

SALE OF LOTS IN THE TOWN OF KNOXVILLE, KNOX COUNTY, INDIANA.

THE subscribers will offer at public sale, on the premises on Monday the 21st of October next, the lots composing the plot of said town.

KNOXVILLE is beautifully situated on the East bank of the Wabash River, at the head of the Grand Rapids, twenty miles below Vincennes, and about five above Mount Carmel and Selma. The site of the town is an elevated bench, running bluff to the river, high and dry at all seasons, which, as it recedes from the river, expands into a beautiful prairie of about a mile in length and breadth, in a high state of cultivation. The country around is as fertile as any in the west, and is as rapidly settling. The subscribers can boldly state without fear of contradiction, that no point on the Wabash possesses greater commercial advantages than Knoxville. Commanding by its peculiar position on the confines of two states, the trade of the finest portions of Wabash and Lawrence counties, in the State of Indiana, and situated at the head of the Grand Rapids, it cannot fail of becoming a place of considerable importance. "All experience teaches, that the Rapids or Falls, on a navigable stream, must become important," and that the town situated at the head of these obstructions, will far outstrip those located at the foot, and hence the subscribers are confident that the day is not distant when Knoxville will be to her neighbors just below her, what Louisville is to Shippingport and Portland. In addition to these advantages, the State has already appropriated \$50,000, for the improving the navigation of these Rapids, and a survey is to be made during the present month. This improvement will be made in one of two ways, either by cutting a canal on the Indiana side of the river, around the Rapids, or by throwing dams across the river, and making slack water navigation—in either event the water power created will be immense and must make Knoxville the Rochester of the west. Independent of these considerations, there is no point on the river which presents stronger inducements to the speculator in produce—the whole surplus of the Wabash valley will either pass by it to a more distant market, or pour itself into her laps—and when health and other things are considered, the subscribers know of no place, which more strongly recommends itself to public attention.

AND FOR SALE AT THIS OFFICE.

SALE OF LOTS IN THE TOWN OF LE ROY, Crawford County, Illinois.

THE Subscribers will sell at public sale on the premises on Monday the third of October next, the lots composing the Plot of said town.

LeRoy is beautifully situated on the west bank of the Wabash, 24 miles north of Vincennes, two miles east of Palestine, seven south of Metron, immediately below the mouth of Lamotte creek. It is now the landing place for goods, for the supply of a large and rich portion of Illinois, especially for the chief part of Crawford, Coles and Shelby counties, and it possesses advantages for the produce business, not surpassed by any point on the river, a box Vincennes. LeRoy is only seventy miles due east of Vandalia, and is the natural depot for the trade of all the country west of it to that place and north west to the border of Sangamon County, embracing the extensive and wealthy settlements on the Embarras, not equalled by any other for the production of Pork, Cattle and Corn. Lamotte prairie is immediately above, on the west side of the Wabash, and is one of the most thickly settled prairies in the state, and directly opposite on the east side, within one mile of the River is the settlements on Gill's Prairie.

The town rises gradually from Front street on the river, on the foot of a hill containing plenty of stone and coal of the best quality. There is a large vein of the latter article crossing the river immediately in front of the plot. The country in the rear is high and rolling. There is a spring of the best quality on the plot, and in fact the subscribers know not of any place in the whole country combining so many circumstances affording the prospect of prosperity in business, united with the enjoyment of health.

A Steam Saw Mill has been erected on the premises, and sufficient buildings for a Grist Mill. The machinery and building are of the first order, which will be sold at private sale if applied for immediately. Part of the lots to be sold, front on the river, and present advantageous locations for business.

The terms of sale will be 10 per cent. in cash, the balance in equal payments of 6, 12 and 18 months, without interest if promptly paid.

PUBLIC SALE OF LOTS In the Town of FLORENCE, IN THE STATE OF ILLINOIS.

50 LOTS in the town of Florence, will be offered at public sale on Saturday the 20th of August next in the town of Graysville. Florence is delightfully situated in the county of White, on the Wabash river, about eighty miles above its mouth, and is the only site in the whole intervening distance where a good landing for Steamers can be found, either on the Illinois or Indiana side of that river. From this place the river is navigable for Steam boats to the point of its junction with the Ohio; at all times when they run on the last mentioned river; and it is the only place below the Grand Rapids which is not subject to be overflowed in high water, on which a town could be advantageously laid out. Bon Pas creek which flat boats descend from forty miles above its mouth, unites its waters with those of the Wabash at this point. Its situation is believed to be as healthy as any on this river. A few miles north west of it is the wealthy and flourishing settlement of Albion. The country around it, abounds with the finest timber—is inhabited by an enterprising and industrious population, and interspersed with farms, which in luxuriance of soil and high state of cultivation, will not lose by comparison with any west of the mountains. It commands the trade not only of White, but also of several adjacent counties, and from the nature of its position, it is destined to be the dividing point of trade between the northern and southern portions of the rich valley of the Wabash. To the merchant, the manufacturer, the mechanic and the speculator, it presents inducements of no ordinary character, as it may safely be asserted, that no town on the Wabash river, has better prospects of arriving at great commercial importance, and a few indeed as good. A plat of the aforesaid town is open to inspection at the house of Thomas Bishop in Vincennes, and at the office of O. B. Ficklin in Mount Carmel, Illinois.

Terms of payment made known on the day of sale.
