MAIN STREET
WHITTLINGS

"Curly" Sloan caught a 15 pound
pike last Thursday, fishing through
the ice. The fish had possessed
reasoning powers—it must have
thought "So this is Hollywood." For
everyone that knew of the event
posed beside Curly's fish and had
photographs taken.

Emory Strieby fell through the
ice into the lake Sunday while flying
a kite. Just another Benjamin
Franklin out after knowledge. What
Strieby discovered is that water is
wet.

Seven Democrats are seeking the
office of county clerk and four Re-
publicans. Most people seem to have
the idea that Leland Kinsey, present
clerk is running for his third term.
But the fact is that Kinsey is run-
ning for his second term. He was ap-
pointed to the office Jan. 7, 1928
when his father died, and was elected
to the office Nov. 1928.

The county council refused to pass
on the appropriation for recreating
Kosciusko county as a modified bu-
vine free area. The mandamus pro-
ceedings which are to be brought
will force the county council to make
the necessary appropriation in all
probability. But when some of the
farmers who want cattle tested will
be passed up by the inspector who
will then inspect the cattle of a
neighbor across the road who does
not want his inspected, then every-
one will awaken to the unfairness
of the law by which the county be-
comes recited.

This can easily happen, for if only
20 per cent of cattle in the county
are to be inspected, most of the
farmers are going to be missed, and
as always happens in such a situation
someone will not be missed who
wants to be. What of the remainder
totaling 80 per cent? Are these cat-
tle tuberculosis free? Can those ad-
vocating the appropriation as a
health measure answer this ques-
tion?

Received at the Journal office from
Mr. and Mrs. L. A. Seider in Lake
Worth, Fla. one papaya, a tropical
fruit not seen or tasted since the
editor's early youth about four years
ago in Africa. Seiders mentioned
the fruit last year, that fruit grow-
ers were trying to make these pa-
paya trees bear fruit in Florida.
When Seiders went south his winter
were told not to come home
without a papaya for the editor. One
was received Saturday, packed as
carefully as a piece of china. This is
public announcement that the Seid-
ers may now return home.

The Northern Indiana Power Com-
pany has asked the public service
commission to investigate all its
rates and to fix "reasonable sufficient
and non-discriminatory rates for all
its territory," in a petition filed in
Indianapolis. Inasmuch as only a
few dozen towns have threatened to
ask the commission for lower rates
this past winter, would it be going
too far to wonder if any of the high-
up officials in the power company
ever played that get-the-jump-on-the-
other-fellow game called poker?

HIGH SCHOOL GRADUATES
ENJOY BOB SLED RIDE
BEFORE SNOW MELTS

The Hustlers, class of '31 from
Syracuse High school enjoyed two
parties last week, a bob sled ride on
Tuesday night and a coasting party
Wednesday night.

Mr. and Mrs. Warren Fisher enter-
tained Rowena Kline, Helen Allen,
Anna Sudlow, Irene Shock, Mamie
Wogoman, Junior Jones, Dean Grady
Johnny Sudlow, Eugene Henwood
and Noble Fisher, Tuesday.

Early in the evening the 12 enjoyed
an 8-mile bob sled ride. To break
the monotony of such a ride on the
first and last real snow of the season,
the members of the party took
turns riding a small sled attached to
the bob sled, and then tried riding
horseback without a saddle.

On the return to the Fisher home
refreshments were served, and the
rest of the evening spent playing
cards.

This party was so much enjoyed
that the next night Eugene Henwood
invited the group and Pauline Shock,
Duane Kline, Paul Grimes and Geo.
Henwood to a party at his house.
They enjoyed riding in a one horse
shay, and sled riding down the hill
nearby, playing cards and dancing.

Now that spring has come the
class is ready for boating, the mem-
bers say.

J. P. Dolan has returned to Syra-
cuse after a visit of a few weeks to
Chicago and other places in the
west.

We have heard it intimated that
the Dunkards are thinking of build-
ing a church in this place, probably
during the coming season.

