We Guarantee this New Edison to be an exact Duplicate of the Instruments that have amazed millions in 4000 "Tone-tests." Come and hear it.

Let us play this instrument for you. It is an exact duplicate of the Original Laboratory Model which cost Thomas A. Edison three million dollars to develop.

## The NEW EDISON

"The Phonograph with a Soul"

The tone-test is the acid-test of a phonograph.

The artist sings. Suddenly he ceases to sing—and the New Edison takes up the song alone. Is there any difference between the living voice and that voice as Re-created by the New Edison?

4000 such tone-tests have been given.

50 different artists have made them.

3 million people have heard them

In every test, human ear has been unable to detect any difference between living voice and Re-created voice.

What other phonograph manufacturer dare claim this—much less guarantee it?

Insist upon seeing this Laboratory Model of the New Edison. Let us give you Edison's unique Realism Test. Let us show you clippings from America's leading newspapers which substantiate all we say about the New Edison.

Our Budget Plan is your opportunity to get your New Edison now and pay for it at your convenience.
