HIGH SCHOOL NOTES

Miss Julian is ill at her In-
dianapolis home.Despite the fact that the
weather man has been giving us
cold weather, Mr. Jones keeps
the school building warm.Miss Graves, Miss Julian, Mr.
Blackman and Mr. Van Gorder
visited their respective homes
during the Christmas vacation.The school bell rang out bright
and merrily Monday morning.
The pupils returned from their
week's vacation to start in on
the second semester of school
work.The Volley Ball contest has
been finished and the Cubs took
first place, which was a chicken
dinner. The game came out at
a hot and cold game, with the

R 1925

The year should prove a
prosperous year for the
States. The year
has been hopelessly. Increased
prices of stocks have added
millions to the wealth of
the country; farmers as a rule are
prosperous; railroads must have
a tremendous quantity of new
rolling stock and extensions to
meet the increasing demands;
the public utility builders were
never so active; automobile busi-
ness never so promising; the
steel business never had brighter
prospects—and the mechanic
seems assured of steady employ-
ment. International relations
are peaceful, political conditions
at home will not materially ef-
fect the proposed business ad-
ministration, and on the whole
everything has a decidedly healthy
appearance.

LEFT FOR CALIFORNIA

Mrs. Harry Myers departed on
Saturday for Chicago, where she
will spend a few days in the
home of her mother, Mrs. Gib-
son. From there she will go to
Los Angeles, Calif., to join her
husband, who is located in that
city. Mrs. Myers was accompan-
ied to Chicago by her brother, D.
L. Gibson, who remained there
until Sunday evening. Mrs. My-
ers spent the summer here in the
home of her brother and during
her stay made many warm
friends who will miss her
pleasing manner in the Gibson
Variety Store and at social gath-
erings.

have been together, and makes
it a day long to be remembered.

TOTAL ECLIPSE OF THE SUN

When the sun rises in North-
ern Minnesota, northeast of
Red Lake, on the morning of
January 24, 1925, its disk will
be covered by that of the moon,
passing directly between earth
and sun. The shadow will sweep
in a path 100 miles wide, east
and south across the Great
Lakes, Northern Pennsylvania,
New York, Connecticut and
Rhode Island, leaving North
America finally at Nantucket,
then swinging northward and
glancing off the earth between
the Shetland and Faroe Islands
at sunset. As the sun is blotted
out, you behold a black disk ra-
diating rays of light. Immedi-
ately outside the disk is a shal-
low rim of brilliant red, the
Chromosphere, and outside that
is the wonderful pearly white
corona. Its light is so delicate
that under all circumstances ex-
cept the total eclipse it is in-
visible. In the brief moments
astronomers must look hard and
notice much. For possibly a
month beforehand everything
will have been rehearsed many
times, like a fire drill or sham
battle. At the last minute the
procedure will go like clockwork,
provided only the weather is
clear. A United States army air-
plane will race the shadow of
the moon nearly 400 miles across
New York State during the
eclipse for the purpose of taking
photographs with a specially de-
signed camera.

LEFT EAR IS KEENER

Left ears are becoming more
efficient than those on the right
side of the head, according to a
professor of the Yale Medical
school. He attributes this to the
fact that Americans use the left
ear almost exclusively for hear-
ing over the telephone receivers.
Although both ears are of equal
size, constant use of the left ear
in telephoning has made it more
efficient than the right one.

\$25 Per Acre

In Walton County, Florida,
you can buy good land near Pen-
sacola, a new town site on a
large bay adjoining the Gulf of
Mexico, east of the city of Pen-
sacola.This large estate which has
been recently purchased by the
Florida Realty Trust, for subdivi-
sion, on account of the fertility
of the soil and the beautiful
location of the new town of Pen-
sacola, is just being placed on
the market, thus giving an op-
portunity to get in on the
ground floor, to buy land and
lots at the beginners price, pro-
viding you invest while the
proposition is new.The railroad fare from Chica-
go, round trip, is less than
\$75.00. The time required for
going one way is 30 hours. The
first excursion from Chicago by
this company will be the middle
part of January.For further information write

Grace Lutheran Church

What's better than the first
Sunday in the New Year to start
going to Sunday School and
church if you haven't been go-
ing? Or are you going to live
the new year just like the old
one—wasting your Sundays in
the same old way? Why not sur-
prise the neighbors by coming
next Sunday. You will be wel-
come.

Sunday School, 9:45 a. m.

Morning service with sermon
and Holy Communion at 10:45.Missionary Society next Tues-
day evening.

Evangelical church at 7 p. m.These services will continue
throughout the week.

All are cordially invited.

F. H. Creman, Pastor.

United Brethren in Christ

Make this resolution for the
New Year—"I will go to church
each Sunday, at least once."
What if you have made it before
and failed in the keeping. Bet-
ter to have resolved and failed
than not to have resolved at all.
"God has a way, which is the
way of life. Thy ways, Oh God,
are in the sanctuary."Remember the Bible Study
hour at 9:45.Union service at the Evangeli-
cal Church at 7 o'clock. This is
the first of the revival services.
Come and get better acquainted
with God.

Wm. L. Eiler, Pastor.

WHERE THE DAY IS LONG

At Leningrad the longest day
is 19 hours, and at Tornia, Fin-
land, June 21 is nearly 22 hours.
At Wardburg, Norway, however,
the longest day starting on May
21 ends on July 22, while in
Spitzbergen they have a day of
three and a half months, during
which the sun never sets.McLaughlin's

FARMERS CONTROL GARLIC

The wild garlic and onion erad-
ication work by the "culture
method" as advocated by Purdue
University, has proven a success
in Crawford County, County
Agent Copeland reports. Three
demonstrations were started in
fall of 1922 and each man co-
operating in putting on the dem-
onstrations, declares that 90% of
the garlic on their farms has
been destroyed by this method.One man when asked what he
thought of this method of killing
garlic, replied, "I would not
plow my garlic field at all this
fall if I did not think there was
anything in this method of get-
ting rid of garlic." These men
think the extra breaking of the
ground in the late fall costs
about \$3.00 to \$3.50 per acre peryear. The remainder of the
breaking in the spring and culti-
vation would be counted as regu-
lar work. The culture method
has been clearly demonstrated to
be the only practical method of
killing garlic on a field basis.

Woman's Case

Amazes Syracuse

A business man's wife suffered, for
two years with sore, watery eyes,
which pained day and night. Finally
she tried camphor, hydragrist, witch-
hazel, etc., as mixed in Lavoptik eye
wash. This helped her AT ONCE.
One small bottle Lavoptik usually
helps ANY CASE weak, strained or
inflamed eyes. Aluminum eye cup

TO THE PUBLIC:--

You have no doubt by this time
received one of our circulars stat-
ing that we are having a sale be-
ginning Friday morning, January 2.
Doors open at 9 a. m.This is no ordinary sale but a
bona-fide sale for the purpose of
reducing our stock, also to sell out
our entire stock of shoes. We in-
tend to discontinue the shoe line
completely. Every pair of shoes,
boots and rubbers in our store
must go at a sacrifice. They in-
clude the very latest in this years
