Milk ! More Milk !!STILL MORE MILK

It is getting to be an almost everlasting "hollar" with us. But we are serious. We have customers—an increasing number—who want our products and we must be able to buy more milk in order to meet this demand. Come in and let us explain how you will profit by selling your milk to us. We have a plan that will interest farmers and dairymen for miles around. Our last word is, "We want more milk."

and part of the barn, the windmill all down, and all the small buildings and trees all down, and also went through Ira McEndarfer's and Austin Kaser's woods and damaged a strip clear through and did a little damage to Austin Kaser's building and orchard. It was one of the worst storms that has gone through this vicinity for years.

Russell Naragon is buzzing wood for Irvin McEndarfer this week.

The Motive.

All who have meant good work with their whole hearts have done good work. . . . Every heart that has beat strong and cheerful has left a hopeful impulse behind it in the world, and bettered the tradition of mankind. —Robert Louis Stevenson.

Automatic Sealing Burial Vault

An Ideal Receptacle for the Dead

WATER TIGHT VERMIN PROOF INDESTRUCTIBLE

WHY there are more Automatic Sealing Burial Vaults used than any other type. BECAUSE the Vault is all in one place. The lid closes on the vault in such a manner as to automatically seal it. No fear for wet cemeteries, no fear for gophers and other animals and no joints to come apart should they dig or undermine beside same.

One of our workman says, "Should it be that at my burial I could not have both a casket and an Automatic Sealing Burial Vault and but could choose between a casket without a vault or a vault alone I would take the vault." Further he says that if a person gets a nice casket for his beloved that is all the more reason that he be buried in a good substantial vault.
