

THE WESTERN SUN.

VINCENNES, OCTOBER 27, 1812.

The last mail did not furnish a single article of news, either foreign or domestic, of any importance.

Of gen. Hopkins we have heard nothing since our last.

By the last accounts from col. Russell, it appears he left fort Russell, on Sunday the 18th inst with a party of between 5 and 600 men against the Indian towns up the Illinois river.

We learn by gentlemen direct from Louisville, that it was reported there that Niagara has been taken—we give the report as we received it.

Extra of a letter from a gentleman at St. Stephens (Mis. Ty.) to his friend in this town, dated September 26, 1812.

"The Spaniards are evidently preparing for a vigorous defence of the country below. Two months ago 120 black troops arrived at Pensacola from Havana, and very lately 160 more have arrived, and destined as it is said, for the fort at Mobile.

Should they not have reached the latter place before our gun boats got into the bay, their passage will be refilled; but as these have been much injured by the late hurricane, I fear that they may not have arrived in time.

More troops are expected by the Spaniards at Pensacola, with six gun boats.

The prospects in this country are truly gloomy. *Palladium.*

Montpelier, September 17.

From all parts of the country we receive accounts of the movements of the troops and militia. Plattsburgh, N. Y. about 60 miles from Montreal, is their place of destination, where generals Dearborn & Bloomfield, have already arrived with about 2000 men each. The 6th regt. under col. Simons; the 15th. col. Pike, and the 18th. col. Schuyler, all New-England troops are on their march to join the army at Plattsburgh, under gen. Dearborn; the 6th & 15th regts. from New York, were to march on the 3d inst. It is stated that general Bloomfield of New Jersey, is to command the van of the army on the expedition.

Supplies for the Army.—The Aurora informs us that abundant provision has been made to supply the army with clothing of American manufacture. Large quantities of home-made Kerseys, of a very superior quality, have been contracted for, & in part received. A single woollen manufacturer in New-Hampshire has contracted to furnish 5000 yards per month.—Even blankets appear to be coming forward in sufficient quantities.—One individual has offered to furnish a million of pounds of gun-

powder per annum. The prices of these articles are considerably reduced, and the editor says, 'the supplies from domestic resources are so ample as to keep foreign monopolists and forestallers in check; and after the present year, such are the resources of the country, that we shall not require a single article of foreign manufacture to supply the army should it be required to clothe 50,000 men.'

THE subscriber has opened a house of

PUBLIC ENTERTAINMENT

in the town of Vincennes, at the upper end of Water street, near the honorable Benj. Parke's—where he tenders his services to the public in quality of an

INN-KEEPER,

and he hopes from his being well provided with all those things which generally afford rest to the weary—his house commodious—his bidding neat—his servants attentive—his liquors excellent, and just from Baltimore—and his stabling and forage good; to receive a share public patronage.