A new building is being erected on
South Huntington street near the
corner of Main to be occupied by the
new meat market of Jennings and
Bowlid.

We understand that Mr. Moses
Rentfrow's team ran away in the
south part of town on Thursday last,
damaging the wagon to which they
were attached.

Mr. A. Mitchell McClintock cut
his foot very severely one day last
week while chopping wood with an
ax. It was purely ax-idental. Dr.
Lhrig attended the wound.

We understand that Mr. George
Crocker of LaPorte will erect dur-
ing the coming season, a \$2,500 resi-
dence on his property in Syracuse.

Farmers have commenced sowing
their oats. That sturdy old farmer, S.
L. Ketting finished putting in his
crop on Tuesday.

Mr. Mahlon Vennamon had his
foot hurt badly by being caught in
some of the machinery of Sam Bash-
ore's saw mill a few days since.

We understand that efforts are be-
ing made to secure funds to build a
church in this place for the use of
the Methodist and United Brethren
denominations.

ONE DISH MEAL PROVES
TIME-AND-MONEY SAVER

A whole dinner in one dish makes
an inexpensive, time saving meal,
especially for busy mothers of large
families, says Miss Dorthea Muehl,
of the Home Economics Extension
staff of Purdue University. The house
wife can make very appetizing dis-
hes which will provide, at minimum
cost, all the kinds of food the body
needs. These dishes are much less
trouble to serve and may be much
less trouble to prepare than the
same foods in separate dishes. They
are often a convenient means of
utilizing left-overs.

Onion soup with cheese is one of
the most tempting of these one-dish
meals. Made with meat stock, and
served with toasted slices of bread
and plenty of cheese, this soup is not
only filling but a highly nutritious
and ample meal. A cheap and sat-
isfying addition to it, if desired, is
corn bread, with its store of vital
food to add to the various nutrients
of the soup.

Meat stew, made of beef, lamb, or
oxtail, with a mixture of vegetables
and a breadstuff of some kind—
dumplings, whole grains of wheat, or
barley—contains all the essential
kinds of food at very low cost. Serve
in addition, if desired, dried apricots,
raisins, or prunes, to give variety of
flavor and a finish to the meal.

Corn chowder, containing milk, po-
tatoes, onion and salt pork, is an-
other good one-dish meal. Then there
are vegetable soups in which the
cheaper dried or canned vegetables
(homecanned, if you have time) can
be used to keep down the cost. There
are bean stews and peanut loaf, a
long list of soups, chowders, meat
and vegetable pies and other com-
binations of cheap foods which sup-
ply the essential food materials.

Raw carrots, cut in strips, or raw
cabbage, go well with the bean or
peanut dishes.

HIGHER PRICES FOR WHEAT,
CORN AND COTTON PROMISED

Higher prices for wheat, corn and
cotton are guaranteed by the Inter-
national Harvester Company in an of-
fer to this year's purchasers of cer-
tain important crop-producing and
harvesting machines. The higher prices
guaranteed are 70 cents a bushel
Chicago, for wheat, 50 cents a bushel
Chicago, for corn and 8½ cents a
pound, New Orleans, for cotton.

George A. Ranney, vice president
in charge of sales, said today: "We
are convinced that the reluctance of
farmers to buy implements needed
for the economical production and
harvesting of their wheat, corn and
cotton crops is due to the present un-
satisfactory prices of these com-
modities, and we believe that if they are
assured of higher prices for their
products they would not hesitate to
purchase the new cost-reducing ma-
chines that they need."

"In order to meet this situation,
and to evidence our faith that prices
of farm products must soon improve,
we are now offering growers of
wheat, corn and cotton assurance of
higher prices with which to pay notes
given hereafter, and maturing this
year for purchases of certain machin-
es most vitally needed in making and
gathering these crops."

"The list of machines to which this
offer applies includes farm tractors,
harvester-threshers or combines, win-
row harvesters and stationary thresh-
ers."

