## NOW EXCHANGING LIBERTY BONDS

NO CHARGE, FEDERAL RESERVE BANK WARNS, FOR EXCHANGING YOUR LIBERTY BONDS.

Holder of third Liberty Loan coupon bonds have started to exchange their temporary certificates into permanent bonds in the Seventh Federal Reserve District, according to the reports of the Federal Reserve Bank of Chicago. As the returns are beginning to come in the officials of the Reserve Bank wish to reiterate the statement made in March, when the first exchanges were made, that there is absolutely no charge to the bond holder for the exchange.

The Government makes no charge for the exchange of temporary into permanent bonds," said a Federal Reserve Bank official. The temporary ones may be surrendered through banks and trust companies and forwarded by them to the Federal Reserve Bank of Chicago. The new bonds will be delivered at the expense of the United States. The bank wishes to make this point clear to all holders of Liberty bonds so they will know officially that no bank has the right to charge anything for effecting the exchange.

In this district there are outstanding approximately \$50,000,000 of the third loan bonds, dated May 9, 1918, and maturing September 15, 1928. To this issue there were close to 3,450,000 individual subscribers. The Reserve Bank has supplies of the permanent bonds of the first and second 4s and first and second 4 1/2s. In round numbers, there is \$18,000,000 of these four classes of bonds outstanding in this district.

In making exchanges on the first and second 4s the Treasury Department has ruled that deliveries of permanent bonds will consist of first and second 4 1/2s, unless the holder specifically requests otherwise. As there is no advantage in possession of the 4 percent bonds, it is expected that by making exchanges in this manner they will be practically eliminated from the market.

The first 4s represent conversions of the first 3 1/2 percent Liberty Loan bonds to the 4 percent bonds of the second Liberty Loan. The second 4s are the original second loan. There is every advantage in converting these to the 4 1/2 percent bonds of the third Liberty Loan, as they retain their original maturity dates.

The first 4s have been without an interest coupon since last December; the second 4s since November. This interest will be fully adjusted on the exchange into permanent bonds.

**BUY YOUR COAL EARLY  
IN THE SEASON**

The man who has to loaf from 75 to 100 working days during the year, is going to demand higher pay for the 200 to 225 days when he can work. That simple truth goes far to explain the troubles in the coal industry. The public can eventually reduce the price of coal if it will comply with the request of the bituminous coal commission to buy coal in May, June and July and store for next winter. If coal mines could be produced for less money, and the threat of strike made less likely.

**Conditions That Bar Happiness.**

No man can be happy when he despises his own acts, when he has any consciousness of wrong, whether of motive or act. No man can be happy when he harbors thoughts of revenge, jealousy, envy or hatred. He must have a clean heart and a clean conscience, or no amount of money or excitement can make him happy.—Exchange.

**Holds Picture Nail Solid.**

When a wall is so soft that it will not hold a picture nail, mix a little plaster of paris in a tencup; enlarge the hole to a fair size and insert the plaster—and, a minute after, the nail—and let it dry. The nail will be perfectly secure after it has dried.

**A Way to Fame.**

Fame is very easily acquired. All you have to do is to be in the right place at the right time and do the right thing in the right way—and then advertise it widely.—Kansas City Star.

**Wrap up a very smooth piece of lead in a piece of paper, then hold it over the flame of a taper; the lead will be melted without burning the paper, providing there are no wrinkles in the paper and that it is in contact with the lead everywhere.**—Electrical Experimenter.

**Fisherman's Lucky Day.**

A 14-carat gold band ring was found by John Moore, one of the crew of the fishing schooner Gertrude De Costa, inside a big halibut caught on George bank recently. The ring is a man's size and is believed to have been dropped overboard from some trans-Atlantic liner. Judging from its condition when recovered from the halibut's stomach by Moore, the ring had been lost recently. Moore will wear it, as there is no way of determining the ownership.

**Put it up to Grandfather**

Four-Year-Old Kept Her Pennies, While Elderly Relative Was Forced to "Dig Up."

Grandfather is a very dignified, retired minister. But still, with all his dignity he regularly takes his four-year-old granddaughter to Sunday school because he thinks that she should have this religious training while she is yet young.

The other Sunday it was Mary Ellen's fourth birthday and she, after the custom of the school carried with her four pennies to place in the birthday basket. Everything went nicely and the tot went to the front, her little face happy above her Sunday finery. Still smiling she stood in row with the other birthday children and waited while the basket was passed.

When it was taken to the others and she saw them put their pennies into the basket Mary Ellen became distinctly uneasy. She seemed about to flee; then to reconsider and stayed. But when it reached her, instead of dropping her pennies into it as the others had done she held to them very tightly indeed and said: "No, I'm going to keep them myself. If you want any others you can tell my grandpa up. He had a whole handful this mornin'."

And grandfather, in order to keep his reputation free from having any of the taints of a piker, had to rise from his seat and come forward with four pennies. Then was the amusement of the congregation not only seen but heard as well.—Indianapolis News.

**LAST OF GREAT MONOPOLY**

Three Million Acres of Hudson's Bay Company's Land to Be Given Over to Farming.

