The NEW EDISON

No Needles to Change—Even Records of All Other Makes Sound More Human When Played on The New Edison

WHEN you think of music—think of RE-CREATION. Let
that word "RE-CREATION" burn into your memory. It
represents a new standard—a new art in music. It means the
imperishable "Re-Creation" in your own home of the living music
of the masters—Re-Created with all the fleeting breath of reality.

¶ Don't misunderstand. There is talk-
ing machine music—as ordinarily con-
ceived—and there is a wonderful new
art—the Re-Creation of Music. In
that field the New Edison stands alone
—a solitary, dominating figure. Other
instruments are made only to repro-
duce music. The New Edison Re-
Creates it. A small distinction in words
but a tremendous one in performance.

¶ In thousands of public tests it has
been conclusively demonstrated that it
is impossible to distinguish which is
the New Edison and which is the living
voice when the instrument and the
artist are heard together. This direct
comparison test is one test that no
other phonograph manufacturer dares
to make.

¶ Close your eyes and the record in
your home is the living artist singing.
It is wonderful. It is true Re-Creation
of music. Come and hear the art of

the New Edison. It will be a revela-
tion to you.

¶ There is a wide range of Edison
models. There is one to meet *your*
need. Come and ask to hear it.

¶ Miss Elsie De Wolfe, America's fore-
most interior decorator, after examining
the new line of Edison Period Cabinets
volunteered this unqualified endorse-
ment of them:

"The Period Cabinets which Mr. Edison
has adopted are in pleasant contrast to
the rather grotesque cases one so fre-
quently sees—the superior furniture
value of the Edison cabinets can
scarcely fail to impress the lover of
good furniture."

And *they will impress you*. So come in
today and see these beautiful cabinets—
hear the marvelous music Re-Creations.
Both will delight and surprise you.
