OPEN LETTER

William Gray Loehr.

To the Voters:

Considering voters as the employers and office seekers as applicants seeking employment I am making the race for the Republican nomination for a first term as Prosecuting Attorney for the 54th Judicial Circuit, comprising Kosciusko County, because I think that a fourth term is too long and too much for any one aspirant.

Concerning qualifications I will give the following:

I was born in Warsaw April 21, 1887, finished the common schools of Kosciusko county, then Warsaw high school in 1905, fol-

lowed by experience in farming, gardening, poultry-raising, real estate, hardware, grocery business, and school teaching. Later I attended and graduated from the following schools: Winona College, Benjamin Harrison Law School, and Indiana Law School of Indianapolis, and Indiana university with A. B. and Bachelor of Laws degrees. Was admitted to practice law in all courts both state and federal in 1916 and have had four years experience except fourteen months that I served in the United States Army during the world war as Private First Class Company "A" 26th Machine Gun Battalion.

I can give the best of references from all my former employers, eachers, and the above named schools. If you see fit to employ me I will do my best to make good. Your vote on Tuesday, May 4th, will be appreciated.

Here is my Platform:

1. Be sure you are right then go ahead.
2. Do all your duty all the time without fear or favor.
3. To put the principles of the "Golden Rule of the Bible" into practice in politics and administration.

Truly yours for success,

(4222) William Gray Loehr.

DON'T
COMPLAIN
of the High Cost of Living

We are doing our best to
eliminate it

We have stopped the costly delivery system in our store, and we have also put our business on a cash basis. We therefore can mark our goods at a very low margin of profit.

Come into our store and see what a difference the new system makes in the cost of the groceries you need.

Remember when the first
automobile came to town

TODAY there are more than 7,000,000 of them in the country. Pretty soon nearly everybody in this section will be traveling around in his own automobile

that we sold them to you.

III
U. S. Tires have a record behind them.

They are built by the people who perfected the first straight side automobile tire, who produced the first pneumatic truck tire.

Two of the greatest contributions to tire and motor economy ever made.

IV
As representatives of the oldest and largest rubber concern in the world, we have a reputation to live up to. We can't afford to substitute "just as good" tires for tires of standard quality.

II
The first thing a man wants to know nowadays, when he starts out to buy a car, is how much it is going to cost him to keep it running.

It's all very well to take some dealer's word about a tire—if you know who he is and his object in selling it to you.

Our object in selling U. S. Tires is to have you come back for more—and be glad

Select your tires according to the roads they have to travel:

In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.

For ordinary country roads—The U. S. Chain or Usco.

For front wheels—The U. S. Plain.

For best results—everywhere—U. S. Royal Cords.
