THE WESTERN SUN.

VINCENNES, AUGUST 4, 1810.

KNOX COUNTY,

Indiana Territory.

At a meeting of the inhabitants of Goshen township, opposite the mouth of Green river, on the 16th day of July, 1810.—The meeting formed itself into a committee for the purpose of considering our present unhappy situation, in danger from our Indian neighbours, and perhaps more so from internal enemies, viz. British and French emissaries, whose intention is our overthrow—

The committee proceeded to the choice of a chairman, and Aeneus M'Callister, esqr. was unanimously chosen, and took his seat—the committee proceeded to business—and therefore,

1st. Resolved, That our sincere thanks be presented to his excellency governor Harrison, for his unwearied diligence in his office for our safety and happiness, notwithstanding the opposition he must have met with from internal enemies—and that we acknowledge our attachment to him as our guardian, and as a friend of every good man.

2d. Resolved, That we desire the concurrence of every true friend to liberty, desiring at the same time, that those Europeans who have left their own country, and who cannot live free, and cannot enjoy the blessings of a free independent country, that they return to their own country, and enjoy all the blessings that political slavery and oppression can give them.

3d. Resolved, That we will at the risk of our lives and fortunes, protect and defend our public officers in the execution of our laws, and in opposing both our foreign and domestic enemies—and that we do allow of a fair and impartial investigation of the conduct of our public officers, when need shall be—and at the same time, we shall not with pleasure allow of imperious and insulting language, in the course of investigation—such as shall have a tendency to lessen the affections, or enrage the people against their officer, until it appear from sufficient evidence that they are faulty, and worthy of that disapprobation which the nature of the case requires.

4th. Resolved, That the chairman provide some safe conveyance, and that he forward these our resolutions, to his excellency governor Harrison—assuring him, that we will rest in confidence upon his wisdom and goodness for our protection, being well pleased with the choice of the president and council, in the choice of a governor—and that we think it our duty to pray for his prosperity.

Signed by order of the committee,

AENEUS M'CALLISTER,
Chairman.

Goshen, July 16th, 1810.

Mr. Barron returned from his mission to the Shawnee Prophet on Thursday last.—He reports, that the Governor's speech, of which he was the bearer, was received by all the Indians assembled at the Prophet's town, with great apparent satisfaction. They positively deny, that they had any intention of going to war against the United States—but the Prophet's brother (who appears to be the efficient character amongst them) acknowledged that they could never be good friends with the United States until they abandoned the idea of acquiring lands by purchase from the Indians, without the consent of all the tribes.

The Chief of the Weas, who was there, told Mr. Barron, that he came for the purpose of informing the Prophet, that he had nothing to do with the lands on the Wabash, and that he should not meddle with them.

Mr. Barron further states, that the Indians appeared to be much alarmed for fear of an attack, and he has good reason to believe that the Prophet is loosing his influence—he was told that the Winebagos would certainly return to their own country this fall, or the ensuing spring. Five of the horses that were lately stolen, were delivered up to him, but he could bring but four of them.

The Prophet's brother was to set out yesterday on a visit to the Governor, he told Mr. Barron that he would be attended by one hundred men—and the Prophet said that a much larger number would come. We understand that the Governor has sent up an express to meet them, and to request that a few men only may attend the Chiefs. This is done as well on account of the expense of supporting them, as from a belief, that it would under present circumstances be improper to have so large a number in the settlement.

West Florida.

We learn by an intelligent gentleman from West Florida, that there was a general meeting of the inhabitants of the fourth district forming the province of New Feliciana, held at the plantation of the late Mr. Sterling, near St. Francisville, and appointed John Rhea, John Johnston, William Barrow & John Mills, esqrs. all men of reputeability and influence in the country, deputies, to meet at the house of Mr. Duval, St. John's Plains, some day next week, to take into consideration the peculiar state of the country.

We learn from New Orleans, that a destructive fire took place there on the night of the 30th ult. which consumed about 70 dwelling houses.

We have received a bill of non-residents lands in the state of Kentucky—any person willing to examine it will have an opportunity by calling at this office—the sale of said lands to commence on the first Monday in November next.

General Wilkinson, is said to be engaged in writing his own biography at Washington city.
