distinguished themselves for their good taste in the selection of the presents. We think the carrying into effect of this plan had a most salutary influence upon the school as a whole and the lesson impressed is one that will never be forgotten.

this and make it possible for THE REGISTER to typify the town and country by such cordial and substantial support as is necessary for a first-class country newspaper.
Smith Bros.
Smith Bros. conduct a neat clean butcher shop on the corner of Main and Huntington streets, which they purchased this summer. They are men of means and always have a large supply of choice meats at all times. They are enterprising and it is their intention to build a neat meat market on their present location early in the spring.
Henry Sloan.
Henry Sloan conducts a very neat restaurant on Main street, which he purchased of C. E. Ketting early last fall. He has a neat, tidy place, and keeps a small stock of Candy, Cigars and Tobacco, while his lunch counter is always well stocked with choice eatables. He serves meals at all hours and is making a success of the business.
Wm. Bielman.
Wm. Bielman purchased the dray line of D. R. Howser last spring and put his son, John in charge. The business has increased steadily since and they are thinking of adding another dray in the spring. The gentlemen are prompt and obliging and are making it pay handsomely.
Charles Marvel.
Chas. Marvel opened up a small grocery store on Main street a short time ago and is, we believe, doing a nice business. He solicits your patronage through these columns.
There are a number of other small business firms in town, among them the shoe repair shop of Geo. Edsall, the neat harness shop of Eli Grissom, who carries a neat stock and is an excellent workman; the barber shops of Eli Bushong and Renny Cox, who are artists at their trade and keep neat, clean places of business. The blacksmith shops of Jesse Murgatroyd, Wm. McClough and A. J. Medlam, who are all good mechanics and are doing excellent work.
Andrew Gallagher.
Though a resident of Elkhart County, Mr. G. is numbered among our own business men. He has a well equipped dairy farm and delivers milk daily to a large number of customers. His patrons all agree that he is a model milkman, honest, conscientious, prompt and obliging. He has had considerable experience in the dairy business, and is enabled to conduct it with complete success.
Our Churches.
We have not space nor time to give a full write-up in this issue of our churches such as they deserve, and must beg them to permit us to postpone that duty for the present. In a future issue we hope to be able to give something of their history and their membership. At present we must content ourselves with noticing that we have seven church organizations—Methodist, Church of God, Lutheran, Dunkard, Progressive Dunkard, United Brethren and Evangelical—the services of all which are regularly and largely attended. There are five Sunday schools. So that, although the misguided and unlawful citizen may be led away from home in search of bargains in merchandise wherewith to clothe his worldly body he certainly ought not hope to find a market in which there is closer competition for his patronage in things spiritual.

Brought About by Moving the Legation to a Warship.
"This controversy between Hayti and Germany over the Luciers case," said an old resident to a Washington Star reporter recently, "brings to my mind the fact that the United States at one time at least during my life showed the same spirit that Germany did in demanding an indemnity at the point of a gun. The incident happened just after the close of the war and was about the same kind of affair. The Brazilian government had imprisoned or treated an American citizen in some outrageous way, and the American minister at Rio Janeiro, acting on his instructions, demanded an indemnity. He was put off from day to day, and finally from week to week, until he made up his mind that he was either going to do his duty or lose his position, so he said nothing more about the matter, but waited for a United States war ship to anchor in the harbor. When the vessel arrived he quietly moved his effects from the legation to the boat and then announced to the powers in Brazil that he had located the United States legation on the deck of a United States war ship, and that unless that indemnity was forthcoming in three hours he would shell the town. The indemnity was paid."
ENGLAND'S COAL SUPPLY.
Is Nervously Discussing Its Possible Exhaustion.
Once again England nervously is discussing the possible exhaustion of her coal supply, which forms the backbone of her commercial supremacy. Leonard Courtney, as president of the Statistical society, this week more than confirms Prof. Jevons' view that the supply will be in peril within an ordinary lifetime. The output for 1896 actually was 30 per cent. less than it would have been if the rate of progress in Jevons' time had been maintained. While the British output has increased less than 2 1/2 times since 1850, the American output has increased tenfold, while the American cost of output has greatly increased. This confirms the Spectator's belief that America soon will occupy a position of unchallenged supremacy in the industrial world, England must adjust herself to a smaller output of coal and iron, and a readjustment of vocations.
"If," adds the Spectator, "English supremacy be destroyed, it will be not through the failure of coal, but through incapacity to keep pace with the electric development in America and Germany."
A NEW MAP OF ALASKA.
Important surveys of the Yukon and surrounding country to be made.
The United States geodetic survey ship McArthur has been ordered to Alaska waters and with the opening of spring will head for the Yukon river, there to remain until a series of important surveys have been accomplished and a thorough study of the country made. The McArthur lies on the banks at the Hay & Wright ship yards, Oakland, Cal., receiving repairs, but will soon be in readiness for active service.
Capt. L. Wilhelms, in charge of the ship, under instructions from the navy department at Washington, has secured bills for towing a small stern-wheel steamer to the mouth of the Yukon to aid in the surveying work and to serve for the navigation of rivers too shallow for the McArthur.
The McArthur will work up the Alaskan coast, taking observations until the mouth of the Yukon is reached. Then the stern wheel will be brought into use and the crew and officers will go up the Yukon as far as possible, carefully surveying the country and preparing charts for a new government map of the district.
Stone in Judea.
The hill near Jerusalem where the crucifixion of Jesus occurred is formed of limestone. The shores of the dead sea are lined with pumice stone, showered out of some volcano that destroyed Sodom and Gomorrah, which cities finally sank beneath the waters of the Dead sea.

Extra copies of THE REGISTER are always in demand. Read your own paper and don't borrow your neighbor's.
ONE OF TWO WAYS.
The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.
CHIEF CAUSE.
Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be easily avoided. To find out correctly, set your urine aside for twenty four hours; a sediment or settlement indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. KILMER'S SWAMP ROOT, the great kidney and bladder remedy is soon realized. If you need a medicine you should have the best. At Drug-gists fifty cents and one dollar. You may have a sample bottle and pamphlet both sent free by mail. Mention THE SYRACUSE REGISTER and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietor of this paper guarantees the genuineness of this offer.
Mrs. Mary Bird, Harrisburgh, Pa., says: "My child is worth \$10,000 to me; yet I would have lost her by croup had I not invested twenty cents in a bottle of One Minute Cough Cure." It cures coughs, colds and all throat and lung troubles.—Miller & Estlick.
Mrs. Stark Pleasant Ridge, O., says: After two doctors gave up my boy to die, I saved him from croup by using One Minute Cough Cure. It is the quickest and most certain remedy for coughs, colds and all throat and lung troubles.—Miller & Estlick.
