

## Harvest

Is almost over and the time has come to clean up the feed lot and give back to the land that which has been taken off, in the way of straw and grain. There is but one way to do this and that is to buy an

### Ideal Manure Spreader of Lepper & Cole

and let them show you how to make dollars out of rotten straw. In this cut you will see the original New Ideal Spreader with all its good points. You get in this spreader a very low, narrow, not too long, but just right spread. Very easy to load because of height and does its work evenly under all conditions. It is easy to see that a machine can do better work with two cylinders than one. The old spreaders have only one and no perfect distribution. We have no competitors, they all talk about "The New Ideal." Get in early and avoid the rush.

For Hot Weather Hardware, Buggies, Surries, Studebaker Wagons, Etc., see us, we will treat you right.

Yours For Business,