"On notes maturing in 1932, given
hereafter in payment for the machin-
es listed and representing not more
than 40 per cent of the purchase
price, there will be endorsed the
equivalent number of bushels of
wheat or corn or pounds of cotton
computed at the prices named. If
the average market quotation for the
5-day period prior to and including
the maturity date of the note is less
than the price named, the purchaser

will be credited with an amount re-
presenting the price differential multi-
plied by the number of bushels or
pounds endorsed on the note.
"For example, if the note in 1932
amounts to \$420 it will require 600
bushels of wheat at 70 cents, Chicago,
to meet the obligation. Should the
price of wheat at maturity be
less than 70 cents, say 60 cents per
bushel, Chicago, the purchaser's note
will be accordingly reduced \$60."

"I take this opportunity of reiterat-
ing what the company said in its re-
cent annual report for 1931—that the
present abnormally low prices of
farm products could not long pre-
vail; also that only a slight improve-
ment in prices for farm products
would have an important effect in
correcting the vicious circle into
which all business has been forced
in the period through which we are
now passing."

The cars of J. W. Warstler of Elk-
hart, O. H. Warstler and two
state highway machines were stuck
in the mud, Tuesday on Road No. 6
west of No. 13.

COMMENTS ON THE LIVE
STOCK SITUATION

(H. M. Conway)

The cattle market continues rather
steady with substantial underlying
strength coming from the develop-
ing seasonal scarcity of the lower
grades and an improved demand for
stocker and feeder cattle. The
spread in prices is unusually nar-
row, so the tendency will be for
prices to mark time for the next
thirty days, with further prospective
strength in prices of the lower grad-
es. The feeding outlook is quite fa-
vorable for the late spring and
summer, with the lower grades hold-
ing up well until early June.

Despite some recent price reaction
the further seasonal decrease in sup-
plies puts the hog market in a
strong position with higher prices in
prospect during the next few weeks.
The large supply of lightweights re-
flects an early movement of fall
pigs, which eventually will make for
a sharp seasonal reduction in sup-
plies during the summer and early
fall. Conditions favor summer feed-
ing with highest prices expected in
August and early September.

The lamb market continues in a
strong position. Rather sharp fluctu-
ations are to be expected but no
great increase in supplies can ma-
terialize before late May.

In the analysis of the factors in-
fluencing the seasonal variations in
the market supply of live stock, it
has been found that the feeder is
governed very much by his experi-
ences the previous year. If a plan
of feeding was successful he tries it
again, but if he lost money he shifts
to some other plan. So, if there is any
general advice to give the producer
and feeder, it should be this: "Look
for your money where you lost it."
In live stock feeding the shifts
from year to year are rather mark-
ed, so what happened last year is not
a safe indicator of prospective con-
ditions this year.

REVIVAL WELL ATTENDED

The interest and attendance is
growing with each service at the
Evangelical meetings in the Church
of the Brethren, according to infor-
mation given the Journal. It is said
that if the crowds continue to in-
crease as they have since the be-
ginning last Sunday the room will
not be large enough to accommodate
all by the end of this week.

The pastor, Rev. Jarboe is doing
the preaching, and Mrs. Jarboe di-
rects the singing. Music is furnished
by the orchestra. There had been 17
applications for church membership
by Tuesday night.

It is expected that services will
continue next week.

INTERNATIONAL HARVESTER OFFERS

Price Guaranty
on Wheat, Corn, and
Cotton

Many farmers who need new machines for the economical
production of their wheat, corn, and cotton have been reluctant
to buy them because of uncertainty as to the prices they will
receive later in the year for these farm products.

In order to meet this situation the Harvester Company offers
farmers purchasing machines after this date, a definite price guar-
anty on varying quantities of their wheat, corn, and cotton. If
market price quotations for these products do not reach the guar-
anteed prices at the time payment becomes due on notes given
and maturing this year, farmers buying machines included in this
special offer will receive a credit equal to the difference.

Many of our customers we know will welcome this announce-
ment. Come in and let us explain the details of the Harvester
Company's unique guaranty. Let us show you the machines on
which it applies and tell you just how to take advantage of it in
equipping your farm at once with the new cost-reducing machines
that you need.