When King Charles II. made a grant of land in America to "The Governor and Company of Adventurers of England Trading into Hudson's Bay" he generously turned over to them about three-quarters of North America, an empire which time has diminished until now the Hudson's Bay company is selling to settlers the rich acres which it still retained after surrendering its authority over its Canadian holdings to the Dominion government, fifty years ago, for an indemnity of \$1,500,000. Little enough did Charles, in 1670. Imagine the future history of the trading company he had established; still less could he have pictured the chain of retail department stores in the twentieth century. Over 3,000,000 acres of fertile land, the last substantial fraction of King Charles' grant, is being sold to farmers; and as it has lain uncultivated since the days of the Indians, it is pleasant to think that the farmers will soon be busy on it.

**Wanted Smell to Materialize.**

John had been taken by his mother for a long ride to see an old aunt who was slow in getting the dinner on the table. John was hungry and could smell the dinner. Finally, in order to hurry things a little, he edged up to the aunt and said: "I'll be so glad when I can taste that smell, won't you?"

## DAYS ARRIVE FOR GINGHAM THOUGHTS

What woman does not look forward with a great deal of pleasure to "gingham days"? Time was when gingham could only be thought of as "an around home frock," but the dainty coolness and bewitching appeal of such summery apparel makes them permissible for varied wear. Here is one of the season's new models and already milady is busy in planning her summer wardrobe.

## PAYMENT OF PLEDGES TO ROOSEVELT FUND URGED

William Boyce Thompson, President of the Roosevelt Memorial Association, has issued an appeal for the payment of all unpaid pledges to the Memorial Fund which were made during the October campaign, 1919. Residents of Indiana should remit direct to William C. Bobbs, State Chairman, 18 E. Vermont Street, Indianapolis. Those who did not avail themselves of the opportunity for contributing during the October campaign are invited to do so now.

Total cash and pledges raised to date in Indiana exceed \$85,000, of which amount \$13,000 was contributed by the public schools. Marion County raised \$23,602 including \$3,385 contributed by school children. Four counties exceeded their quotas, raising the following amounts: Allen \$7583; Fayette \$1639; Franklin \$867; Union \$702.

## George Y. Hepler

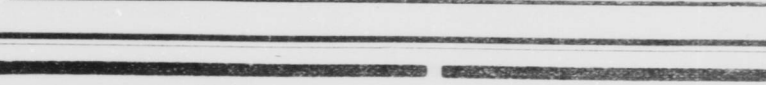

Democratic Candidate for Congress

Voters of the Thirteenth District of Indiana:

In this time of reconstruction and of tumult, it is imperative that men of action rather than men of words, should be chosen to represent you in your legislative bodies, men who have been tried, and men of experience in public affairs. There is a strong feeling among thinking people that Congress needs business men rather than orators.

With this thought uppermost, George Y. Hepler, present State Senator of St. Joseph County is presented for your approval. His age is sixty-two years, and he has been a resident of Indiana forty-two years, started in life as a farm hand, has been a successful contractor and lumberman and farmer, and has won the confidence and respect of the people of the 13th Congressional District and of the State of Indiana by the conscientious manner in which he has fulfilled his duties as a member of the General Assembly of Indiana during the past six years.

He has been twice president of the Inter-State Fair Association and is now a member of our State Board of Agriculture. He is a recognized leader in advancing farm organization and numbers among his friends and acquaintances, not only farmers, merchants and business men in all lines, but his record as a legislator has made the laboring men of Indiana his staunch friends and supporters. Let us unite to put a business man and practical farmer in Congress from our District.

## Safeguarded Investments

**PAYING FROM 6 TO 12 PER CENT**

OUR PARTIAL PAYMENT INVESTMENT PLAN makes it easy to save money systematically and to accumulate high class securities paying good dividend returns and capable of large increases in value.

Let us explain this plan to you. Tell us how much you can pay down and how much you can pay monthly.

Tell us what securities you have, if you have any, so we may advise you as to their present value, stability and future.

We will make up a special investment suggestion for you according to what you can afford to invest on this partial payment plan either on 10-payment or 20-payment basis.

Write to our Department A-2 for our paper "Guaranteed Investments" giving advice on the market conditions—it will interest you.

## How Glasses Preserve One's Youthful Appearance

It is often urged that glasses will make the wearer look old, but, as a matter of fact, wearing glasses is one of the best preservers of a youthful appearance.

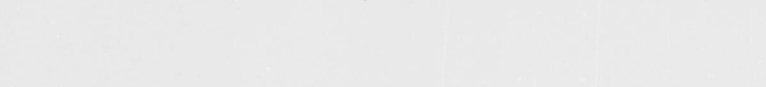

This is because prolonged eyestrain causes wrinkles and "crow's feet" to appear prematurely and gives the countenance a strained, tired, drawn cross look which is far more to be avoided from a point of view of appearance, than from any real or fancied disfigurement caused by glasses.

We use particular care in fitting glasses and in the selection of mountings most becoming to each person's individual style of beauty.
