PROSPECTUS. FOR THE SECOND VOLUME OF THE OHIO FARMER, AND Western Horticulturist.

Published at CINCINNATI, OHIO, BY S. MADARY.
Well aware of the peculiar difficulties attending the publication of an agricultural periodical, yet satisfied that nothing is of higher importance to the country, than that of the cultivation of the soil and the various subjects connected with it, the Editor of the *Ohio Farmer* is determined to persevere in his labors.

The 2d vol. of the *Ohio Farmer* will, therefore, be commenced, on the first day of January, 1835. In continuing this publication the Editor feels that he may justly and appropriately appeal to the friends of Agricultural and Horticultural improvements in general, to aid in its circulation, and to enrich its columns with contributions from their pens. During the short period of its publication, it has received countenance and circulation, fully equal to the anticipations of the Editor, and which he thinks a sufficient guaranty of its continuance, and to warrant a general support.

The proper culture of the soil—improving live stock—disease of animals—the improvement in culture of garden and field vegetables and mechanical arts, and Agricultural and garden implements—Domestic economy—Botany—Geology—Natural History—Chemistry, &c. &c. will all receive due attention, from both original communications, and extracts from the most approved works.

In addition to the interests of the first volume, the Editor is making preparations to enlarge and improve the *Farmers* by numerous CUTS, representing more clearly the subjects above enumerated. As this will necessarily incur a heavy expense, a corresponding patronage is expected and solicited.

At the request of a number of Eastern correspondents, the Editor intend, also, in the course of this volume to give from time to time, a condensed view of Agricultural condition and resources of the great Mississippi Valley—the points where emigration for the time being is the most tending—the prospects held out to emigrants—the face and health of the country—the prices of land—the facilities of navigation and streams for milling and manufacturing purposes, &c. &c.

Such information is of the most importance to emigrating Farmers, and as closely connected with a Western agricultural publication as the cultivation of the soil itself, or the products suitable to such cultivation. As this branch of the work will extend its circulation to some considerable extent among eastern gentlemen, and others who wish to purchase western lands; the holders of such lands would find it to their interest to make the same known through its columns—and whenever this is done, to any extent, the description of such will be published on a separate sheet and forwarded as a cover to the *Farmers*. The usual prices of advertising will only be charged. No charge however is intended to be made, for communications for a single publication, descriptive of lands, face and health of the country, &c.

A list of solvent Banks will be occasionally inserted, and any important change in the markets duly noticed.

TERMS.—The *Ohio Farmer* is published twice a month at the very low price of \$100 a year in advance; with an index to each volume.—It is expressly reduced to this price (much below what is safe for the proprietor) to encourage its circulation, and promote Agricultural science. All notes on solvent Banks received. Payment may be made by mail at our risk, free of postage. Persons obtaining 5 subscribers shall receive the 6th copy gratis, or for \$20 00 shall have 25 copies sent to their direction.

Two Dollars Reward.

AT the last Switzerland Probate court the undersigned, influenced by motives of charity, became the guardian of RUFUS STEVENS, a son of the late Darius Stevens of Jacksonville, aged nearly fifteen years, and, though likely to become a pauper, in anticipation of his being faithful and trustworthy to my interest, I furnished him with a blue broad cloth coat; one bear skin cloth roundabout jacket; two pair of jeans, and one pair of corduroy pantaloons; two pair of shoes; a fur hat, socks, shirts, &c. all new—yet this ungrateful rascal absconded from my care and services last night, taking all the above articles with him. He has a sheepish down look, is ill bred, a notorious liar, and is considered by the neighbors light fingered. All persons are forbidden harboring or employing him, under the severest penalty of the law. Two dollars will be paid to any person who shall return him and the clothes to the subscriber.

VEGETABLE RHEUMATIC DROPS.

MANY articles are before the public, as a cure for that most obstinate and tormenting disease, the Rheumatism; and from close observation we are led to believe, that they have to a very great extent, failed to produce that desirable result—and may it not be attributed to the fact, that articles said to cure this troublesome disorder are also recommended to cure almost every disease with which our frail bodies are attacked, and in their preparation that object is kept in view, viz. to have the medicine a cure for all diseases.

The Vegetable Rheumatic Drops are offered to the public as a remedy for Rheumatism, and in no case is known where a perfect cure was not effected. we are justified in declaring it a valuable medicine for that painful disease, and for no other it is recommended.—Price 50 cents.

CERTIFICATE.

Messrs. O. & S. Crosby & Co.
Gentlemen—I feel happy in having it in my power to state to you the good effect your Vegetable Rheumatic Drops, or Sure Remedy, had in restoring me from a sick bed. In the month of April last, I was so affected with the inflammatory Rheumatism, that I was confined to my bed. I was entirely unable to help myself. I could not so much as turn myself in my bed, and it was with the greatest difficulty that I could move in it. I tried various kinds of medicine, and was attended by skillful physicians, but all to no effect until I made use of your Sure Remedy, which when applied as directed, gave me immediate relief. Within a short time after I commenced using it, I was able to ride out attend to my usual business. I cheerfully recommend it to the public, as being a good medicine for Rheumatic complaints, as it has been a number of months and have had no return.

Vegetable Tooth-Ache Drops.

THE only specific ever offered to the public, from which a permanent and radical cure may be obtained, of that disagreeable pain, the TOOTH-ACHE, with all its attendant evils; such as fracturing the jaw in extracting the teeth, which often proves more painful than the tooth-ache itself, and cold passing from the decayed teeth to the jaw, thence to the head, producing a rheumatic affection, with many other unpleasant effects, such as a disagreeable breath, bad taste in the month, &c. all of which are produced from foul or decayed teeth. I am happy to have it in my power to offer to the world, a remedy, that will not only remove the pain, nine times out of ten, properly applied, but preserve the teeth from further decay, and arrest the disease in such an easy and safe manner, as to have commenced acting, deterring them to health and usefulness.

ETIc, Pa. Oct. 17, 1832.—The subscribers, having witnessed the pleasing effects of Doctor Thomas White's Vegetable Tooth-Ache Drops, feel a pleasure in recommending it to those that are afflicted with the tooth-ache, as a safe, and in most cases, perfectly efficient remedy for the disease.

DOCTOR JUDKINS' SPECIFIC OINTMENT.

THIS valuable medicine is celebrated for curing the following diseases, viz.—White Swellings, of every description; Sore Legs and Ulcers of long standing; Glandular Tumors; Felons or Catarrhs; Rheumatic pains of the joints; Sprains, Bruises and Tetter; Chilblains, or the parts affected by frost. It is also good for scalds and burns. For glandular swellings, it is superior to any medicine yet known. It is much safer than mercurial applications, (as it does not excite the smallest action of that mineral,) because it does not lay the patient liable to injury from exposure to cold. It cures the worst Felons or Whitlows on the application of forty eight hours. Rheumatism which have stood so long as to become a systematic disorder, require medicine to be taken inwardly to remove them entirely. But in most cases, by applying this Ointment, externally as directed, it will give relief.

FOR SALE, by J. F. Stevens, Vevay, and Lyman W. Mix, Mount Sterling.
October 27.
